Valley (Va.) Railroad.

The stockholders of the Valley Railroad Company met at Staunton, Va., on the 6th inst. and unanimously adopted a resolution authorizing the directors to issue bonds of the company from time to time, as may be necessary, to an amount not exceeding $3,000,000, the proceeds to be applied to the construction and completion of the road between Staunton and Salem. This decisive action of the company terminates the anxiety of the friends of the road, caused primarily by the suspension of work beyond Staunton in consequence of the financial depression several years ago, and subsequently by hostile Virginia legislation, now happily repealed. The section of the road between Lexington and Staunton, a distance of 36 miles, will first be built, and then the road will be pushed to its completion further South.

Statement of the Public Debt of the United States, May 1, 1880.

Interest paid by United States, $45,651,155 94; interest repaid by transportation of mails, &c., $13,084,519 83; interest repaid by cash payments: 5 per cent net earnings $655,198 87; balance of interest paid by United States $31,911,337 24.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, April 30, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

Illinois Central Railroad.

During the month of April, 1880, the Traffic on the lines operated by this company was:

In Illinois	$426,550 00
In Iowa (Leased Lines)	117,920 00
Total	$544,470 00

The Traffic for the same month in 1879, on the same mileage, was:

In Illinois	$378,339 13
In Iowa (Leased Lines)	114,252 12
Total	$492,591 25

During April, 1880, the Land Sales were 5,-181.40 acres for $28,238 45, and the cash collected on Land Contracts was $16,182 15.

L. A. CATLIN, Secretary.

☞ The Louisville and Nashville Railroad Company assumed control of the New Orleans and Mobile Railroad on the 8th inst. The Mobile route is now added to the Southern roads operated by the Louisville and Nashville Railroad company.

☞ The Ohio and West Virginia Railroad was completed to McArthur on the 8th inst,

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, May 13, 1880.

The markets of the past week have been very irregular and unsettled as a rule, with reactions in prices of merchandize and stocks, based upon both speculative and natural influences, the predominance of which and consequently the pre-eminence of which it is impossible, as yet, to indicate. The stock market especially is decidedly mixed, as the large short interest created on the decline has been covering, and while there have been some large buyers and some small, for the long account, it is by no means certain that the downward tendency has spent itself, and equally uncertain whether an upward tendency will be developed soon, or whether we shall see a dull, dragging, summer's market until the crops are far enough advanced to decide the earnings of the railroads the coming year.

It is cited that the railroad earnings are still very largely in excess of last year and that prices of stocks based thereon are already too low. Yet these reported earnings are only the gross, while it is notorious that the working and repairing expenses of many if not most of them have increased in nearly as great ratio, which would show net earnings of a much smaller ratio of increase. However this may be, a comparison of the prices of the active stocks at the Exchange will give a much clearer idea of real values than anything else. The lowest prices of last May and May 10th inst are as follows: Canada Southern, 58¼@55¾; Chicago, Burlington and Quincy, 113¼@121, including scrip dividend; C. C. C. & I. 44⅜@69⅛; Delaware and Hudson, 45⅛@74⅛; Delaware,

Lackawanna and Western, 51⅛@79½; Erie 26⅛ 34½: Hannibal and St. Joseph 17⅝@23; Illinois Central, 85⅝@101⅛; Iron Mountain, 20¼@40⅛; Kansas and Pacific, 60@82½; Union Pacific, 71¾ @82; Western Union Telegragh, 102⅞@98⅞ including a scrip dividend of 17½ per cent; St. Paul, 40⅝@72½; St Louis, Wabash and Pacific, 14@28¾; San Francisco, 9⅛@29½; Rock Island 130¼@181½; Pacific Mail, 13½@33½; Ohio and Mississippi, 14⅜@26; Northwest, 58⅜@87⅝; Jersey Central, 43@69; N. Y. Central and Hudson River, 117¾@124⅝; Nashville and Chattanooga, 35½@69; Morris and Essex, 87@105½; Michigan Central, 78⅝@79; Louisville and Nashville, 53½@120; Lake Shore, 72@101½; Kansas and Texas, 13¾@30¾.

The earnings of 36 roads for April showed over last April an increase of about 25 per cent, against about 35 per cent for March and 34 per cent for February and January. There have been rumors and rumors which have been contradicted and affirmed the past week about the position of Mr. Gould and Mr. Keene on the market and towards each other, which have shaped in a measure the course of speculation. They are said to have changed positions, Mr. Gould turning bull and Mr. Keene changing to the bear side; also that they have joined hands for a bull campaign. But the stock market does not look that way and it would be hazardous to stake money on either or any of these rumors which as usual are put out not to enlighten but to deceive the Street. It would be very strange, however, if there should not be more than a temporary reaction of a day or two after such a decline. Yet on the advance last fall we saw the same anomaly in the opposite direction, and it would not be more strange now to see it repeated on the decline and prices be carried too low, as it is now plain, and as we continually warned our readers last fall, they were being carried too high.

The Money market has had little to do with stock values which have been the lowest and most demoralized the past week, on the easiest money market since the year began. This ease was increased at the close of the week by the Treasury purchase of its weekly $3 000,000 of bonds, for which there has been but little change in price, as these sales are now an important matter in the Street and Money Market. Sterling Exchange has not changed materially or been active. State bonds have been dull without material change.

Railroad bonds have been decidedly more active with stocks, especially the speculative varieties like Erie and Kansas and Texas Junior Mortgages which fell with stocks and rallied therewith, while Boston, Hartford and Erie fell the most on failure of a leading broker in them. The Gould, Vanderbilt and Keene stocks have been the most depressed and forced for sale, including Erie, with the aggregate sales running to 622,000 on Tuesday and 600,000 shares on Monday.

The bank statement showed over $14 000,000 in excess of the legal reserve, an increase for the week of $2,790,400.

The Metal markets have continued depressed and dealers in iron and railroad supplies have complained bitterly of the stagnation, and there have been rumors current on the Street of some of them being in trouble, but no failures are yet announced though there is no doubt general embarrassment among speculators in these goods.

The Produce markets have been more steady, especially breadstuffs, since the opening of canal navigation, and shippers are now taking stuff more freely at rather stronger prices.

The manufactured goods markets of all kinds nearly have shown the same stagnation and depression existing in iron and there is destined to be a general curtailment of manufacture of nearly all kinds before long, unless trade revives, which is not probable on the eve of warm weather and the usual dull season. The iron manufacturers are already shutting down and the coal trade is curtailing production to stop a further decline in prices. The shutting down of our iron manufacturers is due to the flood of foreign iron in our markets which will continue until prices drop to a point that will stop importation. Since January 1st, 141 furnaces were started up in Great Britain, making 600 now in operation there while ours have begun to close in consequence of the folly of putting up prices by speculation last fall.

Mining stocks have suffered along with railroad shares as no money can be borrowed on them as collateral. San Francisco market is also lower as the speculation managers there are still engaged in a freeze out of boni fide stockholders.

As an illustration the Consolidated Virginia had over $600,000 in its treasury, less its working expenses, on May 1st, enough for two dividends, and yet none has been declared since last Dec., and the superintendent of the mine is engaged in putting out low grade ore on reports and others to depress the stock. It is time such managers were brought to bay by the Eastern investors who hold the bulk of this stock and allow the banks of California and Nevada and Wells, Fargo and Company to control their proxies and hence their interests for the benefit of these men they keep at home.

The closing quotations on Thursday were: Atlantic and Pacific Telegraph, 38½@39; Canada Southern, 52@52¼; Central of New Jersey, 67@67½; Central Pacific, 64¼@65; Chicago and Northwestern, 89½@89⅝; do. pref., 107½ @108½; Chesapeake and Ohio, 16⅜@16⅝; Chicago, St. Paul and Minneapolis, 48@50; Chicago, Milwaukee and St. Paul, 72¾@73; do. pref., 99¾ @100½; Chicago, Rock Island and Pacific, 184 @191; Chicago and Alton, 107@108; do. pref., 120@124; Chicago, Burlington and Quincy, 120 @120½; Cleveland, Columbus, Cincinnati and Indianapolis, 70@70¼; Col., Chicago and Indiana Central 10¼@10½; Delaware and Hudson Canal, 70⅜@70½; Delaware, Lackawanna and Western, 75½@75¾; Hannibal and St. Joseph, 25¾@26; do. pref., 67¾@68¼; Houston and Texas Central, 51⅛@—; Lake Shore and Michigan Southern, 102½@102⅝; Louisville and Nashville, 120½@ 124; Michigan Central, 79@79¼; Morris and Essex, 105@106½; Manhattan Railway, 27⅛@ 27⅝; Metropolitan Elevated, 93½@94; Nashville, Chattanooga and St. Louis, 67@69¾; New York Elevated, 113½@114¾; New York Central and Hudson River 125@125½; New York, Lake Erie and Western, 34¾@34⅞; do. pref., —@ 57½; New York, Ontario and Western, 27¼@ 27½; Northern Pacific, —@20½; do. pref., 42½ @42⅝; Ohio and Miss. 25⅞@26⅛; Pacific Mail, 33½@33⅝; Philadelphia and Reading, 45@45¼; St. Louis and San Francisco, 30½@31½; do. pref., 40@40½; do. 1st pref., 63@65; St. Louis and Iron Mountain, 40½@40⅝; St. Paul and Sioux City, 38½@39; do. pref., 72½@74; St. Louis, Alton and Terre Haute, 15@23½; do. pref., 50@67; Union Pacific, 82½@82¾; Western Union Telegraph, 98¾@98⅞; Wabash, St. Louis and Pacific, 29@29⅛; do. pref., 56⅞@57.

The following quotations of sales of Railway and other securities, for the week, are in addition to those given elsewhere in our columns:

☞ The North Pennsylvania Railroad Company announces a quarterly dividend of 1½ per cent (less five per cent of the amount retained for contingent fund), said dividend to be credited to the stockholders as they may stand registered May 13th, and payable on the 25th instant.

☞ The Ontario Silver Mining Company has declared its regular monthly dividend of fifty cents per share for April payable at the office of the transfer agents, Wells, Fargo & Co., 65 Broadway, on the 15th inst.

Annual Report of Pork Packing in the West.

We have received from Mr. Charles B. Murray editor of the Cincinnati Price Current, a copy of its "Thirty-First Annual Report of Hog Packing in the West," for the year ending March 1st 1880. It also contains complete statistics of the Provision trade of the country, which are indispensable to those engaged in this trade, whether in this country or in Europe. We have quoted from the Price Current from time to time during the winter packing season the figures showing the general condition of this trade, and the position of this market is noted weekly in our review. Hence it is not necessary to go into these matters again more than to state that the total results of the winter season's packing of 1879-'80 were about 7,000,000 hogs against 7,500,000 last year. This deficit, however, has been entirely overcome from March 1st to May 1st. The aggregate for the year ending March 1st 1880, was 11,000,080, average weight for winter season 222 lbs net. Yield of lard 36⅛ lbs. Cost of hogs was $5 20 per 100 lbs net, or $1 66 greater than last year. Aggregate cost of hogs $77,250,000, or $19,500,000 more than last year. Production of pork 625,000 bbls, or 108,200 bbls more than last winter. Aggregate production of lard was 252,500,000 lbs, or 765,000 tcs, or 128,200 tcs less than last year.

Madeira and Mamore Railroad.

The petition of Messrs. P. & T. Collins and their creditors, presented to both Houses of Congress, asks for the passage of a joint resolution requesting the President to bring the matter alleged in their memorial to the attention of the English Government, and instruct the Secretary of the Treasury to give public notice that the United States bonds now in the Bank of England, being the trust fund for the construction of the railroad, will not be paid until their rights to the fund is respected, and asking for such other relief as may be due them by reason of the fact that, as American citizens, their rights and property are being jeopardized by the hostile action of the Government of Bolivia attempting to withdraw a concession and grant of money upon the faith of which the contractors agreed to build the railroad and have expended their money.

☞ The approximate earnings of the Atchison, Topeka and Santa Fe Railroad and leased lines for the month of April, 1880, were $692,000; actual earnings for corresponding month in 1879, $546,182. Actual land sales for month of April, 1880, $38,500; actual land sales for corresponding month in 1879, $61,467.

☞ The earnings of the Central Pacific Railroad Co. for the month of April, 1880, were $1,874,000; for the month of April, 1879, $1,406,600. For the first four months of 1880 the earnings were $4,995,101, against $4,832,730 for the first four months of 1879.

☞ The Augusta and Knoxville and the Greenwood and Augusta Railroads have been consolidated under the name of the Augusta and Knoxville Railroad Company. Eugene F. Verdery was elected President.

Lake Shore and Michigan Southern Railway.

The earnings of this road for the years ending December 31, 1878 and 1879 were as follows:

	1878.	1879.

Total to credit Income Account January 1, 1880		$3,078,561 85

Compared with the previous year the gross earnings show an increase of $1,291,726 05, or 9.24 per cent; with an increase in operating expenses of $447,923 55, or 5.28 per cent—making an increase in net earnings of $843,802 50, or 15.86 per cent. The President in his report says:

This company owns 1,024.94 miles, (although 160.07 miles are embraced in three other organizations) and leases 152.78 miles.

Of the 540.49 miles of main line, 235.79 are double track, making the main line equal to 776.28 miles of single track; and two branches—203.78 miles—are so situated that they, with the main line, form a double line of road between Cleveland, Ohio, and Elkhart, Indiana, (101 miles east of Chicago,) making, together, 980.06 miles of track, all laid with steel rails. There are also some miles of steel rails in two branches, making in all 1,082 miles track laid with steel rails.

CONSTRUCTION AND EQUIPMENT.

These accounts remain unchanged. Nothing was charged to them in 1879, notwithstanding an outlay of about $150,000 for items fairly chargeable to construction, and $300,000 paid for seven hundred new box freight cars. Of this amount $138,915 was derived from the premium on $882,000 first consolidated mortgage bonds, sold to pay off a like amount of bonds (of the former C. P. & A. Co.,) which matured January 1, 1880. This item is not included in the earnings on the one hand, or expenses on the other, but was applied directly to the payment for cars as stated. With this exception all outlays for improvements are included in the operating expenses.

CAPITAL STOCK.

The capital stock of the company is $50,000,000, to-wit:

Guaranteed (10 p. c.)	5,335 shares.	$533 500
Ordinary	494,665 shares.	49,466,500
	500,000 shares.	$50,000,000

Of the guaranteed stock, the claim for dividends between 1857 and 1863 has been settled on $360,600, leaving $172,900 still unsettled.

Dividends of 5 per cent February 1, and 5 per cent August 1, have been regularly paid on this stock since August 1, 1863, the date of the first dividend.

Of the ordinary stock the company owns 2,679 shares ($257,900,) which appears among its assets in the balance sheet.

FUNDED DEBT.

The first mortgage debt of the company was diminished from $23,000,000 to $22,750,000 by the regular contribution of $250,000 to the Sinking Fund, which now amounts to $2,250,000 first mortgage bonds purchased and canceled.

The second mortgage debt was increased $665,000, which represents the cost of $1,732,500 first mortgage bonds, and $1,384 700 of the capital stock of the Chicago and Canada Southern Railway Company. This purchase gives this company the control of that company's road. It extends from the Detroit River, at Grosse Isle, to Fayette, Ohio, a distance of 67 miles. From Fayette to Butler, an important station on our Air Line, and the eastern terminus of the Eel River Railroad, a distance of only about 35 miles, the road is graded, and this company was not only menaced with the completion and opening of this road to Butler, but possibly its ultimate extension to Chicago as originally intended. As the opportunity occurred to obtain the virtual ownership of this road at the low cost of $10,000 per mile, it was deemed good policy by the Board of Directors to accept it. This company has operated that road since November 10, 1879, as agent for the Chicago and Canada Southern Railway Company, hence the earnings and expenses of that road are not included in this report. It is proper to state, however, that the earnings thus far, in the winter season, are somewhat in excess of the cost of operating.

The funded debt of this company, December 31, 1879, amounted to $35,915,000, an increase of $415,000.

The amount earned for each share ($100) of the capital stock, after the payment of prior fixed charges, was $7 24, against $5 61 in 1878, and $3 57 in 1877.

The financial results of the ten years since consolidation are shown by the following condensed table:

	Miles.	Gross earnings. $	Operating exp. Amount. $	Per cent.	Net earnings. $
1870.	1,013	18,509,236	8,368,821	61 95	5,140.415
1871.	1,074	14,898,449	9 779,806	65 64	5,118,643
1872.	1,136	17,699,935	11,839,526	66.90	5,860,409
1873.	1,175	19,414.509	13,746,598	70.90	5,667 911
1874.	1,175	17,146,131	11,152,871	65.04	5,993.760
1875.	1 175	14,434,199	10,531 501	72.96	3,902,698
1876.	1,177	13,949,177	9,574,836	68.64	4,374,341
1877.	1 177	13,505.159	8,963,956	66.37	4,541,193
1878.	1 177	13,979,766	8,486,601	60.70	5,493,165
1879.	1 177	15,271,492	8,934,524	58.50	6,386.968
Av...	1.145	15,380,805	10,137,855	65.91	5,242,950

	Interest, leases and dividends guaranteed stock.	Dividends. Amount.	Rate.
1870	$1,828,897	$2,752,260	8
1871	2,121,164	2,874,355	8
1872	2,201,459	3,466,096	8
1873	2,654,560	1,978,040	4
1874	3,008,193	1,607,661	3¼
1875	2,810 294	989,330	2
1876	2,759,989	1,607 661	3¼
1877	2,775 657	989,330	2
1878	2,718,792	1,978,660	4
1879	2,754,988	3,215,322	6½
Average	2,563,899	2,145,881	4.9

It will be observed that the net earnings in 1879 were the largest in the history of the road, notwithstanding the snow blockade lasting through January and February, followed by a bitter railroad war in May and June, during which rates dropped to figures which were unprecedented.

The following condensed tables show the freight and passenger business for the entire ten years—1870-1879:

FREIGHT.

	Tons.	Average miles hauled.	Tons 1 mile.
1870	2,978,725	192.7	574.035,571
1871	3,784,525	193.9	733,670 696

1878	2,746,032	49	138,702,021
1879	2,822,121	50	141,162,817

Revenue.	Receipts per passenger per mile. Cent.	Cost per passenger per mile. Cent.	Profit per passenger per mile. Cent.
1870 .. $4,192,960	2.612	1.618	.994
1871 .. 4,006 724	2.808	1.843	.965
1872 .. 4,218,543	2.599	1.739	.860
1873 .. 4,569,730	2.542	1.802	.740
1874 .. 4 249,022	2 452	1.595	.857
1875 .. 3,922,798	2.378	1.735	.643
1876 .. 3,664,148	2 090	1.438	.652
1877 .. 3,208,200	2 319	1.539	.780
1878 .. 3 057,398	2 287	1.166	1,121
1879 .. 3,188,003	2.223	1.448	.775

The freight business in 1879, as compared with 1878, shows the following results:

Increase in tonnage, 1,442,849 tons, 28.7 per cent
Increase in tons one mile, 392,955,614, 29.3 per cent.
Decrease in rate per ton per mile, cent, .092. 12.6 per cent.
Increase in freight earnings, $1,239,309, 12.3 per cent.

The number of tons moved one mile in 1879 as compared with 1877, shows the extraordinary increase of sixty per cent.

Passenger earnings for the year show an increase of $80,610, coupled with a decrease of passenger train mileage of 62.000 miles.

OPERATING EXPENSES.

The road was operated in 1879 for 58½ per cent of the earnings, the lowest percentage ever reached. This included all outlay, as nothing was charged to construction or equipment. Besides the additions to the property already mentioned, there was included in the operating expenses the cost of 9 500 tons steel rails, increasing the number of miles of track laid with steel from 1,002 to 1,012.

CONCLUSION.

The year under review completes the first decade of the existence of this company. The management congratulates the stockholders upon the late decided improvement of business, following the long period (six years) of depression. The abundant harvest of last year, following the liquidation of the preceding years, and the practical settlement of the financial policy of the nation, produced a general feeling of confidence in "better times," and has been followed by an increased business activity all over the land, which, it is believed, is substantially permanent in its character.

The number of engines on the road December 31, 1879, was 495. Miles run by engines, 12,966,275, against 11,609,370 in 1878. Cost of repairs per mile run 4.24 cents, against 4 58 cents in 1878.

The cars are classified as follows: first-class passenger 99, second-class and smoking 35, smoking and baggage 12, emigrant 21, railroad postal 28, baggage 48, baggage and mail 10, paymasters' 2, box 5,871, stock 1,321, oil 292, platform 1,517, coal 1,532, caboose 256, derrick 9 and dumper 148.

Tons of through and way east bound freight, 4,943,252; do. west bound, 2,598,042—total freight movement, 7,541,294. Tons carried one mile east, 1,197,135,107; do. west, 536,288,333—total, 1,733,423,440.

Number of through passengers carried: first-class, 44,102; second-class, 7,930; emigrant, 8,413—total, 60,445. Way passengers: first-class, 2,782,120; second class, 16,746; emigrant, 12,810—total, 2,761,676. Total through and way, 2,822,121. Passengers carried westward, 1,423,817; do. eastward, 1,398,304. Miles traveled by through passengers, 32,640,800; do. way passengers, 108,522,017—total mileage of passengers, 141,162,317.

Repairs and renewals, included in operating expenses:

	Tons.	Miles.
Steel rail	9,528	98.80
Re-rolled iron rail	431	4.57

Railroad Transfer Barge.

The Baltimore Sun notices the arrival at that city of the new railroad transfer steam barge Canton, built by the Harlan & Hollingsworth Company, Wilmington, Del., for the Baltimore and Ohio and Philadelphia, Wilmington and Baltimore Railroad companies, and then adds:

The Canton is a really handsome piece of maritime construction, with none of the appearance of pondrous unwieldiness that might be expected of a barge that can transport 27 loaded railroad cars at one time. The length is 82 feet, breadth over all 64 feet, depth 12 feet, and she is 1178 tons. There are two 24-foot wheels, independent in action; two condensing engines, 36-inch cylinder, 9 feet stroke, aggregating about 1,000 horse-power; two boilers, 22 feet long and 8 feet diameter, and 60 pounds of steam are allowed. The boat is of iron, except the deck beams and decks, with joiner work enough to cover the machinery. The engines and boilers are both above deck, set over the guards on the main deck. The barge is double-ended, like most ferry boats. A feature which gives a lightness and symmetry to the whole, is the elevation of the pilot houses above the decks and the machinery on a framework, which answers both for a "bridge" for the captain and a resting place for the pilot house. There are two pilot houses, elevated 20 feet above the decks, as stated above, each 100 feet apart, and giving an entirely unobstructed view in all directions. The boat is fitted with life preservers, boats, etc., as required by law, and is perhaps the largest transfer barge on the Atlantic coast. The total cost of such a boat is about $175,000. The Canton is fitted to have three railroad tracks on deck, each to accommodate nine cars.

Wells, Fargo & Co.'s Postal Business.

The Post Master General has decided, after a careful investigation of Wells, Fargo & Co.'s independent Post Office business, that there is no such vital interference with the revenues of the Post Office Department as would justify him in depriving the people of the Pacific coast of the privilege they have so long enjoyed, and which the Government has so long permitted. With regard to the legal right of the company to carry the business correspondence of the Central Pacific Railroad, the Postmaster General holds that the road has a perfect legal right to carry its own business letters for itself, or to authorize Wells, Fargo & Co., as its agents, to perform this service for them along the line of their road, but no further. Wells, Fargo & Co. have, since the commencement of the investigation, agreed to limit their service for the Central Pacific to points along the line of the road, to stop carrying the correspondence of the Western Union Telegraph Company free, and to require particular care on the part of their agents in exacting full and proper postage on all mailable matters which they carry for the public. The postal officers selected to investigate the matter recommended the suppression of the privilege of carrying letters other than their own or the correspondence of the Central Railroad, but in view of the disposition shown by Wells, Fargo & Co. to conform to the law and concede the rights of the department in the premises, the Postmaster General declines to enforce the recommendation or take further action in the matter.

☞ Work was commenced on the 5th inst. by the contractor, J. Spiller, of Baltimore, on the Somerset and Cambria Railroad, two miles northeast of Somerset, Penn.

Massachusetts Central Railroad.

At a meeting of the Directors of this company on the 5th inst., the office of Vice President was created, and General Silas Seymour, one of the Directors, was selected to fill the position. General Seymour is also Consulting Engineer of the same road, and also of the Adirondack Railroad, which road is now in operation from Saratoga northward, a distance of 60 miles, toward Ogdensburg, its proposed termination, and upon which it is expected that active work will be resumed the present season. There are some indications that the Massachusetts Central and its lessees, the Lowell road, are looking in this direction for a connection with the Grand Trunk when the Central is completed through to the Tunnel. A short link of new road from Saratoga to Mechanicsville would give an excellent connection via the Boston, Hoosac Tunnel and Western Railroad and the Tunnel Road between the Central Road and the Adirondack Railroad.

If the New York Central carries out it its contract with the Boston and Albany, and the Erie works in connection with the Fitchburg, the above connection appears to be the only western connection available for the Massachusetts Central, until an independent line is constructed upon the south side of the Mohawk River Valley to the lakes. This connection, however, may possibly be constructed before the one through the Adirondack, as different parties are hard at work forwarding the Mohawk Valley scheme, of which General Burt seems to have plans the most advanced toward a promising issue. His plans contemplate the construction, in connection with the roads now in operation of a railroad extending from Schenectady to Syracuse, and thence to Lake Ontario at Oswego, and from Syracuse to Elmira, where connections are available with not only the Erie Railway, but with the Pennsylvania system and the semi-bituminous regions of that State.—[Boston Journal.

Pennsylvania Railroad.

In accepting the resignation of Colonel Thomas A. Scott as President and a director of the Pennsylvania Railroad Company the Board of Managers certified their regrets in a glowing tribute to the wise and energetic service which the retiring officer rendered the company. This sentiment was embodied in a report prepared by a sub-committee, which was in these words:

The special committee to whom the Board referred, on the 1st instant, the letter of Mr. Thomas A. Scott tendering his resignation as President and one of the directors of this company, have given it that consideration which the gravity and importance of the communication demand.

The proposed severance of his official relations with this company is an event of deep moment in its history. He has occupied, during the whole period of his active manhood, positions of trust and honor, including the highest, in its service, and covering all but a few years of its entire corporate existence. Entering upon his first duties when the company owned but an uncompleted highway between Harrisburg and Pittsburg, he leaves it at a period when it shares, through its connections, the traffic of the most populous areas of the continent. So justly appreciated are the services thus rendered that we are sure we express the sentiment, not only of the Board of Directors, but of the entire body of shareholders, when we say that they cordially joined in the hope cherished and so reluctantly relinquished by him that he would be able to continue in the service of the company during the residue of his life, and that they also deeply regret that this hope cannot be realized.

Much as we deplore the loss of his great abilities and experience in the councils and in the active duties of administration of the affairs of the company, we grieve much more at the necessity which prompts his resignation. That it is a necessity we need no other assurance than that he whose life has been one of supreme devotion to the interests of the company has himself recognized and so feelingly communicated it to the Board. Keen as are his regrets at sundering these relations, his associates in office feel it as keenly, for they deem it not improper to place upon record that his personal association with them has inspired an affection for the man as sincere as the admiration which they entertain for his achievements as an officer. This is not the appropriate place for a review of his labors and sacrifices or of the results achieved through them in the interests, not only of the Pennsylvania Railroad Company, but of the entire country. They will make a large portion of the history of the road when it shall be written. We feel that our present duty is performed in recognizing the necessity which leaves the Board of Directors no alternative but an acceptance of Mr. Scott's resignation, to take effect at the date named by himself. In doing this we express the hope that relief from the exacting cares and responsibilities which have weighed so heavily upon him in the past, will restore him to his wonted health and fit him for many years of future usefulness. We recommend the acceptance of the offer he has so thoughtfully made, to render in his retirement such aid as he can in maintaining the high degree of prosperity now enjoyed by the corporation, and to which his own labors have so much contributed, deeming it appropriate that that aid should be rendered by him in such manner and under such circumstances as may be most agreeable to himself. We express to him the assurance that he will leave his official position accompanied by the warmest wishes of the directors, officers and all others engaged in the service of this company for his continued welfare. It is not necessary to repeat in formal resolutions the sentiments already expressed, and we offer for adoption the following:

First. That the resignation tendered by Mr Thomas A. Scott of the office of President and director of this company, to take effect on the 1st day of June next, be and is hereby accepted.

Second. That this report and the resolution be placed at length upon the minutes of the company and a certified copy thereof, properly engrossed, be communicated to Mr. Scott by the Secretary

WISTAR MORRIS,
JOSIAH BACON,
ALEXANDER M. FOX,
SAMUEL M. FELTON,
HENRY M. PHILLIPS,
Special Committee.

Cheshire Railroad.

From the report of the directors of the Cheshire Railroad Company for the year ending September 30, 1879, we learn that the earnings of the road during that time were: from local passengers $30,939 96, through passengers $103,620 37, total passenger earnings $134,560 33; from local freight $21,394 06, through freight $310,199 05, total freight earnings $331,593 11; United States mails $7,738 60, miscellaneous and express $13,557 38, total earnings $187 449 37. The total expenses of operating the road were $399,694 94. Balance of earnings, $87,754 43. Balance of interest paid, including interest on bonds, $47,899 47. Net earnings for the year, $39,854 96. The report adds:

The business of the road began to increase in June last, and continued to gain gradually until the present time. On account of the low rates on through freight and the competition of through lines the earnings for the whole year were very small. The rent for the use of the road between Ashburnham and Fitchburg has been reduced to $51,000 per annum. The company formerly paid $54,000, and was required by the terms of the lease to pay an addition of 10 per cent upon the completion of the double track, amounting in all to $59,400, so that the reduction obtained was $8,400. This amount is to continue until Aug. 1, 1881, when the lease entitles either party to another revision as to amount of rent to be paid. The directors agreed with the directors of the Monadnock Railroad for a lease of their road for a term of six years at an annual rent of $12,000, with the option to extend the same for another term of five years at $13,000, and for another term of five years at $14,000, and for another term of five years at $15,000, each of such extensions being at the option of the Cheshire Railroad Company. The stockholders of the Monadnock Railroad have voted to ratify said lease. The matter of the attachment upon the property of the Boston, Barre and Gardner Railroad is still in court and undecided.

The debt due July 1, 1880, was		$580,900
1880 bonds taken up and destroyed	$357,600	
1880 bonds on hand	2,500	
Cash on hand and investments at their cash value amount to	209,337	
		569.437
Leaving a balance of		$11,463

New York, Lake Erie and Western R. R.

The gross earnings, working expenses and net earnings of the New York, Lake Erie and Western Railroad Company for the month of March, 1879 and 1880, were as follows:

	1879.	1880.
Gross earnings	$1,356,779 90	$1,644,958 19
Working expenses	945 005 52	902,026 98
Net earnings	$411,774 38	$742 931 21

—showing an increase in gross earnings of $288,178 29, with a decrease in working expenses of $42,978 54—making the increase in net earnings $331,156 83.

From October 1, 1879, to March 31, 1880, the earnings, expenses, etc., were:

	1879.	1880.
Gross earnings	$7,772,028 00	$8,821,884 40
Working expenses	5,458,497 40	5,762,315 43
Net earnings	$2,313,525 60	$3,059,018 97

—showing an increase in gross earnings of $1,049,311 40, with an increase in working expenses of $303,818 03—making an increase in net earnings of $745,493 37.

New York Central and Hudson River R. R.

The earnings of the New York Central and Hudson River Railroad for the month of April, 1879 and 1880, were:

	1879.	1880.
Passengers	$412,945 53	$465,662 47
Freight	1,502,063 92	1,921,732 15
Miscellaneous	299,616 70	394,929 96
Totals	$2,214,626 15	$2,782,324 58

The total earnings from October 1, 1879, to April 30, 1880, were $19,094,640 46, against $16,499,921 91 for the corresponding seven months of the previous fiscal year—an increase of $2,594,718 55.

☞ The earnings of the Wabash, St. Louis and Pacific Railroad from January 1 to April 30, 1880, were $3,415,623 17, against $2,431,553 84 for the corresponding period of 1879, an increase of $984,069 33.

☞ The Keyser and Pendleton Railroad Company has been organized by electing J. B. Rees president, C. H. Vandiver and John Miller vice presidents, T. B. Frye treasurer and C. E. Brant

secretary. The proposed railroad is to run from Keyser on the Baltimore and Ohio railroad, up the South Branch valley to Pendleton county, West Virginia.

Seaboard and Roanoke Railroad.

At the annual meeting of the stockholders of the Seaboard and Roanoke Railroad Company, held at Portsmouth, Va., on the 4th inst., the thirty-second annual report of the president and directors was read. It referred to the difficulties which the Southern interests of the company had previously met with, and to the adoption of a policy which had overcome them and made the past year the most successful in the company's history.

The revenue of the company for the year has been as follows: from passengers, $71,181 22; freights, $452,592 61; express, $4,085 07; mail, $3,797 26; steamers, $18,101; wharfage, $187 72; United States transportation, $80; rent of Weldon bridge, $6,000; dividends, interest, miscellaneous, $39,708 21—making a total revenue of $596,038 09. The expenditures have been $359,581 06, leaving a balance of $236,452 03.

The company's property has been improved by building three new country warehouses and ten brick culverts, and by placing in the track 850 tons of steel rails. Two freight locomotives and one passenger coach have been purchased; 25 additional freight cars have been built and 50 more are to be built.

A dividend of three per cent was declared last October by the Raleigh and Gaston Railroad Company, and the prospects of that company are very gratifying.

The report calls attention to the fact that the company's investments in other companies, originally made rather for the purpose of insuring business connections and relations than for income, have yielded for the past year an average slightly over six per cent in all.

The directors will have no difficulty in providing for the first mortgage bonds, which fall due August 1 of the present year, and they have given notice that they have been prepared to anticipate their payment since March 20. They have also felt justified in declaring an increased dividend.

An election of officers for the ensuing year was then held, which resulted in the old board being unanimously re-elected as follows: President and General Superintendent, John M. Robinson; Directors, David A. Barnes, Richard Dickson, R. C. Hoffman, Moncure Robinson, Nalbro Frazier and Enoch Pratt.

☞ The Long Island City and Maspeth Railroad Company has been organized with Patrick Gleason as president. The route is from the ferries at Long Island City to Laurel Hill, Berlin Village, Maspeth, Columbusville, and Middle Village. The capital stock is placed at $100 000.

☞ The survey of a branch road from the main line of the Pennsylvania, Poughkeepsie and New England Railroad has been completed to the slate quarries surrounding Bangor in Northampton county, Penn.

☞ D. Taylor Strickland, of Elkton, Md., has been selected from among the workmen in Harlan & Hollingsworth's car shops, Wilmington, Del., by the Japanese government to set up cars for a railway being built by it on the Island of Jesso.

Clearfield, Pa.	388,755	477,086

The total tonnage of anthracite coal from all the regions for the week ending May 1, as reported by the several carrying companies, amounted to 400,211 tons, against 464,389 tons in the corresponding week last year, a decrease of 64,178 tons. The total amount of anthracite mined for the year is 6 835,918 tons, against 7,210,068 tons for the same period last year, a decrease of 374,150 tons. The quantity of bituminous coal sent to market for the week amounted to 91,653 tons, against 69,371 tons in corresponding week last year, an increase of 22,282 tons. The total amount of bituminous mined for the year is 1,132 637 tons against 1 007,556 tons for the corresponding period last year, an increase of 125,081 tons. The total tonnage all kinds of coal for the week is 491,864 tons, against 533,760 tons in corresponding week last year, a decrease of 41,896 tons, and the total tonnage for the coal year is 7,968,555 tons, against 8 217,624 tons to same date last year, a decrease of 249,069 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the fourth week of April was 150,747 tons, of which 114,269 tons were coal and 36,478 tons coke. The total tonnage for the year thus far has been 2,240,145 tons of which 1,646,328 tons were coal and 593,817 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ended May 1 were 60,209 tons, and for the year to that date 596,753 tons—180,806 tons over the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 32,595 tons, and for the year 462,862 tons, an increase of 178,385 tons over 1879. The shipments to the Chesapeake and Ohio Canal for the week aggregate 20,753 tons, and for the year 62,942 tons, a decrease of 14,634 tons as compared with last year. Shipments to the Pennsylvania Railroad for the week were 7,041 tons, and for the year 70,948 tons, an increase of 17,054 tons as compared with 1879.—[Phil. Ledger, May 10.

☞ The earnings of the Texas and Pacific Railway Company for the month of April, 1880, were $178,000, the expenses $108,990 and the net earnings, $34,010 ; increase in net earnings over 1879, $59,854 20. For the 11 months ending April 30, 1880, the gross earnings were $2,480,700 98, and the operating expenses, including taxes, insurance, etc., $1,407,102 87 leaving as net earnings, $1 073,598 11 ; increase in gross earnings over same period last year, $456 027 72 Ratio of expenses to earnings in 1880, 57.13.

☞ The Boston Journal says that Mills & Co. of New York, contractors for Yale Kamloop's branch Canadian Pacific Railway, have advertised for 500 Chinese laborers, there having been no conditions in the contract prohibiting the employment of such labor.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables

Of all kinds made to order, for Ocean, River, Aerial and Subterranean Lines.

The Kerite covering of these Conductors unlike any other, resists effectually the destructive action of Hea and Moisture, and the corrosive agents either in Earth, Air or Water.

☞ Special orders should state whether the Cable is to be exposed to Earth, Air or Water.

FACTORY—SEYMOUR, CONN. Office, 120 Broadway, New York.

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almost 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

American Railroad Journal.

HARLAN A. PIERCE, Editor.

New York, Friday, May 21, 1880.

Railroads, Shipping, Commerce and Manufactures of Japan.

We are indebted to the Japanese Consul in this city, who was formerly in charge of the railroads of the Empire—Jurokui Yegawa Kimihira—for the following facts in relation to the railroads of Japan. The first railroad was built in 1873, srom Yokahomma to Tokio, from which it has since been extended to Setsu—about 50 Japanese or 100 English miles of railroad now in operation in the Empire. Another road is now under construction from Tokio to Takasako, a distance of 20 Japanese, or 40 English miles. These have all been built by the Government and are operated by it. Formerly the equipment of these roads has been imported from England, but for the road now building all will be made in Japan except the car and locomotive wheels and the rails for which they have not the proper foundries and rolling mills, although they have some half dozen iron manufacturing establishments in the Empire and native ores from which most of the pig iron used is made. These railroads are equipped with telegraph lines and the islands of the Empire are connected by cables, one of which is being built to the Island of Loo Choo over which the dispute between Japan and China has arisen as to its ownership.

For the following facts regarding the shipping and commerce of Japan we are indebted to Torao Kido, one of the members of the Chief Secretary of the Japanese Treasury and Director of the Bureau of Commerce. Hidekan Kawase, who was in the city last week and inspected our harbor and terminal facilities under the hospitalities of the Japanese merchants of this city and of the Erie road, which placed its tug James Bowen at their service, under the escort of Messrs. Phelps and Romaine. The increase of the commerce of the Japanese Empire in the past ten years is most easily seen from the increase in its shipping. Of this Torao Kido said in 1870 the number of steamers in Japan was thirty-five, with a tonnage of 13,642,870 kokus (4-27 of a ton), and of sailing vessels 10, with a tonnage of 2,059,610 kokus. In 1878 the number of steamers had increased to 188, with a tonnage of 56,191,120, and of sailing vessels to 142, with a tonnage of 30,734,310 kokus. Of these, 97 sailing vessels and 53 steamers were of native build. In addition to the above list of sailing vessels and steamers there were 10,416 junks with a tonnage exceeding 50 kokus each, besides a large number of smaller junks. The consumption of our petroleum is largely by the lower classes, yet the higher classes use much of it on account of its cheapness and brilliancy, although gas is used in all the large cities of Japan.

As to the agricultural development of the Empire it is not so rapid as its commercial progress, owing in part to the small size of the farms which prevents the general introduction of American agricultural implements, although some of them are employed on the model farms instuted by the Government. Its manufacturing industries are varied and comprise nearly all branches of domestic manufactures. Yet they are generally confined to the wants of their own people except in the case of what are termed Japanese goods which are made largely for export in the large cities, especially at Tokio which has a population of 2,000,000 largely engaged in these manufactures. The home markets, however, consume a large amount of goods and employ a large portion of the population which on the above authority is now 35,000,000 or only 15,000,000 less than the United States, though confined in an area of 156,600 square miles, to 3,209,844 square miles in the United States, or an average of over 212 perspns to a square mile in Japan.

The Oil Trade.

Stowell's Reporter, in noticing the operations during the month of April, says that the stock on hand, May 1st, aggregated 10,660,115 barrels, showing an increase in stock from April 1st of 1,177,422 barrels. The shipments during April were 842,268 barrels, the total production during the month being 2,019,690 barrels, and the daily average production 67,323 barrels. Number of producing wells at the close of the month, 12,572; number of drilling wells, 580; number of drilling wells completed during the month, 500; number of dry holes developed, 17; number of rigs up and building, 500; average daily production of the new wells, 22 barrels; average daily production of all the wells for the month was 5.3 barrels.

The shipments of crude from the northern field during the month were 478,167 barrels, and from the southern field, in crude and refined, reduced to crude equivalent, 364,101 barrels, making the total shipments out of the producing regions for the month 842,268 bar-

rels. Of this amount, Pittsburgh took 65,619 barrels; New York, 407,952 barrels; Cleveland, 141,197 barrels; Philadelphia, 97,147 barrels; Boston, 19,260 barrels; Baltimore, 12,816 barrels; Ohio river refiners, 62,194 barrels; other local points, 36,083 barrels. The Reporter adds:

If the crisis of lowest prices—arising from the legitimate cause of excessive production—has not been reached, it is without much doubt very nearly upon us; for the sentiment of the producing region has unquestionably changed, and that very decidedly within the past month. The fact of over production is now being pretty clearly realized in the region and among the trade generally. The best expression of the realization is to be found in the decreased energy with reference to new ventures. The statistics we present this month show considerable decrease in the number of new rigs building. The producer has to face the fact that his production has become so excessive that the pipe lines can not receive it all, and as a consequence part of his oil must run to waste. Meanwhile the exporter, appreciating the persistent over production, has practically withdrawn from the market, or takes his oil in very small quantities as is indicated by the very meagre charters of the past month. The shipments from the regions have been so exceptionally small that but little room has been made in the tanks of the lines, receiving and holding the increased production. In the gloomy appearance of this situation the capitalist has grown more and more reluctant to invest, and the unfortunate result of the "boom" of the latter part of last year has taken the confidence out of the speculative class. Altogether the burden has fully fallen where it properly belongs—upon the restless producer—and now that he is beginning to realize it, we may begin to look for improvement in the condition of the business in the future. From this time forward until the middle of October, at least, we may reasonably look for continually increasing shipment and export, and it is not unlikely, that by the close of the year, if not sooner, we will find the trade restored to a healthy normal condition; unless, in the meantime, some new prolific field is discovered, which, however, from appearances, is not probable.

In the event of the continued decrease in the building of new rigs for two or three months to come, we think it safe to predict that the month of April will show the highest production of any month of the year.

New Style Cars.

The following is a description of the new style cars lately built at the Pennsylvania Railroad shops, Altoona, for the fast trains on the New York division of that road:

The interior finish is of light colored hardwood, painted in oak colors, the effect of which is a marked improvement upon the ordinary veneering. The ornamentation is what is known as the Queen Anne style, and is harmonious throughout. Oak decorated ceilings take the place of the old canvas head linings, the basket racks are of a new and tasteful pattern, and these, with the gas brackets and other accessories produce a very pleasing and artistic effect. The prevailing color of the wood work being of a lighter tone than usual, gives to the car a cheerful and less sombre appearance, especially when lighted up in the evening. The seats are upholstered in plain plush of different colors, some of the cars having blue and others green. The windows are of fine French plate glass, and of the standard size. The exterior is painted a rich maroon color, corresponding with most of the other day passenger cars of the road.

The Transfer at Pittsburg.

The Pittsburg Chronicle says that the work on the transfer of the Lake Erie and Baltimore and Ohio Railroads at Glenwood, a suburb of Pittsburg, Pa., has been finished and the cars were transferred from one side of the river to the other on Saturday last, and then adds:

The experiment was very successful. The work is performed quite easily, with no danger of accidents. Running down the river bank on either side is an incline, the grade of which is 240 feet to the mile. Attached to the incline is what is called an apron or car, fixed so that it can be run up or down the track to suit the stage of water in the river; the cars are pushed down the incline by the engine and then pushed out on the barge. There are two barges, built expressly for such work. One is owned by each road. Six cars can be placed upon each, which is a weight of 180 tons. The barges are towed across the river by two tugboats. Eighty cars will be transferred every day, forty each way. The officers of the Lake Erie road prepared a contract several days ago in regard to the transfer and submitted it to Mr. Deveraux, of the Atlantic and Great Western Railroad, and to President Garrett, of the Baltimore and Ohio Railroad. It was signed by both gentlemen in behalf of their respective roads. The contract gives to the Lake Erie road a share of the coke trade on the Baltimore and Ohio Railroad.

The Largest Grain Elevator in the Country.

The Erie Railroad will soon enter the field as one of, if not the greatest grain carrying trunk lines. It has hitherto labored under the disadvantage of having no elevators at New York for the transfer of grain while the rival roads have had them for several years, here or at other ports. Hence they have had the preference in grain freights, while the Provision trade have always joined the Erie, because of the better treatment they have received at the hands of the Erie officials who we are told by both grain and provision men are much more accommodating in the transaction of business than any of the other roads and hence the popularity of the road. Its elevators will be completed June 15 and ready for business soon after. The elevator was built under an arrangement between the Erie Road and Messrs. Jesse Hoyt & Co., by whom it will be leased to Messrs. Hazletine & Co., who will operate it. It will cost about $750,000, its capacity being 1,500,000 bushels. It will receive and unload forty cars at once, which will be done by steam shovels at the rate of a car in three minutes, while loading at the same time four ordinary steamers at the rate of four hours for loading. The dock upon which the elevator is built is 1,750 feet long and about 100 wide. The elevator is 375 feet long, 80 feet wide, 165 feet high, with a stock of 180 feet. The machinery is the most modern, and will be run by two 250-horse power engines. The bins are made of wood, 11x7 and 5x6 feet, and are designed to hold 1,500,000 bushels; while the New York Central's large elevator actually holds only 1,000,000 bushels and the smaller one 800,000 bushels. The piles upon which it is built were driven 70 to 80 feet below mud bottom. At seven feet above this bottom they were joined and crossed by heavy timbers covered by thick courses of planking up to two feet below low water mark. Upon this foundation solid granite pillars, sixteen feet high and three feet square at top and eight feet at bottom, are placed, and upon them at short intervals the timbers of the immense framework rest. The walls are of brick, one story in height, after which they are built of heavy planking, laid one upon another so as to break joints, and are then spiked together, this kind of wall standing the greatest lateral pressure. The roof and sides are covered with corrugated iron, making the elevator fire proof. The cars are run into the elevator on two tracks, with a broad and narrow gauge on each side of the elevator, twenty cars on a side.

Anti Friction Journal Bearings.

A GREAT SAVING IN POWER CLAIMED.

A number of railroad men met at the Grand Central Depot, last week on the arrival of the Shore Line express train from Boston, in order to examine the practical application of the Chaplin anti-friction bearings for revolving shaft axles, with which a portion of the train was fitted. By the use of these boxes, it is claimed that neither oil or waste is required, hot boxes are unknown, and delays and accidents to trains are avoided. There is also a great saving in fuel claimed, as friction is almost entirely overcome and the hauling power of engines more than doubled. Upon the arrival of the train, the car which was fitted with the new boxes was critically examined, and the result was pronounced highly satisfactory, The axles were found to be cool, while the other cars fitted up in the old way were uncomfortably hot. The saving alone in oil is said to be very great, this one car having been in continuous use for nine months and only having required three pints of oil all that time.

The invention belongs to that class of bearings in which the journal of a revolving shaft or axle rests upon a series of anti-friction rolls surrounding the same and between it and the enclosing box or housing, and especially to the manner of mounting the anti-friction rails and the means employed to reduce the friction which would otherwise be caused by the end thrust of the shaft. It further consists in the use, in combination with the two series of anti-friction rolls, of two rings, arranged one within the other, and concentric with each other, and the axis of the shaft or axle. The outer ring is made in two semi-circular parts jointed together for the purpose of facilitating the putting together and separating of the parts. The enclosing box or housing in which the series of supporting rolls and the shaft or axle revolve is made in such a manner that its interior consists of two cylindrical sections of equal diameter, separated by an annular groove or enlargement of the chamber, within which the outer ring inclosing the two series of anti-friction rolls revolves without contact with the bottoms of the said groove. There is formed within the chamber of the enclosing box two annular ribs cast in one piece with the box, and projecting inward from the inner periphery of the box, and located one upon each side of the annular groove in which the outer ring revolves, and so adapted to engage with the ribs as to prevent endwise motion of the supporting rolls. A small steel ball is placed in the cap covering the thrust end

of the axis or shaft, and against which the journal revolves when in motion. These boxes and bearings are now in daily use on the Boston and Providence and Old Colony railroads, and have proved a great success. Among the many advantages claimed are the cleaness and perfection of the bearings; the saving in expense of oil, and requiring no waste; the total absence of hot boxes, and consequently no delays nor accidents; the large saving in fuel and percentages in draft, showing a leverage which increases motive power more than one hundred per cent; a perfect rolling uniform and easy motion; a diminution of labor and care through their freedom from oil, waste, dirt and anti-friction construction.

St. Paul, Minneapolis and Manitoba Railroad.

The report of this company for the ten months since reorganization shows that the total earnings were $2,365,287 86, the operating expenses $1,078,978 49, and the net earnings $1,286,313 87. The operating expenses, including State tax ($60,928 20), were in the ratio of 45.61 per cent of the gross earnings. The transactions of the land department from June, 1879, to April, 1880, inclusive, show total sales of 226,108.61 acres, realizing $1,008,086 44, of which $89,108 41 were cash sales, and $918,978 03 credit sales. The number of town lots sold was 168, and the sum realized $9,661. The total net cash receipts of the department were $274,552 72. From these proceeds, and from the proceeds of other real estate specially devoted to a sinking fund for the retirement of the first-mortgage bonds, the company has been able to reduce its indebtedness to the extent of $540,200 during the first ten months of its operation. The directors of the company are: George Stephen and Donald A. Smith, Montreal; O. H. Northcote, London, England; R. B. Angus, N. W. Kittson, J. J. Hill, and R. B. Galusha, of St. Paul.

Midland Railroad of New Jersey.

At 12 o'clock last Saturday night Receivers Hobart and McCulloh, of the New Jersey Midland Railway Company, delivered possession of the road and all its appurtenances to the "Midland Railroad Company of New Jersey," which was recently organized by the first mortgage bondholders for the purpose of buying the road. The new company assumes all liabilities of the Receivers, all interests being protected. The workmen have been all paid off, but there are claims amounting to $200,000 or $300,000 for which certain property of the road is liable, and which is expected to yield about 20 per cent on the claims referred to. The Receivers have been ordered by the Court of Chancery to submit these claims to Special Master Hopper, of Patterson, for proof, and the papers are now being made up to that end. In order to determine exactly the responsibility of the new company, a complete inventory has been made of all the property in the hands of the Receivers President Hobart takes charge of the affairs of the new corporation at once. A very important project for the advantage of the Midland Railroad, and of the mill-owners of Paterson is said to be strongly favored by an influential party in the new direction. This is the building of a spur from the road in the eastern section of Paterson to the vicinity of the Paterson Iron Works and the Passaic Rolling Mill, and thence under the Erie Railway to the three locomotive establishments in the western part of the city. Jacob S. Rogers, President of the Rogers Locomotive and Machine Works, and one of the Directors of the Midland Railroad, is said to be the author of this plan.

New York, Ontario and Western Railroad.

The newly-organized New York, Ontario and Western Railroad Company entered into full possession on the 15th inst., of the property and franchises of the old New York and Oswego Midland Railroad Co., the six months allowed to the original stockholders by law to redeem the road having expired on the 14th at midnight. The road was purchased at a foreclosure sale on Nov. 14, last, for $4,600,000, by the bondholders, the principal one of whom is ex-Gov. Tilden. A movement was made by the towns in the interior of the State which held a large proportion of the old stock, to redeem the road, but a compromise was effected with the bondholders. The new company has $7,000,000 in cash, derived from assessments, with which to improve its purchase. It is proposed to put the road in good order and complete it to Oswego, when connection will be made with the West via the lakes and the Welland Canal. From Middletown to this City, the New Jersey Midland Railroad, now in process of reorganization, will probably be used, with ferry connections from Weehawken to Forty-second street.

Louisville, New Albany and St. Louis Air-line Railway.

A Louisville (Ky) dispatch says it is reported that a syndicate has been formed there to purchase and complete the Louisville, New Albany and St. Louis Air-line Railway from that point to Evansville and St. Louis, and then adds:

A large portion of the work has been done, and forty-five miles are now in operation. It is said that this road will be built in the interest of the Louisville, New Albany and Chicago Railroad Company, in order to control the wheat shipments from the Wabash Valley and the adjoining territory east. The Louisville, New Albany and St. Louis is the same road that was recently reported bought by the Chesapeake and Ohio. The Louisville and Cincinnati short-line people are anxious to build this air-line, as it will give them a better connection, because it is shorter than that now afforded by way of the Ohio and Mississippi from Cincinnati and Louisville to St. Louis. If this syndicate completes the road the Chesapeake and Ohio, when it reaches Mt. Sterling, will be without further connection of its own in the direction of Louisville.

Atchison, Topeka and Santa Fe Railroad.

At the annual meeting of this company, held at Topeka, Kansas, from Tuesday till Friday afternoon of last week, the following directors were chosen: T. Jefferson Coolidge, Alden Speare, J. T. Burt, B. P. Cheney, J. C. Paine, S. L. Thorndyke, Boston; W. Rowell Mason, Walpole N. H.; S. A. Kent, Chicago, Ill.; C. K. Holliday, Topeka, Kan.; B. F. Stringfellow, Atchison, Kan.; L. Levery, Emporia, Kan. After, the Directors elected the following officers: President, T. Jefferson Coolidge; Vice President and General Manager, William B. Strong; Secretary and Treasurer, E. Wilder; Assistant Secretary and Treasurer, G. L. Goodwin; General Auditor, J. P. Whitehead; Auditor, E. Young; Comptroller, S. Lathrop Thorndyke; Land Commissioner, A. S. Johnson. The same general officers were chosen for the New Mexico and Southern Pacific Company, the Pueblo and Arkansas Valley Company and the Kansas City, Emporia and Southern Company, with the substitution of local Directors at the different points named. All these are extensions of the Santa Fe Road. Arrangements were perfected for extending the line through Arizona to the coast and to Guaymas, Mexico.

Ohio River Railway.

The directors of the Ohio River Railway Co., elected on the 11th inst., are: John G. Peebles, Portsmouth; John Means, Ashland, Kentucky; George D. Chapman, Charles R. Abbott and C. O. Hunter, Columbus; John Groce, Circleville; M. Boggs, Chillicothe; George Willard and William D. Kelly, Ironton. The officers are: George D. Chapman, President; John G. Peebles, Vice President; John Means, Treasurer; C. O. Hunter, Secretary and Solicitor.

The Board instructed the Executive Committee to proceed at once with the preliminary steps looking to the immediate construction of the road. The Chief Engineer reported that a large portion of the right of way had been secured and he would be ready to commence the construction within the next ten days.

☞ At a meeting of the Sonora Railroad management, held in Boston on the 14th inst., B. P. Cheney resigned the position of President of the company, and Thomas Nickerson was elected to succeed him. G. L. Goodwin resigned the position of Clerk and Treasurer, and S. W. Reynolds was elected in his place. At a meeting of the Mexican Central Warren Sawyer resigned the position of President, and Thomas Nickerson was elected to fill the vacancy. At a meeting of the Atlantic and Pacific Railroad Company, held on the 11th inst., James Bacon resigned his position as director of the company, and E. W. Kingsley of the Massachusetts Railroad Commissioners was elected in his stead. C. Littlefield resigned the position of Treasurer, and S. W. Reynolds was chosen to succeed him.

☞ An official statement of the business of the Elevated Railroad Companies during the first six months of the current fiscal year makes the following showing: the New York Company earned, net, $643,427 45, and after paying interest on its bonds and dividends at the rate of 10 per cent had a surplus of $20,927 45; the Metropolitan Company earned net, $415,673 19, with fixed charges of $580,000—the deficit in the operations of the Manhattan Company was consequently $143,399 33.

☞ The Philadelphia, Wilmington and Baltimore Railroad Company have agreed to purchase all the stock of the Westchester and Philadelphia Railroad Company, and guarantee its bonds, thus becoming the practical owner of the road. The amount of capital stock is $821,300, and the funded and floating debt together $1,162,512.

☞ The Santa Fe Railroad Company has been organized with a capital of $250,000, of which $30,000 has been subscribed. The road will connect with the Rio Grande railroad at San Juan, thirty miles from Santa Fe. Preliminary work will begin immediately.

☞ It is anticipated that the new branch track of the New Jersey Railroad, from Newfield to Atlantic City, will be ready for travel on the first proximo. It is thirty-four miles in length.

RAILROAD AND CANAL DIVIDEND STATEMENT.

Showing the amount of Stock Outstanding, the Dividend Periods and the date of last Dividend.

Marked thus (*) are leased roads.	Stock outstanding.	Dividend Periods.	Last Dividend Payable.

New Cattle Car.

The Indianapolis Price Current says that a cattle car has been recently invented the peculiarities of which consist in placing the stock in four ranks lengthwise the car. The ranks in each end of the car stand facing each other, and a combination water tank, trough and hay box extends crosswise the car and under the heads of the cattle. Chains or belting fastened to the floor pass up between the stock and are attached to a shaft overhead, which, being turned, draw them tight and hold each animal in place. Water and feed is carried for a trip of four days, and stock can eat, drink, lie down and rest without the train stopping. Reversing the shafts the stays fall off and drop down. The water tank is on a roller and can be easily moved to the end of the car. The car is then ready for any kind of freight.

Interest paid by United States, $45,651,165 94; interest repaid by transportation of mails, &c., $13,084,619 83; interest repaid by cash payments: 5 per cent net earnings $655,198 87; balance of interest paid by United States $31,911,337 24.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, April 30, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

Grand Trunk Railway of Canada.

The revenue statement of this company for the month of March is as follows:

	1880.	1879.
Gross receip's..	£180,370	£143,150
Working expenses.....	121,138	118,537
Net profit.....	£59,232	£24,618

—showing an increase in gross receipts of £37,220 in working expenses of £2,601, and net profit of £34,619.

The aggregate for three months (January 1 to March 31) is as follows:

	1880.	1879.
Gross receipts	£496,006	£434,335
Working expenses.....	353,028	353,628
Net profit.....	£142,978	£80,707

—showing an increase in gross receipts of £61,671, with a decrease in working expenses of £600, making the increase in net profit of £62,271.

☞ All the property of the Tennessee and Alabama Railroad Co. is ordered to be sold at Selma, Ala., on the 14th of June next, in five separate parcels, the total minimum price being fixed at $1,785,000.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, May 20, 1880.

The markets have been very unsettled both in and out of Wall Street the past week, with less activity and less demoralization, yet with more hesitation and uncertainty than heretofore, for the reason that the bottom is regarded as nearly reached, and all are looking for a reaction and an upward tendency to prices soon, and are trying to shape themselves so as to take advantage of it when it comes, although few are as yet ready to take the initiative in the upward movement by going in and taking a line of stocks or merchandize. This is most truly said of Wall Street and applies in general to all markets, yet the downward movement in stocks has been far greater and more sudden than in merchandize of late, and hence the more speedy reaction is looked for there.

Wheat and Iron it is true have fallen in as great proportion, but there are other considerations of supply effecting them that do not apply to stocks, whose volume will be no greater three or four months hence than now, while the new crops are very promising and will be upon the holders of breadstuffs before they can work off the old crop, unless something unforeseen and accidental should happen to delay the harvests or injure the crops. In the iron trade the question of crops proper does not come, yet the conditions of supply and demand are in just about the same position as are breadstuffs. The old crop of iron has accumulated to an unprecedented extent in the hands of speculators, while the demand has temporarily fallen off at least in the face of this increased supply on hand, as to the future supply

or, as we have said, the new crop of iron there are the same conditions also as in breadstuffs. The producing capacity of this country is vastly in excess of a year ago, notwithstanding the works that have lately closed on account of overproduction and higher cost of some than the market would warrant. Added to this is the impending avalanche of foreign iron, the production of which, as lately shown by us, has been largely increased since January 1880, waiting to be marketed here just so soon as demand revives enough to advance prices here to a point at which our manufacturers can commence work at a profit at current cost of production. From these facts it will be seen that the prospects of reaction in Breadstuffs and Iron —our two greatest industries—on which the prosperity of railroads and the country, are more dependent than on any other two interests, are by no means flattering. The same is nearly as true of our other great staple productions, cotton, provisions, &c., which are yet more liable to go lower than higher before new crops; and then to go no higher, if not lower, unless some unforeseen accident happens to these crops.

It will thus be seen that chances are against higher than present prices in all the general merchandize markets, and that accidents only can be relied upon to put them higher, unless speculators choose to do so. As they have been seriously punished in this attempt the past twelve months, they will not be likely to repeat their operations this year, unless they have a better basis than last, This brings us back to the chances of a great reaction in the Stock Market, for Wall Street is but a barometer of the general trade of the country. With this month the railroad earnings will show a reduced percentage of increase since the opening of inland navigation is taking away from them the bulk of the grain carrying trade, beside much other. This will reduce the net earnings of the dividend paying roads, and unless they can make up this loss next autumn and winter, as they did last, they will not all be able to pay the dividends they have done the past year. As to these prospects, it may be said that our crops now promise to give them as much traffic as last year, provided the crops of Europe are again as deficient as last year. Happily this is not in prospect as the crops there are in as promising condition, as a rule, as ours, and hence the European deficit will not be likely to occur this year, and hence not to be made good by us to the extent of some 100,000,000 bushels as for the past two years. This will make a vast difference with our railroads and hence in the value of their stocks as investments. The general condition of trade here will be less active this year than last by reason of the absence such an active speculation. This will still further curtail earnings, while the Presidential year is always a drawback to the general business of the country.

Thus much for the prospects of dividend paying stocks which are regarded as nearer bottom than the speculative fancies, and hence liable to a quicker and greater reaction. For then it may be said as a rule that the present prices are reasonably safe, barring accident to our growing crops, but they cannot earn as much as last year unless universal damage to European crops should again occur.

As to the fancy stocks there is much less to be said as they were "boomed" up farther than dividend stocks and on a much less substantial basis except in cases where consolidation and combination of hitherto opposing or separate roads and detached interests have made properties more valuable. This comprises the Gould or Wabash and Union Pacific systems and the Louisville and Nashville, in which the greatest speculation has been carried on, yet upon a basis of enhanced values by reason of these consolidations. Hence these stocks cannot be expected to find their old level under the most adverse circumstances. Yet they are selling upon their prospective values still, and not upon a safe investment basis, and hence they may go lower while they are liable at the same time to go higher under the manipulations of the great operators who control them. There is still another list of light weight fancies which are selling, even at the decline, neither upon present nor any reasonable prospective value —which are very unsafe to touch as there are only detached speculative interests behind or under them, and there are two chances for them to go lower to one for an advance, on a legitimate basis. On the other hand these might be the most unsafe stocks in the Street to sell short, for the reason that their volume is generally small and controlled by a few men who would be able to squeeze a short interest most unmercifully, on a bull market, should it come, and but little money would be required to run such a deal for which opportunity no doubt many little cliques are waiting on Wall street to unload their holding with which they were caught on the decline, when nobody would buy them. This appears to be the true situation in Wall street. As to the speculative position of the market it is a matter of conjecture, with the street about equally divided on the bull and bear side, the great operators being also both sides of the fence, it is said, long of some while short of other stocks.

The fluctuations have been wide the past week on a "raiding" or legitimate "selling" of the market one day and then on a "covering" of the "shorts" and buying for the long account the next, with a general decline on the whole week. These changes will be seen from our tables of daily quotations on the preceding pages. There have been European sellers of stocks here, especially the Vanderbilts.

Money has been easy, the bank reserve still further increased over $4,000,000, making the total above legal requirements $10,238,325. Since then the Treasury bought and paid for its weekly $3,000,000 of bonds which added to the ease.

Foreign Exchange has been quiet on a moderate demand, with a fair supply of commercial bills. There have been a good many railroad securities bought as well as sold the past week for European account and these are affecting Exchange to some extent.

Government bonds and choice investments have not been offered freely and hence firm with less doing, and a good business in speculative railroad bonds whenever the stock market has recovered.

Mining stocks have been more steady and active this week, here and at San Francisco and there are appearances of a better market hereafter for all good stocks.

The closing quotations on Thursday were: Atlantic and Pacific Telegraph, 88½@89; Canada Southern, 52@52⅛; Central of New Jersey, 67@67¼; Central Pacific, 65@67½; Chicago and Northwestern, 89⅝@89⅞; do. pref., 107½@108; Chesapeake and Ohio, 17@17¼; Chicago, St. Paul and Minneapolis, 50@53⅜; Chicago, Milwaukee and St. Paul, 71⅝@71¾; do. pref., 100¼@101; Chicago, Rock Island and Pacific, 191@192; Chicago and Alton, 106@107; do. pref., 120@124; Chicago, Burlington and Quincy, 116¾@117; Cleveland, Columbus, Cincinnati and Indianapolis, 69½@70½; Col., Chicago and Indiana Central, 11½@12; Delaware and Hudson Canal, 72¼@72½; Delaware, Lackawanna and Western, 79¼@79⅜; Hannibal and St. Joseph, 25¾@26; do. pref., 68¼@68¾; Houston and Texas Central, 53@55½; Lake Shore and Michigan Southern, 101½@101⅝; Louisville and Nashville, 125@—; Michigan Central, 78@78¼; Morris and Essex, 107½@—; Manhattan Railway, 26½@27½; Metropolitan Elevated, 94½@96; Nashville, Chattanooga and St. Louis, 67½@69⅝; New York Elevated, 114@115; New York Central and Hudson River 125⅜@125¾; New York, Lake Erie and Western, 36½@36⅝; do. pref., 58@59; New York, Ontario and Western, 27½@27⅝; Northern Pacific, 23@23¼; do. pref., 44½@45; Ohio and Miss. 26⅝@26¾; Pacific Mail, 31¼@31½; Philadelphia and Reading, 46@46¼; St. Louis and San Francisco, 33¼@34; do. pref., 43@43½; do. 1st pref., 64@65; St. Louis and Iron Mountain, 41½@42; St. Paul and Sioux City, 38@38¾; do. pref., 73½@74; St. Louis, Alton and Terre Haute, 15@18; do. pref., —@62; Union Pacific, 84@84½; Western Union Telegraph, 98⅝@98⅞; Wabash, St. Louis and Pacific, 30¾@31⅛; do. pref., 57⅝@57⅞.

The following quotations of sales of Railway and other securities, for the week, are in addition to those given elsewhere in our columns:

Why the Baltimore Sun has been Successful.

The Baltimore *Sun*, one of our most valuable exchanges, completed its forty-third year on May 17th, and, in commenting on its past history and present position, it gives the public the secret of its success, in these words:

"The popular want was not a party paper nor a class organ, and THE SUN was and has been from the first number independent in all things, while at the same time never neutral, never colorless, never reluctant to speak out, when need be, in regard to what concerned the public interest and the public welfare. From the first it drew the line rigidly between what was news and what was simply "sensation," and has respected the delicacies of private life and the sanctities of the domestic circle to that proper degree which it is a pity all journals do not imitate."

There is no prouder position for a journal to hold than that to which the *Sun* thus points with the confidence and satisfaction of success over a period of nearly half a century. And it is truly a pity that the Press generally cannot see what the *Sun* saw forty-three years ago, that the people do not want organs, but independent, enterprising, conservative and vigorous newspapers.

☞ The new iron steamboat Albany, built by the Harlan & Hollingsworth Company, of Wilmington, Del., to run between Albany and New York city, was given a trial recently, when she made 16 miles in 37½ minutes, a speed of over 25 miles per hour. She is expected to boom along the Hudson at the rate of 24 miles an hour—a speed nearly up to the average of passenger railroad trains.

☞ The directors of the New York and Harlem Railroad Company recently elected, are: William H. Vanderbilt, Cornelius Vanderbilt, William K. Vanderbilt, Augustus Schell, Abraham B. Baylis, James H. Banker, John B. Dutcher, Robert J. Niven, Joseph Harker, Chauncey M. Depew, William H. Leonard, Samuel F. Barger, and John E. Burrill.

☞ The London Times says that Vice Chancellor Bacon has ordered the trustees of the Bolivian bondholders to proceed with the distribution of the fund, and that they can only be stopped now by the Messrs. Collins actually obtaining an injunction, of which there is not much probability.

☞ The Chicago, Milwaukee and St. Paul Railway company has purchased the Wisconsin Valley Railroad, 69 miles from Tomaba, to Wausau, Wisconsin, and secured a lease for 99 years of the Chicago, Clinton, Dubuque and Minnesota Railroad, adding 400 miles of new road to the Chicago, Milwaukee and St. Paul Railway.

American Union Telegraph.

The American Union Telegraph Company has issued for circulation a map of its system of lines, accompanied by the following greeting to the public:

The American Union Telegraph Company was organized under the general laws of the State of New York, on May 15, 1879. Within one year from the date of its organization, notwithstanding the most determined opposition, which has in every instance failed, the American Union Telegraph Company has erected over 25,000 miles of new wire, leased the lines of the Dominion Telegraph Company of Canada, made an exclusive contract with the new French Atlantic Cable Company, and established connections with the lines of many important railroad companies, as shown on the within map, giving it in all a system of lines in the United States and Canada of 50 000 miles of wire and 1,550 offices, and also cable communication with Europe. The American Union Telegraph Company is the strongest opposition telegraph company ever established in America. As its lines have reached the larger cities they have been opened for business at the prevailing rates, and even under these circumstances the result has been most liberal and emphatic. The management of the company therefore feels assured of its success, and with the promise of reduction of rates as the extension of the system will from time to time warrant, relying upon such patronage as will be profitable to the company and emancipate the public from the exactions of a monopoly.

Local and Through Fares.

The action for assault and false imprisonment which was brought by Ward McAllister, a Harvard law student, against the Old Colony Railroad Company, and decided for the defendant at the trial, was heard, on appeal, before Judge Bacon, in the Superior Civil Court, yesterday and judgment was given for the plaintiff in $75 and costs, or about $200. The material point of the case was to determine whether a corporation, having agreed to carry a passenger over a through route at a reduced rate, less than that asked for transport to some intermediate station, has a right to prevent the passenger from stopping at that station until he has paid additional fare. The decision by Judge Bacon holds that the company has no such right. McAllister bought an ordinary limited ticket over the Old Colony Line, from Boston to New York, for $1. Arriving at Newport, to which place the regular fare is $1 60, he started to go ashore, when he was stopped by an officer of the company and not allowed to leave the boat until he had paid the 60 cents difference in the fare. He acceded to the demand, and then brought the above action. According to the decision, it seems that a railroad, or steamboat company cannot lawfully prevent a passenger from leaving the cars or boat at any station when a regular stop is made for the exchange of passengers. The company may demand the difference in fare between the local and the through rate, and, if payment is refused, recover the same in a civil action, but have no other remedy.—[Boston Adv., May 13.

☞ The new bridge over the Monongahela river at Pittsburg is to have three piers, which will give two channel spans of 350 feet each, and 170 feet between each of the outside piers and the shore. At the last meeting of the Monongahela Bridge Co. Charles Davis, C. E., of Allegheney, submitted a diagram of a plan for either a steel wire or steel link suspension bridge, and C. J. Schultz presented a similar diagram. At the next meeting the President of the Keystone Bridge Company will offer a plan for a steel truss bridge. These plans for superstructure, accompanied with specifications covering cost, will be submitted to a meeting of the Board on the 7th of June.

Michigan Central Railroad.

The earnings of the Michigan Central Railroad for the years ending December 31, 1878 and 1879 were as follows:

	1878.	1879.
From passengers	$1,918,608 96	$2,032,264 51
" freight	4,646,247 91	4,986,987 84

Total, as above		$2,715,836 46

Compared with the year 1878 the gross earnings for 1879 show an increase of $474,700 31, with an increase in expenses of $332,353 62, making the increase in net earnings $142,346 69. The ratio of expenses to earnings, including taxes, was in 1878, 63.55 per cent; and in 1879, 63.97 per cent—an increase of 0.42 per cent. The President in his report says:

The capital stock remains unchanged from the preceding year, as will be observed by reference to the balance sheet, and now is $18,738,204.

The following changes in the funded debt have occurred during the year:

The trustees of the sinking fund have purchased $16,000 in first sinking fund, and $4,000 in second sinking fund bonds, making a total of $20,000, upon which interest payments have ceased; as the sinking fund was created for the protection and redemption of these bonds, they are therefore, as are others held with them by the trustees, practically retired.

The mortgage trustees of the Northern Extension bonds of the Jackson, Lansing and Saginaw Railroad Company, have called in and paid (according to the provisions of the mortgage, and the modified agreement with that company), $99,000 of the bonds, thus reducing the liability of this company by that amount, and its annual interest payments $7,920.

The second mortgage bonds of the Grand River Valley Railroad Company, amounting to $500,000 (the payment of which was guaranteed by this company in its lease of that road), bearing interest at eight per cent per annum, became due September 1, 1879, and were paid. They were, however, replaced by a thirty year bond of this company, bearing interest at six per cent per annum, secured by a mortgage on the property of the Grand River Valley Company; the reduction of interest from eight to six per cent on these bonds secures to this company an additional decrease of its annual interest payment of $10,000.

The aggregate results of the foregoing changes are as follows: decrease of the company's liability, $99,000; decrease of annual interest payments, $29,520, an equivalent of over one-tenth of one per cent on the capital stock.

The company's property has been not only fully maintained, but in many respects improved, and its present condition is in every particular first class. Its roadway and track are in excellent condition; many of its bridges are iron structures of the most substantial character: its station grounds and buildings are complete and extensive; its terminal facilities are improving and increasing; its locomotive and car shops are commodious, and fully equipped with the most improved machinery and appliances, and are sufficient to meet all possible demands for construction and repairs; and its rolling stock is in better condition than at any previous time. Much of this improvement has been accomplished within the past two years, during which period, by close economy in management, the stock has also yielded a fair return to its holders; and it is believed that by a continuance of the present policy, even improved results can be produced.

By reference to the balance sheet, it will be observed that income account is rendered in two items, viz: "to December 31, 1878, $3,019,347 81," and "from January 1st, 1879, $97,453 21." This division was made in order to enable the present administration to report definitely the disposition of the balance or surplus, which cannot be done with the old account, as it extends many years into the past, and does not contain sufficient information to prepare such a report. The account, "to December 31, 1878," shows a decrease from the amount as stated in the last annual report, which is occasioned by charging off a large amount of valueless stocks and bonds, the depreciation in value of others, and the settlement of a long pending suit with the Jackson Car and Manufacturing Company.

The account "from January 1st, 1879" shows a balance of $97,453 21, which amount is composed as follows:

Paid Detroit and Bay City guaranteed interest	$33 920 00
Construction expenditures	10,000 00
Cash surplus	53,533 21
Total	$97,453 21

Construction account now stands at $28,447,937 67, having been increased $10,000 since the last report, by the final payment in purchase of fourteen and one-half acres of land at West Bay City. The cost of all actual improvements made during the year, such as replacing iron with steel rails, old wooden bridges with iron, the erection of new buildings, and the addition of new cars to

the equipment, was charged to operating expenses.

The report of the sinking fund trustees presents its usually healthful increase. It is also very gratifying to note, by special reports from the trustees, that the securities held by them have steadily improved in value during the year, until at its close, they possess a market value of quite $2,000,000.

The report of the Land Commissioner of the Jackson, Lansing and Saginaw Railroad Company is now, for the first time, included in this company's report.

When it is remembered that the modified agreement of this company with the Jackson, Lansing and Saginaw, under date of September 1st, 1876, provides for the purchase and cancellation of all outstanding bonds, with the proceeds of land sales, and that the opinion has heretofore to some extent prevailed, that the lease of the Jackson, Lansing and Saginaw Road by this company, was an onerous one, the information thus furnished by the commissioner becomes of importance. It will be observed, by reference to the report, that the estimated value of the assets belonging to the land grant is about $3 715,000, while the amount of outstanding bonds for which the same is pledged is about $3,740,000, a slight difference which it is reasonable to anticipate will readily be met by the now constantly increasing valuation of the lands.

With the issue of our last annual report, it was supposed we had nearly, or quite, reached the minimum of traffic rates, but we have again to report a further decline, viz: freight—per ton per mile, from cent 0.848 to 0.692, or 18.39 per cent; passengers—per passenger per mile from cents 2.41 to cents 2.21, or 8.30 per cent; notwithstanding this, the increase in volume of traffic (twenty-six per cent of total freight tonnage, and five per cent of total passengers carried) has resulted, with the close economy that has been used, in an increase of net earnings sufficient to yield dividends amounting to five and one-half per cent, an improvement of one and one-half per cent over the previous year. In order to fully appreciate the success of the year, and the value of the property it is just to state that the above results have been reached after charging to operating expenses an unusually large amount for improvements and renewals, (a very considerable portion of which might with propriety have been charged to construction account), with an increase in the per cent of expenses to earnings of only forty-two hundredths of one per cent.

It is estimated that the accident in October last, at Jackson Junction, will cost the company in settlement of claims, and repairs of property, say $125,000; of which $60,000 has been paid and is included in this report.

The result of the business for the year, and also its comparison with that of the previous year, are fully shown in the following table:

		1878.
Gross revenue		$6,991,758 93
Operating expenses	$4,367,238 81	
Construction account	134,162 92	
Interest and rental	1,615,950 00	
Guaranteed interest	83,920 00	
		6,151,271 73
Net revenue		$840,487 20
Dividends, 4 per cent		749,528 16
Cash surplus		$90,959 04

		1879.
Gross revenue		$7,415,428 86
Operating expenses	$4,799,592 43	
Construction account	10,000 00	
Interest and rental	1,587,782 00	
Guaranteed interest	83,920 00	
		6,331,294 43
Net revenue		$1,084,134 43
Dividends, 5½ per cent		1,030,601 22
Cash surplus		$53,533 21

The length of road operated is as follows: Main Line, Detroit to Kensington, 270 miles; Kensington to Chicago, used jointly with Illinois Central Railroad, 14 miles; leased lines, including Air Line, 519.72 miles—total, 803.72 miles.

About 5,700 tons of steel rail for repairs have been laid during the year. The number of miles now laid with steel is: Main line, 270; do. second track, 77.83; Air Line, 103.60; Jackson, Lansing and Saginaw division, 11.50; Grand River Valley division, 40.57; Joliet and Northern Indiana, 36.01—total, 539.51 miles. The Main Line and Air Line are entirely steel. During the same period side tracks have been extended 15 miles.

The number of locomotives is 219, of which 184 are coal burners. The car equipment is as follows: 77 first-class and 26 second-class passenger, 10 passenger and baggage, 31 baggage and mail, 3 postal, 133 way, 2 inspection, 1 paymaster, 2 dining, 256 single deck and 176 double deck stock, 3,284 merchandise, 1,340 platform, 1 pile driver, and 3 derrick cars. Total passenger cars, 152; total freight cars, 5,193.

Miles run by locomotives: passenger, 1,693,098; freight, 3,687,305; miscellaneous, 226,651; switching, 2,090,007—total, 7,697,061, an increase compared with the previous year of 884,531. The expense of maintenance, $1,228,699, an increase of $42,095 70. Cost per mile, 15.96 cents, a decrease of 1.33 cents.

Tons of freight hauled: local, 1,475,695; through, 2,038,124—total, 3,513,819, an increase of 727,173. Tons moved one mile, 721,019,413, an increase of 172,965,706. Earnings per ton per mile, 0.692 cent; in 1878, 0.848 cent.

Number of passengers: local, 1,279,698; through, 166,057—total, 1,445,655, an increase of 72,125. Total passengers moved one mile, 93,282,430, an increase of 13,548,358. Earnings per passenger per mile, 2.21 cents; in 1878, 2.41 cents; in 1877, 2.36 cents. The report of the General Manager, from which the above is obtained, says:

The freight traffic of the road shows a gratifying increase, the local tonnage having increased 17.50 per cent, and the through tonnage 33.15 per cent. The local passenger traffic has increased but slightly, but the through passenger traffic, including emigrants, shows an increase of 24.72 per cent. While the freight and passenger traffic of the road have increased, the increase of the former being 727,173 tons, or 26.09 per cent, the percentage of operating expenses (including taxes) to earnings shows an increase of forty two hundredths of one per cent, although the rate received per ton per mile was much lower than during the preceding year, and lower than ever before experienced by this company. Had the same rate per ton per mile which obtained during 1878 been maintained during 1879, the net earnings would have been increased over one million dollars.

In view of the large increase from year to year of freight traffic, the local tonnage moved in 1879 being about 32 per cent, and the through tonnage 63 per cent greater than that moved in 1877, or a total increase of 49 per cent, the early completion of the second track between Jackson and Ypsilanti, 46 miles, and between Porter and Kensington, 31 miles, is earnestly recommended; especially has this become necessary between Jackson and Ypsilanti, as the concentration east of Jackson of the traffic from the branches, in addition to that of the Main Line, frequently overtaxes the capacity of a single track.

Condensed Balance Sheet.

President.—Wm. H. Vanderbilt.

Vice Pres't & Treas.—Cornelius Vanderbilt.

Directors.—Wm. H. Vanderbilt, Augustus Schell, Cornelius Vanderbilt, Samuel F. Barger, Wm. K. Vanderbilt, Edwin D. Worcester, New York City; Anson Stager, Chicago, Ill.; William L. Scott, Erie, Penn.; Ashley Pond, Detroit, Mich.

Secretary.—Edwin Worcester.

General Manager.—Henry B. Ledyard.

☞ A special express train of four cars, pulled by the new locomotive, which has but one 6½ feet driving wheel at each side, was run on a trial trip by the Central Railroad of New Jersey between Philadelphia and Jersey City on the 14th inst. The trip from Philadelphia to Bound Brook, 59.2 miles, was made in 63 minutes, and from Bound Brook to Jersey City, 30.2 miles, in 34 minutes, or the total run of 89½ miles in 97 minutes. Returning to Philadelphia with five cars, the train left Jersey City at 2 11.25 P. M., arriving at Bound Brook at 2.45, and Philadelphia at 3.42, making the distance of 89½ miles in 1 hour and 30 minutes 35 seconds.

☞ The Little Chief Mining Company has declared its fourth monthly dividend of One per cent on the $10,000,000 capital stock of the company, amounting to $100,000, or Fifty cents per share, out of the fourth month's net earnings, payable at the Mining Trust Company, on the 25th inst.

☞ The superintendent of the Ontario Silver Mining Co. reports that the work of placing the flume in the 100-foot level was making rapid progress. The 200 and 400 foot levels were being driven west in good ore. Indications of a new ore body were appearing in the 500-foot level. The 600-foot level was also in fine ore.

Railways of the World.

In a recently published technical work a table is quoted from Prof. Sturmer, of Bromberg, which shows the length of railway in several of the chief countries in the world, and its proportion to the population. The original table gives the length of line in kilometres, and it may be as well to preserve this, as the proportion is the most interesting point in the table. In Europe it appears that, on the average, there are 4.9 kilometres of railway to every 10,000 inhabitants. Greece has the least proportion to the population, having only 0.08 kilometres to every 10,000 of the population. Next comes Turkey, with 1.6; Portugal, 2.3; Roumania, 2.4; Russia, 2.8; Italy, 2.9, and so upward in the scale, France having 6.3; Germany, 7.1; Great Britain, 8.1, and Sweden heading the list with 10.8, though its total mileage is not a fifth of that of Great Britain. In Asia it appears that only 0.16 kilometres is averaged to every 10,000 inhabitants; and in Africa the proportion is only 0.17. In the United States the proportion is heavy—32.9 to every 10,000 of the people; while the whole of America has the average of 17.2 and in Australia the proportion is already 10.6. The thinly peopled countries necessarily come to the front in this instance; but the table is of some interest as showing the effect of a large or small length of line in effecting comparisons of this nature, and also of indicating the comparative density of population to that of the facilities for its conveyance by rail.—[Pall Mall Gazette.

Commerce of New York.

The foreign imports at New York for the month of April, 1880, are officially stated as follows:

	1879.	1880.
Entered for consump'n.	$12,821,340	$22,064,758
Do. for warehousing....	7,518,217	14,388,718
Free goods..	8,497,782	10,890,473
Specie and bullion....	597,871	410,319
Total entered at port..	$28,935,160	$47,704,263
Withdrawn fr.wareh'use	5,640,078	6,112,693

The foreign imports at New York for four months from January 1, were:

	1879.	1880.
Entered for consump'n	$51,021,720	$88,189,358
Do. for warehousing..	24,207,641	39,360,366
Free goods.....	31,000,365	43,763,273
Specie and bullion	3,569,974	3,052,533
Total entered at port..	$109,799,700	$174,355,530
Withdrawn fr. wareh'se	20,914,378	27,554,144

The foreign imports at New York for ten months of the fiscal year, were:

	1879.	1880.
Six months ending January 1.....	$148,784,274	$266,228,601
January	25,657,546	40,897,154
February	26,968,987	40,165,884
March...	28,238,007	45,598,729
April.....	29,935,160	47,704,263
Total 10 months..... ..	$258,583,974	$140,594,131
Deduct specie.....	9,675,242	81,795,704
Total.....	$248,908,732	$358,798,427

The duties received at New York for ten months ending with April, were:

	1879.	1880.
July	$8,103,513 74	$9,329,895 17
August	10,149,191 69	10,562,138 82

February	8,229,362 06	12,254,602 24
March.....	9 320,695 68	14,469,557 65
April.....	8,184,797 88	11,901,071 43
Total	$81,972,654 91	$109,856,990 04

The exports from New York to foreign ports in the month of April, were:

	1879.	1880.
Domestic produce.	$26,257,346	$34,167,697
Foreign free goods.	227,997	131,523
Do. dutiable.....	430,457	370,328
Specie and bullion.....	1,574,112	194,633
Total exports	$28,489,912	$34,864,181
Do. exclusive of specie..	26,915,800	34,669,548

The exports from New York to foreign ports for four months from January 1, were:

	1879.	1880.
Domestic produce....	$102,745,117	$115,272,508
Foreign free goods...	1,077,614	853,825
Do. dutiable.	1,567,817	1,377,488
Specie and bullion....	6,964,127	3,232,287
Total exports....	$112,354,675	$120,836,008
Do. exclusive of specie	105,390,548	117,603,721

The exports (exclusive of specie) from New York to foreign ports for nine months ending with April, were:

	1879.	1880.
Six months ending January 1.	$177,556,058	$197,760,586
January	22,559,556	25,416,566
February	27,132,343	23,891,148
March...	28,782,849	33,626,459
April....	26,915,800	34,669,548
Total produce....	$282,946,606	$315,864,307
Add specie..	10,774,722	6,565,353
Total exports.....	$293,721,328	$321,929,660

A New Diving Apparatus.

A London paper says that a young German of the name of Fleuss has invented an apparatus realizing almost the wildest of the conceptions put before us by Jules Verne in the "Cruise of the Nautilus" Hitherto the diver has either had to work within the narrow compass of a diving-bell, or else to move about as best he could hampered by a length of hose through which fresh air is pumped down to him from the surface. M. Fleuss has devised a means by which he takes down with him supplies of condensed air, and so can dispense with any other connection between himself and the surface than such as is absolutely necessary to insure his being hauled up again to the light of day. The air which he expires is passed through a filter of caustic alkali, which robs it of its carbonic acid, and is then fitted again for the ordinary purposes of breathing by the admixture of oxygen, which is carried down in a condensed form. The diver, in short, moves through the water much as a fireman with an *extincteur* strapped to his shoulders moves through a conflagration, and with an equal sense of safety. The mechanism, if not already perfect, can easily be made so, and its results upon the future of marine engineering will be almost incalculable. The difficulty experienced by the divers employed upon the Tay bridge would have been almost entirely removed had they been able to use the apparatus of M. Fleuss.

☞ The Pittsburgh, New Castle and Lake Erie Narrow Gauge Railroad was completed to West Wurtemburg, within half a mile of Allegheny county, on the 12th inst., and regular passenger and mail trains are now running. The road is to be pushed on to New Castle by way of the valleys of the Connequenessing and Big Run.

☞ At the annual meeting of the Georgia Railroad Co. at Augusta, Ga., on the 12th inst., President E. P. Alexander declined re-election, to accept the Vice Presidency of the Louisville and Nashville Railroad Co. C. H. Phinezy was then unanimously elected President of the Georgia Railroad Co. and Gen. Alexander was elected Vice President.

Concord Railroad.

The earnings of this road for the year ending March 31, 1880, were $870,088 65, and the expenditures $523,356 14—leaving a sum of $346,732 51. From this has been paid taxes on capital stock, $35,939 62; Manchester and Lawrence Railroad, $67,581 49; rent of Concord and Portsmouth Railroad, $25,000; rent of Suncook Valley Railroad, $8,094; rent of Nashua, Acton and Boston Railroad, $11,000; reserved and appropriated for new engine house, coal and woodsheds and yard improvements at Concord, $15,000; new passenger depot at Nashua, $20,000; new freight cars, $10,000; unsettled claims, $3,000—leaving a balance of $151,117 40; from which has been paid two dividends of 5 per cent each, $159,000; balance carried to the contingent fund, $1,117 40.

☞ A map of the Coney Island, Sheepshead Bay and Ocean Railroad Company, was filed in the Register's office on the 15th inst., by Judge John McMahon, of Sheepshead Bay, the President of the company. It is to be a horse car road, and the route is to be from Voorhees-lane and Ocean avenue, Sheepshead Bay, to Manhattan Beach, with a western branch connecting with the iron pier.

☞ Rails for the Brattleboro' and Whitehall Narrow Gauge Railroad have been bought for $49 per ton, instead of $64, as was estimated when the cost of the road was figured, and it is thought the saving will prevent the contraction of a floating debt. The iron is to be delivered at New London within the next three weeks, and it will take about 40 days thereafter to finish the road.

☞ The construction of the Marquette and Mackinac Railroad is being pushed rapidly forward. The grading and ties of the first 20 miles is nearly completed; a contract for 70 miles more has been let and the balance of the line, 60 miles, will be let in a few days. Nine thousand tons of steel rail have been purchased, at an average price of $65 per ton.

☞ Ralph P. Buckland, Ohio; Chas. C. Honsel, Nebraska; Geo. B. Smyth, Iowa, and Daniel Chadwick, Connecticut, have been appointed Government Directors of the Union Pacific Railway Company to serve until the next regular election of directors of said company.

☞ Messrs. Hoblitzell, Shepherd & Platt, of Cumberland, Md., have been awarded the contract for constructing 29 miles of the Chicago, Milwaukee and St. Paul Railway extension, from Byron to Lanark, Illinois.

☞ The Baltimore and Cumberland Valley Railroad, a branch of the Western Maryland railroad, has reached Waynesboro', and will be continued to Chambersburg in a short time.

☞ The extension of the June Bug Branch Railroad from Scottdale to Mount Pleasant, Penn., is to be pushed rapidly forward. The bids have been opened and contracts awarded.

☞ The track on the Leadville extension of the Denver and Rio Grande Railway was completed on the 5th inst. to Badger Creek, twelve miles from Cleora.

Indebtedness of Ohio.

The local debts of Ohio have been increasing for the past seven years at a rate which few other States, Eastern or Western, can equal. In 1872 the total local indebtedness of the State was $17,000,000, of which two-thirds had been incurred by cities, and the rest by counties and townships. In 1879 the total had risen to $41,490,000, three-fourths credited to the cities in the State, whose debts had increased from $11,490,000 in 1872 to $36,036,000 in 1879. Exactly one-half of this increase was due to $17,000,000 spent in bonds, by Cincinnati on the Southern Railroad. The example of Cincinnati led to an unusually large number of applications last winter from towns and counties to bond themselves in aid of railroads. The Legislature granted nearly all these applications, with the provision that the bonds should be issued only after a two-thirds' vote in their favor at the polls.

☞ In June, 1870, the town of Bushnell, in McDonough county, Illinois, issued bonds to the amount of $50,000 for the benefit of the Rockford Rock Island and St. Louis Railroad Company. These bonds were payable not less than five nor more than twenty years from June 1, 1870, at the option of the town. By a recent vote of the town they have been declared due and payable, and Mr. J. C. Cadwallader, Supervisor of the Town, has given notice that they will be paid, with the accrued interest thereon remaining unpaid, at the office of the Treasurer of the State of Illinois in Springfield on the first day of June next.

☞ Fifty miles of the second hundred miles of the Pacific Railway, west of Winnipeg, are to be in running order by June 1st, 1881, and the whole distance ready for the passing of trains by 31st Dec., 1881. The ballasting and other works are to be completed by 1st October, 1882. The contractors are Messrs. Bowie & McNaughton, and the price for the hundred miles $438,914. The opening of the two hundred miles of road west of Winnipeg at such an early date will be of great advantage in promoting the rapid settlement of the country.

☞ The New York, Ontario and Western Railroad Company, being now left free to carry out their plans for the extension of their road to New York city can, upon the issue of the stock for that purpose, procure a further sum of $3,000,000 in addition to $7,655,000 already paid in; as by provisions of the plan of organization of the company the old stockholders and holders of convertible bonds can, by paying an assessment of 30 per cent upon the par value of their holdings, obtain a like amount of stock. This privilege, however, expires on 22d of July next.

☞ President Dillon, of the Union Pacific Railway Co. has issued a call for a special meeting of the stockholders, to be held at Omaha August 18, 1880, for the purpose of ratifying the consolidation with the Kansas Pacific and the Denver Pacific Railroad Companies. The meeting will be a formal one, as nearly all of the stockholders have given their assent to the measure.

☞ The stockholders of the three elevated railroad companies have formally ratified the proposed issue of $4,000,000 second mortgage bonds of the Metropolitan Company. The bonds are to bear 6 per cent interest, and are to run 20 years. They are guaranteed, principal and interest, by the Manhattan Company, which has authority to provide a sinking fund to retire them, or may renew them, should it see fit.

Progress of the Tehuantepec Railroad in Mexico.

It is stated that there are 400 men at work on the Tehuantepec railroad, and the first ten kilometres of the road are well advanced. Preliminary surveys by the advanced engineering corps have been carried out over thirty miles, and the line is located for about eight miles from Coatzacoalcos to the Chacalapa river (the first stream crossed) which is 150 feet wide. The pier at Coatzacoalcos for unloading supplies is almost finished; a branch track is laid its entire length. As soon as the Chacalapa is crossed, the road leaves the sand hills and the swampy lowlands, and strikes a line of gravelly hills, which will supply an abundance of the best possible material for a road bed; from this point the route will be through a healthy, fertile and heavily wooded country, in which for a long distance, no engineering difficulties of any account will be encountered.

☞ Articles of organization have been filed in the office of the Secretary of State of Illinois by the Peoria and Northwestern Railroad Company, which proposes to construct a line from Peoria to Savanna, Carroll Co., or to some point on the Western Union Railroad. The principal office of the corporation is to be at Kewanee, and the capital stock is fixed at $1,500,000. The corporators and first Board of directors are: James L. Platt, Hosmer L. Kellog, Charles H. Bogue and Charles K. Ladd, of Kewanee, and Edwin K. Wadsworth and Francis T. Wheeler, of Chicago.

☞ The Northwestern (Minn.) Narrow Gauge Railroad Co. has concluded arrangements with the St. Paul, Minneapolis and Manitoba Railroad Co. by which the latter is to build a hundred miles of broad gauge road between its two main lines from Minneapolis to St. Cloud. The largest depot in the State will be constructed at Minneapolis and two double track bridges across the Mississippi, work to commence immediately.

☞ The Pittsburg Chronicle says that the ballast is being put on the grade of the Pittsburg, Virginia and Charleston Railroad from California, Pa., to Brownsville, and all along the route men are pushing the work along vigorously.

LITTLE CHIEF MINING COMPANY.

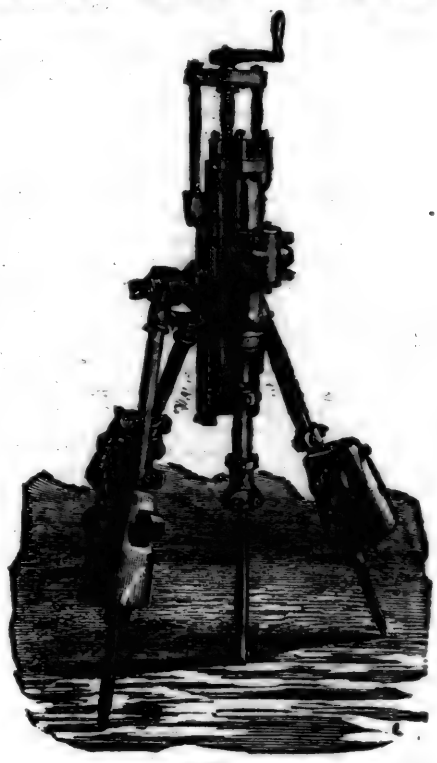
ROOM NO. 54 BOREEL BUILDING, 115 BROADWAY,
NEW YORK, May 15, 1880.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a MONTHLY DIVIDEND (No. 4) of ONE PER CENT. on the TEN MILLION DOLLARS ($10,000,000) capital stock of this company, amounting to ONE HUNDRED THOUSAND DOLLARS ($100,000,) or FIFTY CENTS Per Share, out of the fourth month's net earnings, payable at the Mining Trust Company, on the 25th inst.

Transfer-books will close May 21, and re-open May 26.

D. F. VERDENAL,
Secretary.

OFFICE OF THE ONTARIO SILVER MINING CO.,
No. 18 WALL ST., NEW YORK, May 6, 1880.



DIVIDEND NO. 55.

THE REGULAR MONTHLY DIVIDEND OF FIFTY CENTS per share has been declared for April, payable at the office of the Transfer Agents, Wells, Fargo & Co., No. 65 Broadway, on the 15th inst. Transfer-books close on the 10th inst.

H. B. PARSONS, Assistant Secretary.

OFFICE OF THE HOMESTAKE MINING COMPANY,
NEW YORK, May 12, 1880.

DIVIDEND NO. 17.

THE REGULAR MONTHLY DIVIDEND OF Thirty Cents per share has been declared for April, payable at the office of Wells, Fargo & Co., No. 65 Broadway, on the 25th inst. Transfer-books close on the 20th inst.

H. B. PARSONS, Assistant Secretary.

PENNSYLVANIA RAILROAD COMPANY,
TREASURER'S DEPARTMENT,
PHILADELPHIA, May 1, 1880.

THE BOARD OF DIRECTORS HAS THIS DAY declared a semi-annual dividend of THREE PER CENT., on the Capital Stock of the Company, clear of all taxes, payable on and after May 28, to stockholders as registered on the books of the Company at 3 o'clock P. M., April 30, 1880.

In order to give the shareholders the benefit to be derived from a distribution of the shares of the Capital Stock recently purchased from the City of Philadelphia, the option is given to the shareholders to receive the dividend hereby declared, either in cash or in scrip convertible into the Capital Stock of the Company at par, when presented in sums of Fifty Dollars; provided the said option shall be exercised on or before the First day of October next, otherwise the dividend will be paid in cash.

JOHN D. TAYLOR,
Treasurer.

LONERGAN'S SECRET SERVICE.

The investigation of frauds on Railway Companies a specialty.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending May 8, as reported by the several carrying companies, amounted to 397,885 tons, against 563,306 tons in the corresponding week last year, a decrease of 165 421 tons. The total amount of anthracite mined for the year is 7,242,154 tons, against 7,782,775 tons for the same period last year, a decrease of 540,621 tons. The quantity of bituminous coal sent to market for the week amounted to 94,698 tons, against 71,592 tons in corresponding week last year, an increase of 23,076 tons. The total amount of bituminous mined for the year is 1,227,305 tons against 1,079,148 tons for the corresponding period last year, an increase of 148,157 tons. The total tonnage all kinds of coal for the week is 492,553 tons, against 634,898 tons in corresponding week last year, a decrease of 142,345 tons, and the total tonnage for the coal year is 8,469,459 tons, against 8,861,923 tons to same date last year, a decrease of 392,464 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the first week of May was 125,534 tons, of which 98,462 tons were coal and 27,072 tons coke. The total tonnage for the year thus far has been 2,417,938 tons of which 1,771,706 tons were coal and 636,232 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ended May 8 were 46,563 tons, and for the year to that date 643,316 tons—189,771 tons over the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 23,533 tons, and for the year 486,395 tons, an increase of 183,296 tons over 1879. The shipments to the Chesapeake and Ohio Canal for the week aggregate 14,006 tons, and for the year 76,940 tons, a decrease of 26,650 tons as compared with last year. Shipments to the Pennsylvania Railroad for the week were 9,023 tons, and for the year 79,971 tons, an increase of 23,124 tons as compared with 1879.—[Phil. Ledger, May 17.

Business on the Canals.

The total shipments over the State canals from the opening of navigation, April 20 to April 30 this year, both days included, amount to 249,336 tons, and the tolls received for the same period $46,271 82. Of the shipments in tons there were of wheat 59,809, flour 212, rye 1,409, corn 24,075, corn-meal 131, barley 733, barley-malt 1,595, oats 2,756, pig-iron 7,320, bloom and bar iron 600, domestic salt 2 686, foreign salt 909, sugar 2,797, railroad iron 4,948, stone, lime and clay 9,147, anthracite coal 43,154, bituminous coal 796, iron ore 5,009, boards and scantling 46,735, timber 4,783, wood 1,238, pork 1,273. Last year the canals did not open until May 8.

☞ The managers of the Susquehanna Canal Company, elected on the 10th inst., are: George W. Dobbin, B. Andrews Knight, Enoch Pratt, R. K. Hawley, John N. Hutchinson, J. B. Lippincott, Franklin B. Gowan, William P. Jenks, Henry Lewis, Wm. L. Canfield, Isaac Brooks, Jr., W. W Taylor. President, G. A. Nicolls; treasurer, Robert D. Brown.

☞ The total bullion product of the Homestake (Dakota) Mining Co. for the first half of May was 2,951 ounces, representing in value about $50,167. It is expected that the total product for the month will be about $150,000.

☞ The Homestake Mining Company has declared its regular monthly dividend of Thirty cents per share for April, payable May 25, at the office of Wells, Fargo & Co., No. 65 Broadway.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables

Of all kinds made to order, for Ocean, River, Aerial and Subterranean Lines.

The Kerite covering of these Conductors unlike any other, resists effectually the destructive action of Hea and Moisture, and the corrosive agents either in Earth, Air or Water.

☞ Special orders should state whether the Cable is to be exposed to Earth, Air or Water.

FACTORY—SEYMOUR, CONN. Office, 120 Broadway, New York.

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almost 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

New York, Friday, May 28, 1880.

The Suspension of the Reading Railroad.

WHAT CAUSED IT AND HOW IT MAY RESUME.

The suspension of the Philadelphia and Reading Coal and Iron Company and later in the day that of the Philadelphia and Reading Railroad, came like a clap of thunder from a clear sky on Friday last. It was wholly unexpected except in one or two quarters here and in Philadelphia, which had refused to loan them money on Thursday to save their paper from protest. There has perhaps been no greater surprise in financial and railroad circles nor more serious disaster to the coal roads and to the coal and iron interests since the failure of Jay Cooke & Co., than the suspension of the Philadelphia and Reading Railroad and the Philadelphia and Reading Coal and Iron Company, which was announced on the day after our last issue went to press. It was a surprise not so much because it happened, but because it happened now, after nine months of unexampled activity and "improvement in the iron and coal interests," upon which these companies were dependent for prosperity, and to the depression in which their troubles have been popularly attributed. It is a serious disaster, because it is as wide spreading as the coal and iron interests, and is a severe shock to public confidence to the money and stock markets and affiliated coal railroad that will not be recovered from in a day; while the immediate losses to the holders of their securities and to the other creditors of the companies will be felt directly and indirectly by every interest in the country. The suspensions of stock brokers in Philadelphia and of coal and iron operators and manufacturers throughout Pennsylvania, are but the beginning of the circles of disaster that will extend from this disturbance of the smooth waters of prosperous times. Their fall will be like a mill stone about the necks of the great coal and iron interests of which they were the central figures, with controlling influence to drag them down, as they have held them back while all the other great industries of the country have thoroughly recovered from the hard times and gotton upon sound financial bottom once more. Indeed had not this been true their suspension would have caused another panic like that precipitated by the failure of Jay Cooke & Co.

We said it was not so much a surprise that it happened, as that it happened now, for those familiar with the condition of these companies since the breaking of the coal combination in 1876 knew that they were getting financially weaker instead of stronger, with the activity of the past year in the coal trade, for the reason that they have been mining coal all this time at a loss, and the more they did the worse off they became. Added to this was the fact that for the past three years they have been paying almost one-half their interest on bonded debt, in scrip, thus compounding half their annual interest.

The time was approaching when this must be provided for, and there was no way of doing so, as everything which the companies could bond, had been bonded. Everything upon which they could borrow money had been pledged as collateral, until the floating debts of the two companies, which are virtually one, had risen to $9,152,909, as per their last annual report. Their credit was gone, and even their wages, supplies, materials and current expenses were paid in three months' due bills. In the face of all these known facts, which seem to have been forgotten, however, the stock of the Philadelphia and Reading Railroad that is now selling at 9, as it did in 1876-'77, was run up to 40 last fall on the craze in Wall Street, on the "improvement in the coal trade." Hence the surprise that the collapse should come now, when it had been staved off so long that people actually believed that the company would pull through and that the late prices for its stock indicated this in the actual enhancement of its value.

The causes of this collapse are two—speculative mis-management and coal mining. Both were brought in with the present Board of Directors most of whom were originally large holders of the company's stock, and continued so to 1875, when they sold out because they could not borrow money on bonds to pay unearned dividends longer, after having done so for four years to the amount of some $13,000,000 from two Sterling loans, in accordance with a policy laid down in these words by one of these directors: "we will pay dividends just so long as we can borrow money to do it." Since then, however, they have continued to administer upon the estate of other people, when they would not trust their own money in their own hands, while some of them have been heavy speculators in the company's securities, for which their official position gave them great advantages. President Gowen, be

it said to his credit, was never that we know accused of being a party to these speculations, except in his unsuccessful effort to hold the stock at 44, for which he borrowed some $2,500,000 in cash and stock of the company in 1876 from the McCalmonts of London. Yet it has been believed that he held his position by allowing his directors to make money out of their official positions, not only in the stock market, but in the purchase of coal lands for the company as individuals from whom they repurchased them as directors at fabulous advances. That President Gowen ever turned a dishonest penny in this way, no one has ever charged, but the scheme of coal mining that has swamped what was one of the best railroad properties in the country when he took its presidency, was his child, whom he was permitted by his directors to raise at the present fearful cost to his stockholders, for the spoils they were enabled to gather. Added to these special causes are the general ones of mismanagement and dramatic financiering, as Mr. Gowen had neither talents nor training for a railroad man or a financier. He was an excellent criminal lawyer, with genius which won him success in that line, as, thanks to his indomitable efforts, the destruction of the Mollie Maguires attests, and will stand in the history of his State as a monument to him that will offset in a measure the financial ruin he has brought on thousands of its people who trusted in a personally honest President, whose inexperience in business affairs, over sanguine temperament, over weaning ambition to become a great railroad magnate and the king of the coal trade, with his personal management of the company and his dogmatic assumption of the responsibility therefor, were used by a Board of Directors of high respectability (on which they appear to have traded) to speculate in the properties of their confiding and victimized stockholders.

There were honorable exceptions among these directors, however, of men who did not thus trade and speculate but who were negligent, and, without knowing how the company stood, allowed the directors who did, to bankrupt it. This is the result; and with some $25,000,000 indebtedness falling due between now and January, 1881, we warn the stockholders that all shifts and schemes to stave off bankruptcy measures are delusive, for they will continue this old management, under whom there can be no good for the stockholders nor a large class of the bondholders. The policy of the management also needs changing, as well as its *personel*. In bankruptcy the railroad can get rid of the Coal and Iron Co., which was the chief cause of its troubles, and with it, all its onerous leases and guarantees, undertaken for account of the latter company. Then the railroad would right itself, by becoming a coal carrier, instead of a miner, and be one of the best paying roads in the country, again. The sooner this is done the better. The longer it is delayed, the greater the loss and hence the less value of the road itself which, alone, has a future, but with the Coal and Iron Co. it is chained to the skeleton, whose shadow it has become.

Let a practical railroad man be appointed receiver for the present, and let the coal lands be worked on a royalty by private operators, who will thus furnish coal traffic for the road. Let the iron works be leased, all onerous leases of railroads and canals canceled, and the earnings of those which pay, be applied in payment of their condition in order to retain them. In this way can the leaks be stopped and the losses limited. To go on may relieve some of the present creditors of the company, by shifting the burden to others, but the loss in the end will be greater both to creditors and to the two great interests involved with these companies. Later news appears in another column and in the money article.

Prices of Iron Products.

The following Statement of the Highest and Lowest Prices of Various Iron Products from 1878 to May 12, 1880, is from the Bulletin of the American Iron and Steel Association. The remarks in brackets at the end of each paragraph are our own:

No. 1 Anthracite foundry pig iron sold at Philadelphia at an average of $18½ a ton in January, 1878, and gradually fell from month to month until it sold at $16½ in November of that year, which was the lowest point touched during the depression. It gradually advanced to $17½ in January, 1879, and from that to $30½ in December, 1879. In February, 1880, it reached the maximum, $43, and fell to $26 by May 1st, and to $25 by May 12th. [Since then sales have been made at $24 to $25.]

Hanging Rock cold-blast charcoal pig iron sold at Cincinnati at an average of $33½ a ton in January, 1878, maintaining that price until June, when it fell to $31, which in turn was maintained until December when $30 was reached. From February, 1879, to July the price was only $28, but in August it advanced to $30, and continued steadily upwards until it touched $47 in December. In January, 1880, it reached $55, in February and March it sold at $60, but by May 1st it fell to $50.

Best refined bar iron sold at Philadelphia at $44 80 a ton in January, 1878, falling to $42 56 in October. In January, 1879, it sold at $40 32, from which it steadily advanced until it sold at $72 24 in December. In January, 1880, it reached $80 64, in February it touched $85 12, but by May 1st it fell to $67 20, and by May 12th to $56.

Cut nails sold at Pittsburgh and Wheeling at $2 50 a keg, in large lots, in January, 1878, falling to $1 90 in October, but advancing to $2 05 in December. In April and May, 1879, $1 90 again became the price, but on May 23d an advance to $2 was made. Several attempts were made by Western manufacturers to advance prices in June and July, but they were kept down by Wheeling manufacturers until July 18th, when prices were advanced to $2 25. In December they reached $4 15. In February, 1880, they touched $5 15, or $5 25 to buyers of small lots, but by May 12th the price fell to $3 25. [And in New York to $3 a $3 10.]

The lowest point which iron rails touched at Philadelphia during the depression was $32½ a ton in October, 1877. In January, 1878, they sold at $33½ and in December at $34, advancing steadily in 1879 from $34 in January to $54 in December. In February, 1880, they touched $68, but by May 1st they fell to $53, and by May 12th to $50. [And since to $48.]

Steel rails sold at $40½ a ton at the works in Pennsylvania in November and December, 1877, advancing to $43½ in May and July, 1878, falling to $41 in December, and advancing in 1879 from $41 in January to $67 in December. In February, 1880, they touched $85 but by May 1st they were sold at $70, and by May 12th at $65. [The market has since touched $60.]

Old iron rails sold at Philadelphia at $20 a ton in January, 1878, falling to $18½ in June, July and August, but rallying to $19¾ by December. In January, 1879, they sold at $20½, advancing by December to $34. In February, 1880, they sold at $43, but by May 1st they fell to $30, and by May 12th to $26. [Since May 12th, $24 50 has been touched and the market is now $26.]

No. 1 wrought scrap was sold at Philadelphia at $22 a ton in January, 1878, but from July to December it was sold at $20. In January, 1879, it was still sold at $20, but the price steadily improved throughout the year until it reached $33 in December. In February, 1880, it was sold at $41, but by May 1st the price fell to $30, and by May 12th to $28. [The market is now $24.]

Appointment of Receivers of the Philadelphia and Reading Railroad Co.

Late on Saturday last, Moses Taylor, a citizen of New York, through his counsel, Messrs. Deckson and Bullett, filed in the United States Circuit Court, Philadelphia, a bill in equity, asking relief as a bondholder of the Philadelphia and Reading Coal and Iron Company. In his bill Mr. Taylor avers that the bond he holds is of the value of $100,000, executed and delivered by the Philadelphia and Reading Railroad Company, commonly known as "income mortgage bonds," secured by mortgage of December 1st, 1876; that to guarantee these bonds the Railroad Company became surety in the sum of $20,000,000, on December 1st, 1871, conditioned for the payment of $10,000,000 in 20 years, and in default of the payment of six per cent interest the bonds were to become due and payable immediately upon such default; that the bond is secured by certain mortgages executed by the said Coal and Iron Company to George De B. Keim, (now absent in Europe), by which mortgage the Coal and Iron Company has conveyed certain property, real and personal, to George De B. Keim, his heirs and assigns forever, in trust for the use, benefit and security of the Philadelphia and Reading Railroad Company; and it is expressly declared that all the property, real and personal or mixed, covered by the mortgages in the assignment, shall be exclusive of all others, and no part of said mortgaged premises shall be levied upon or taken into execution before such mortgage bonds are satisfied.

The bill further avers that both companies are insolvent and compelled to suspend payment of their debts; that the unpaid coupons or interest on the bonds exceeds a million of

dollars. In view of these facts the Court is asked to order Mr. Edwin M. Lewis to exercise the powers of entry, and, if necessary, of sale, which is conferred on him by the Income Mortgage bond, and that he be required to enter upon and take possession of the property of the Philadelphia and Reading Coal and Iron Company, he declining to do so without such order. The bill goes on to say that the business of the corporation has been carried on under adverse circumstances, owing to the depressed condition of the anthracite coal trade, and to an unexpected reaction in the iron trade, both of which were in an improved condition at the beginning of the year. The interference of the Court is asked for the common interests of all the creditors, pending the adjustment and arrangement of the several claims, and that this may be secured, a receiver is asked to be appointed who shall take charge of, preserve and keep the property of such corporation, and to continue the business of each until the final decree of the Court.

The bill was filed on Saturday as stated above, and the counsel left for Pittsburg, where Judge McKennan, of the Circuit Court, is sitting. They returned Monday with the order of the Court, appointing Franklin B. Gowen, Edwin M. Lewis and Stephen A. Caldwell, receivers; Joseph A. Clay and George M. Dallas, masters. Mr. Lewis, the President of the Farmers' and Mechanics' National Bank, is Trustee of the Philadelphia and Reading Railroad Income Mortgage. Mr. Caldwell is President of the Fidelity Trust Company, which is Trustee of the Coal and Iron Company's $25,000,000 mortgage.

The receivers are required to give $500,000 security in Pennsylvania, and also $500,000 additional for New Jersey, for action under the lease of the Bound Brook Railroad. They are to pass their accounts monthly before Joseph A. Clay and George M. Dallas, who are appointed special masters in the case. They are directed to run and operate the railroad of the Philadelphia and Reading Company and leased lines, and to continue the mining operations and other business of the Coal and Iron Company.

High Railway Speeds.

At a recent meeting of the Franklin Institute, Philadelphia, Mr. W. Barnet LeVan read a very interesting paper on "High Railway Speeds," in which he referred particularly to the locomotive built at the Baldwin Works to run over the Philadelphia and Reading Railroad to New York in ninety minutes. The dimensions of the engine, he said, were: diameter of cylinder, 18 inches; length of stroke, 24 inches; diameter of driving wheel, 78 inches; wheel base 21 feet 1 inch; distance from centre of driving wheel to centre of trailing wheel, 8 feet. The boiler is made of 7-16 inch steel and is 52 inches in diameter. It contains 198 tubes 2 inches in diameter and 12 feet 2¾ inches long. The fire box is 96⅛×44 inches. The weight of the engine is 85,000 pounds, and is so disposed that by an alteration of fulcrum points additional weight can be thrown on the drivers at the time of starting. In its trial trips the engine consumed 36 gallons of water per minute. It was prophesied by Mr. LeVan that within five years passengers would be set down in New York in one hour's time. The average time on English railways is 46 miles per hour; on French, 37½; German, 40; American 37. The 6½ feet driving wheels are as common on English railways as 5½ feet wheels, and 8, 9, and even 10-feet wheels are used.

The Pennsylvania Stock Dividend.

We see from the London papers that the offer of the Pennsylvania R. R. Co. to its stockholders to take the 59,149 shares of its stock in lieu of cash as dividends is not fully understood. These shares as our readers know were bought by the company last fall to keep them out of the hands of a hostile syndicate which had made the City of Philadelphia an offer for them. As the company does not want this stock, cannot cancel it nor deal in it, the above plan was adopted to distribute it among boni fide stockholders.

This is not new stock and hence no watering of the capital, but a perfectly legitimate operation as was that of buying it, in order to keep the stock in the hands of the friends of the road. It is said that Philadelphia and Reading parties were the syndicate who wished to buy this stock last fall; but we doubt this, both because we can see no object in doing so, no possibility of getting control of the Pennsylvania road, and no way in which the money could have been raised, in the light of the suspension of the Reading Company so soon after that proposal.

Northern Pacific Railroad.

General Sherman in his report to the House Committee on Pacific Railroads, in regard to the Northern Pacific route, says:

In a military sense the extension of this railroad from Bismarck to the Yellowstone, and up the valley of that river as far as the mouth of the Big Horn, will be beyond any estimate of advantage the Quartermaster-General may make, because this railroad will transport men and supplies for ten if not twelve months in the year, while the Missouri river and Yellowstone are barely navigable for light-draft steamers for two, at most three months in the year. The extension of the road will stimulate emigrants to occupy the line of the Yellowstone east and west to such an extent as to form a barrier to the nomadic Indians who have heretofore gone back and forth from the Sioux reservation south, to British territory north, and will enable us in a few years to give up Forts Keog and Custer, each requiring for garrison a full regiment of infantry and four companies of cavalry. These could be moved north to the British line. By this process we could divide the hostile Sioux, and can subdue either moiety with more certainty and much less cost than now.

Oregonian Navigation Co.

The Oregonian Navigation Company, limited, has been organized to construct, equip and place in operation a line of steamers on the Willamette, Columbia and Snake rivers, from Portland to the head of navigation. Capital stock $100,000; duration of corporation perpetual: principal office at Portland. The company have purchased the steamers City of Salem, City of Quincy and the Ohio. These will be used by the company in the transportation of railroad material to be used in the construction of narrow-gauge railways from various points in the Willamette valley, on both sides of the river. The officers of the company are: President, William Reid; Vice-President, Kenneth Macleay; Attorney, E. G. Hughes; Secretary and Treasurer, Robert Bell.

Ohio and West Virginia Railroad.

At the annual meeting of the Stockholders of the Ohio and West Virginia Railroad Company, held in Columbus, Ohio, on the 20th inst., M. M. Greene, P. W. Huntington, C. P. L. Butler, Isaac Eberly, F. L. Hinman and C. H. Rippey, of Columbus; John S. Brasee, of Lancaster; J. A. Hamilton, of Gallipolis; George McQuigg, of Pomeroy were elected directors. It was disclosed at the meeting that the construction of the road was rapidly progressing, about forty-five miles of the track being now laid, and that the road would be open to Gallipolis probably during July. After the stockholders adjourned, the board of directors organized by electing M. M. Greene, President, and Wm. M. Greene, Secretary and Treasurer.

☞ Work on the extension of the Atchison, Topeka and Santa Fe Railroad is said to be progressing favorably. The Atlantic and Pacific extension is under full headway. The Guaymas Railroad is also beginning to take shape, and two construction corps are at work, one at the western terminus in Sonora County, Mexico, working eastward, and the other at the eastern terminus, near the Rio Grande, working westward. Both these roads are expected to be completed in less than two years. The main line is rapidly being pushed to El Paso, and that point will be reached this year.

☞ The Kansas extension of the St Louis and San Francisco Railroad was completed on the 22d inst., to Wichita, 509 miles from St Louis, where it connects with the Wichita branch of the Atchison, Topeka and Santa Fe Road. This opens a new line to Southern Kansas, Colorado, and New Mexico. This extension of the St. Louis and San Francisco Road will be pushed on to Dodge City, Kan., as speedily as possible, and perhaps to Colorado. The line to Wichita will be open for business on the 27th inst.

☞ Supplemental articles of incorporation have been filed in the cities of London and Edinburgh, changing the name of the Oregon Railway Company, limited, to the Oregonian Railway Company, limited. S. G. Reed has tendered his resignation as Vice-President of the Oregon Railway and Navigation Company, limited, which has been accepted, and T. F. Oakes, formerly of the Kansas Pacific Railway, is appointed to succeed him.

☞ Mr. C. E. Perkins, Vice President of the Burlington and Missouri River Railroad Co. in Nebraska, says that his company does not contemplate the extension of the road to Denver for the present, as reported; but that it will be extended as far as Indianola, Neb., at once, and that will be its terminus for some time to come.

☞ The engineers of the Union Pacific Railway are locating a branch line from Echo to Park City. The Utah Eastern Railroad has begun construction over the same ground, intending to extend the line to Salt Lake.

☞ John C. Moulton of Laconia has been chosen President, Henry Parkinson of Nashua Vice President, F. D. Cook of Nashua Treasurer and John B. Goodrich of Boston Clerk of the Nashua, Acton and Boston Railroad Company.

Interest paid by United States, $45,651,155 94; interest repaid by transportation of mails, &c., $13,084,619 83; interest repaid by cash payments: 5 per cent net earnings $655,198 87; balance of interest paid by United States $31,911,337 24.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, April 30, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

Northern Central Railway.

The gross earnings, operating expenses and net earnings of the Northern Central Railway for the month of April, were:

	1880.	1879.
Gross earnings	$386,130 40	$328,869 48
Operating expenses ..	272,561 98	288,934 10
Net earnings	$113,568 42	$39,935 38

For the four months ended April 30, the earnings, expenses, etc., were:

	1880.	1879.
Gross earnings.	$1,466,809 87	$1,201,645 49
Operating expenses.	974,987 87	802,509 76
Net earnings...	$491,822 50	$399 135 73

☞ The Ironton Railway Company, of which B. F. Ellaberry is President, has entered into a contract with Geo. D. Chapman, as President of the Ohio River Railway Co., which insures the completion within eight months of a line from opposite Ashland, Kentucky, to Portsmouth, Ohio. Mr. Chapman expects to have the road finished and trains running in connection with the Scioto Valley railroad between Ironton and Portsmouth within ninety days.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, May 27, 1880.

The close of our last review was upon the eve of the greatest demoralization in the stock market seen on the whole decline and one which only fell short of a panic because some of the large operators who had been on the bear side, who wanted to let the market down easily, instead of with a panic, stood under it and prevented the disaster that would have followed. This was caused by the suspension of the Reading Coal and Iron Co., and then of the Reading Railroad on Friday last, the news reaching Wall Street after noon, when the stock of the Reading road broke in this market to 30 from 46 in the morning, and as badly in Philadelphia. This dragged down the other coal road stocks and the whole market followed. The immediate cause of the suspension was the protest of some half a million of the company's floating paper held by Philadelphia banks and New York capitalists. Mr. Gowen had been endeavoring for several days in New York and Philadelphia, to get these loans renewed, or negotiate new ones, and had told the creditors of the company that its paper would go to protest if they did not come to his rescue, and they told him to let it go as they would put up for it no longer. The effects of this knowledge in a few quarters, began to be seen in the decline of Reading Thursday afternoon when it fell from 48 on Wednesday, to 46; but the Street did not suspect any trouble till the middle of Friday A. M. when the decline became so marked as to attract attention at one to two o'clock, as we said it got out and the stock broke

to 30, and again on Saturday to 20½, to be followed on Monday with the break in the other coal stocks described further on, to 17½, and to 9 in Philadelphia, on suspensions in stock firms there and of coal and iron firms in Pennsylvania, which were allied to the Coal and Iron Co., and to the Reading railroad. The suspension of the company was a great surprise to the Street, as the much talked of "improvement in the coal trade" had come to be believed, and the belief among those outside of these companies was that the Reading would pull through since it had been able with Mr. Gowen's shifts to keep afloat through the depression. One can imagine the shock to the Street therefore, and that after the first surprise at Reading's collapse was over, attention would be directed to the other coal stocks. The reasoning was perfectly logical that if Reading with no dividends to pay and half the interest on its bonded debt, deferred, could not take care of its floating debt, then the "improvement in the coal trade" had been principally in Wall Street, where the managers of these companies had evidently unloaded their stocks the past nine months. It was not strange therefore that on Monday, after people had had time to turn these facts over in their minds that the other coal stocks should break led by Jersey Central 12 per cent, Delaware and Hudson, 7 per cent, Delaware, Lackawanna and Western, 4 per cent, carrying with them the whole list. To this there was an additional cause for the extreme break in Jersey Central, which is perhaps in the best condition of any of the coal roads since its reorganization and scaling down of indebtedness. This cause was a quarrel between Messrs. Gould and Keene, the former of whom was short of the Jersey Central stock, and the latter long, as well as of the coal stocks generally, and it is supposed of the whole market, as well. On Monday the market in Jersey Central opened at about 63, when Mr. Gould sent word to Mr. Keene that he would settle his Jersey Central contracts at 60, to which, reply was sent to Mr. Gould to go to a well known summer resort and attend to his own affairs and he—Mr. Keene would do the same. In answer to this Mr. Gould did attend to his own business and that of Mr. Keene at the same time when the stock broke to 50 and carried the other coal stocks with it as noted above. Nor was this the end, for on Tuesday it broke again to 45, stampeding the whole market and producing almost a panic, when Mr. Gould went in and bought heavily until there was a turn, since when there has been a generally stronger and less feverish market, as well as less active than when the sales were running up to 600,000 shares in the excitement, as they did last fall when this present disaster was being performed by the folly of the speculators who are now getting hurt by it.

This has been the one pivot on which the whole market has turned the past week, and hence the general market needs no further mention than to say that it all followed this lead. Speculative bonds suffered along with speculative stocks, and the public were sellers of both at these prices, as they were buyers last fall at 25 to 50 per cent higher prices. An attendant of this state of affairs would naturally be failures; but none have occurred on Wall Street although there were rumors of one of the great speculators who was holding coal stocks being in trouble and that his old brokers had refused to do his business longer. At the same time wheat and lard broke heavily in Chicago on belief in these rumors, as these two staples are largely held by the same party also.

As Reading is still the uppermost influence on Wall Street, and its future policy will decide that of the other coal companies, the condition of the road and its future management are of the highest importance. We are informed on Philadelphia authority that the appointment of the receivers named is not wholly satisfactory, for the reason that there is no practical railroad man in the bond except Mr. Gowen who will no doubt continue the old policy which has ruined the road, while the other receivers will control only its finances. We also learn on the same authority that the Philadelphia and Pennsylvania Banks hold a large amount of accommodation paper which they have discounted for the Reading Railroad, which has been given Mr. Gowen at his urgent request by his coal and iron agents and manufacturers on his own line, as well as merchants, for coal to be delivered, and freight to be carried 30 and 60 days hence. It is now said that the receivers have no authority to honor these arrangements and cannot deliver the coal nor carry the freight for which their notes were given. Business is all at sixes and sevens in consequence and more failures are feared.

The bank surplus reserve is up to $18,210,975, and still rising. Money has been easy and no factor in Wall Street. Sterling Exchange has risen to the specie exporting point, and gold will be shipped unless Europe stops sending our railroad securities back for sale, as it has the past two weeks.

It will be seen that the lowest prices of stocks for the week were on Tuesday by consulting our tables of quotations. Exports are increasing and imports keeping well up.

Mining stocks have been weak and effected by the Wall Street market, while San Francisco has not been any better. There is no feature to note. In merchandise, wheat has been the center of attraction on a "corner" here for May No. 2 red, with an advance of about 15c. Pork and lard have fallen off ¼c. per lb. for the latter and other markets are assuming midsummer dullness and weakness.

The Treasury purchased on Wednesday $3,000,000, of bonds of which Messrs. Fisk & Hatch sold $2,000,000 fives of 2881 at 103.33 and $925,000 sixes of 1881 at 107.05.

The iron and coal trades are at a standstill, awaiting the future policy of the suspended Philadelphia and Reading Coal and Iron Co.

The closing quotations on Thursday were: Atlantic and Pacific Telegraph, 87½@88; Canada Southern, 53@54; Central of New Jersey, 57@57⅛; Central Pacific, 65@67; Chicago and Northwestern, 91@91¼; do. pref., 107½@108½; Chesapeake and Ohio, 16½@17; Chicago, St. Paul and Minneapolis, 48@50; Chicago, Milwaukee and St. Paul, 71¾@71⅞; do. pref., 100¼@100¾; Chicago, Rock Island and Pacific, 188@190; Chicago and Alton, 105½@107; do. pref., 122@—; Chicago, Burlington and Quincy, 116⅛@116⅞; Cleveland, Columbus, Cincinnati and Indianapolis, 67@67⅛; Col., Chicago and Indiana Central, 12@12⅛; Delaware and Hudson Canal, 68¾@69; Delaware, Lackawanna and Western, 74⅝@74¾; Hannibal and St. Joseph, 26½@26¾; do. pref., 69½@69¾; Houston and Texas Central, 55@58; Lake Shore and Michigan Southern, 100¾@101; Louisville and Nashville, 121⅛@122; Michigan Central, 79@79½; Morris and Essex, 103@107; Metropolitan Elevated, 93½@95; Nashville, Chattanooga and St. Louis, 58@58½; New York Elevated, 114@115; New York Central and Hudson River 125⅜@125½; New York, Lake Erie and Western, 34¼@34⅜; do. pref., 53½@54; New York, Ontario and Western, 26⅞@27¼; Northern Pacific, 24⅞@25; do. pref., 47½@48; Ohio and Miss. 26¼@26⅜; do. pref., 70@72; Pacific Mail, 31¼@31⅜; Philadelphia and Reading, 34¾@35; St. Louis and San Francisco, 31@—; do. pref., 42⅛@42½; do. 1st pref., 63½@65; St. Louis and Iron Mountain, 39½@39¾; St. Paul and Sioux City, 37⅝@38; do. pref., 71@73; St. Louis, Alton and Terre Haute, 13@15; do. pref., —@60; Union Pacific, 86@86¼; Western Union Telegraph, 94¾@95; Wabash, St. Louis and Pacific, 30⅝@31; do. pref., 57⅜@57⅝.

The following quotations of sales of Railway and other securities, for the week, are in addition to those given elsewhere in our columns:

New York—Albany and Susq. 1st consol., 109⅞; Boston, Hartford and Erie 1st, 36¾; Boston and New York Air Line, 37; Chicago, Burlington and Quincy 8s, 110½; Chicago, Milwaukee and St. Paul S. ☞ A telegram from the engineers in charge of the construction of the western division of the Atlantic and Pacific Railroad states that the first 53 miles from the Rio Grande are definitely located, and 25 miles are being graded in readiness for the steel rails which are now en route to Albuquerque. The definite location of the first 360 miles will be made within the next ninety days.

☞ The directors of the Central Ohio and the Sandusky, Mansfield and Newark Railroad companies have ratified the leases which give the Baltimore and Ohio Railroad Co. control of those two roads until December 1, 1926. The lease of the Sandusky, Mansfield and Newark would have expired December 1, 1886.

Northern (N. H.) Railroad.

The report of this company, recently issued, shows that the income from operations of the road for the year ending March 31, 1880, was: from passengers $139,403 99, from merchandise $276,119, mails $13,449 27, rents $224,616, express $7,500, miscellaneous sources $291 82—total, $439,005 74. The expenses, (including the State tax of $35,034 31, and new rails, $17,271 55,) were $326,566 89. The net earnings were $112,488 85. The directors report that the income warrants the payment of a dividend of three per cent for the latter half of the year, making, with the dividend paid for the first half, 5½ per cent for the entire year. Under the new system of taxation the State tax which was before larger than was equitable compared with the taxation of other property, has been increased about eleven per cent over the amount of the previous year, so that on the net income of $107,872 02 a tax of $35,043 31 has been assessed upon this corporation. Believing this tax to be unjust the directors have caused it to be paid under protest.

☞ The directors of the United New Jersey Railroad and Canal Companies recently elected are: John C. Barrow, William Bucknell, John Jacob Astor, A. L. Dennis, Benjamin Fish, Samuel Welch, Ashbel Welch, R. F. Stockton, John G. Stevens, Thomas McKean, Isaac W. Scudder and Robert L. Kennedy.

☞ The Wilmington and Northern Railroad Company is now surveying a railroad from Springfield to Garman's mines, near Churchtown, Del., a distance of about seven miles. This is a road much needed, and will no doubt pay the company if built.

☞ The Ontario Government has appointed Hon. Alex. Mackenzie trustee of the Toronto, Grey and Bruce Railway Co., to receive the bonuses about to be voted by the various municipalities to assist the company in changing the gauge of its road.

☞ The Chesapeake and Ohio Railway Company have recently purchased about eighty miles of steel rails to be laid between Huntington and Hinton on its present western division.

☞ The track of the Southern Pacific Railroad was within forty miles of Benson on the 14th inst. It would take about thirty days to grade the remaining forty miles.

☞ It is said that work is to be commenced on the California and Oregon Railroad, and that its completion to Portland will soon be accomplished.

☞ The Utah Southern Extension Railroad has reached Milford, about eighteen miles beyond Black Rock, and the offices and other railroad buildings are being removed to that point.

☞ The stockholders of the Missouri, Kansas and Texas Extension Company have voted to lease the road to the Missouri Pacific Railroad for 99 years.

☞ Work was commenced on the Canadian Pacific Railway at Yale, B. C. by Mr. Onderdonk on the 16th inst.

The "Canton's" Trial.

The new steam transfer barge, "Canton" built by the Harlan and Hollingsworth Company for the Baltimore and Ohio and Philadelphia, Wilmington and Baltimore railroads, to transfer cars from Canton to Locust Point, at Baltimore, made a trial trip yesterday. A run of 14 miles was made in one hour and twenty minutes. The Canton will run her first cars across under the new schedule to-morrow at 6.35, that being the through train from St Louis, which is shortened in its trip over 5½ hours. From Chicago the trip to Baltimore will be shortened 12 hours.—[Wilmington Every Evening, May 21.

Fitchburg Railroad.

The receipts of this road for the year ending September 30, 1878 and 1879 has been as follows:

	1878.	1879.

The company have 77 locomotives, 78 tenders, 82 passenger, 25 mail and baggage, 1084 eight wheel and 212 four wheel box freight, 560 eight wheel and 20 four wheel platform, 97 gravel and coal cars, and 9 snow plows. Number of miles run by passenger trains, 679,680; by freight trains, 867,373; by switching and other trains, 216,202—total, 1,763,255. Length of main road operated, 143 miles. Length of double track road, belonging to the company, 50.68 miles; length of Watertown Branch Railroad, belonging to the company, 6.60 miles; length of Lancaster and Sterling Branch Railroad, belonging to the company, 12.42 miles; length of Peterboro' and Shirley Railroad, belonging to the company, 23.62 miles; length of side and other tracks, belonging to the company, 49.77 miles—total length of tracks, belonging to the company, 193.77 miles. Length of Vermont and Massachusetts Railroad, leased for 999 years, 80.11 miles; length of double track on Vermont and Massachusetts Railroad, 10.39 miles; length of side tracks on Vermont and Massachusetts Railroad, 22.80 miles; Total length of tracks operated, 285.76 miles. Total number of passengers carried, 2,227,005; do. carried one mile, 35,094,145. Number of tons carried, 1,313,289; do. carried one mile, 92,832,640. The report says:

The roadbed and track continue to increase in value, both by repairs (more than covering depreciation) and by large and constant additions, which will keep them in a condition to carry on the continually increasing traffic.

Last year we stated that the Hoosac Tunnel business had obliged us to make great additions to our tracks and equipment, and had changed our traffic from a local to a through business. This business cannot be limited, and we must either give it up almost entirely, or expand with it. We have, therefore, kept our facilities equal to the requirements of the business; and, in order to continue this policy, quite large additions, both to our equipment and terminal facilities, must be made during the next year. Our improvements in this respect may, however, be somewhat restricted until the State's policy respecting the use of the Troy and Greenfield Railroad and Hoosac Tunnel is definitely settled.

In order to transact more expeditiously the export business at Constitution Wharf, we have removed and relocated some of the store houses, opened a new street, laid additional tracks, made extensive additions to the shed room, and straightened the water end of said wharf. The Constitution Wharf Company also have rebuilt entirely the North pier and a large part of the main pier.

Under authority obtained from the city of Boston, we have laid down a long piece of track through Beverly Street on the northerly side of the Boston passenger station. This track connects the Union Freight Railway on Causeway Street directly with the tracks of the Boston freight yard, and enables us to avoid crossing our passenger tracks with large quantities of freight, and to much more conveniently transfer freight for Constitution Wharf to the Union Freight Railway.

To provide more room in Boston, we have built and covered with gravel about one acre of substantial pile wharf, over a portion of Charles River purchased of the Commonwealth in the fiscal year of 1878, and laid upon it about forty-five feet of tracks.

We have made a much needed improvement in the stairway of the Boston passenger station, and enlarged the general ticket office; have made a triangular addition of brick to the bay house in Charlestown, and also built there a new yard office in such a position as to command a view of the entire freight yard; have recovered with new material an acre and one-half of the wharf property over Miller's River, and laid additional tracks in Miller's River freight yard. Additional tracks have also been laid at East Cambridge, Somerville, Cambridge, Waltham, Leominster, Fitchburg, Gardner, Templeton, Athol, Orange, Erving, and Lake Pleasant, making an aggregate length of six and one-half miles. We have reduced and made more uniform the grades both between Littleton and Fitchburg, and Ashburnham and Gardner; have finished ballasting between Fitchburg and Ashburnham, and graded the Gardner freight yard; have rebuilt the pile bridges over the Assabet River, both at Concord Junction and Rockbottom; have greatly strengthened the long high bridge at Greenville by additions thereto; have replaced the wooden bridge over a highway about a mile east of Leominster with a new iron plate bridge; have replaced a wooden Howe truss bridge over the highway at Leominster Station with a new iron truss bridge; have rebuilt on new abutments the first bridge over the track east of Gardner; and have built an extension to the stone arch in the Athol freight yard.

At Fitchburg we have built a large storehouse for bridge lumber; have commenced the construction of an addition to the engine house, designed to accommodate ten more locomotives; have changed and enlarged the Vermont and Massachusetts paint shop for the use of a passenger car house, and enlarged the local freight house; and at Wachuset have graded and prepared a new freight yard for local business.

At Ashburnham, in the cut just west of the station, we have built five hundred feet of stone bank wall; at Gardner have purchased land, and erected coal sheds for local business; at Pequoig, have completed the ledge cut referred to in the last annual report; at Athol, have enlarged the freight yard, and changed the tracks in and around the freight yard; at Orange, have removed the first ledge east of the station in preparation for the double track at that point; at Greenfield, have built coal sheds for local business; and, on our picnic grounds at Lake Walden and Pleasant, have made extensive repairs and improvements.

To provide the necessary room at our western terminus for a freight yard, engine house and the storage and shifting of cars, and the transfer of freight, we have purchased about 14.2 acres of land on the sides of, and parallel to, the main road in Deerfield, measuring 3,446 feet on the east, and 2,260 feet on the west side of the main track.

The receipts from Constitution Wharf and Shawmut Elevator have exceeded our anticipations, and indicate that the lease of the wharf and purchase of the elevator will prove good investments.

The company have laid during the year, exclusive of construction, 1,551 tons of steel rails, 1,081 tons of iron rails, and 75,599 new sleepers.

Real estate has been purchased for station purposes in Westminster, Gardner and Deerfield.

The equipment during the year has been increased by seven first class locomotives of the standard and mogul patterns, seven new tenders, five new passenger cars, and 312 new freight cars.

The gross earnings from passengers, freight, mails, expresses, and rent of property, &c., have increased $161,316 23, and the operating expenses, exclusive of rent of roads, and interest, have increased $103,893 99.

There has been an increase in interest paid of $5,607 55; in rents of road paid, of $6,564 50; a decrease of income received from rent of roads, $7,964 06; a decrease of premiums received, of $11,312 50, but an increase in the net earnings, of $25,973 63.

The number of passengers carried has increased 60,889; the number of tons carried has increased 197,518; and the total miles run have increased 105,367; making an increase in tons carried, of seventeen per cent; in passengers carried, of two per cent; in total miles run, of six per cent; in gross receipts, of nine per cent; in operating expenses, of seven per cent; and the cost of the same expenditure per total mile run has increased from eighty-two to eighty-three cents.

The passengers carried over the Troy and Greenfield Railroad have increased from 79,001 in 1878 to 83,152 in 1879; and the tolls paid the Commonwealth for the same have decreased from $45,518 08 in 1878 to $37,184 57 in 1879.

The freight has increased from 443,701 tons in 1878 to 624,083 tons in 1879; and the tolls paid therefor have decreased from $106,408 24 in 1878 to $100,448 71 in 1879.

The respective amounts of tolls paid as aforesaid to the Commonwealth are to be revised by the Board of Arbitrators, appointed pursuant to an agreement, hereafter mentioned between the Commonwealth and Fitchburg Railroad Company.

In our report for 1878 we stated that the Western freight business had proved unprofitable, and early in the present year we found such an increase in the quantity of low priced freight, that it was impossible for us to continue the through business over the Troy and Greenfield Railroad without great loss, unless the State authorities would consent to a reduction of the tolls paid for the use of the Troy and Greenfield Railroad and the Hoosac Tunnel.

Our application for such reduction led to a protracted discussion and correspondence, continuing for months, between the State authorities and your directors.

The imminent danger of breaking up the newly formed and rapidly extending Hoosac Tunnel freight line called the attention of the mercantile community to the necessity of some arrangement that would preserve the benefit of the line to our commerce; and the Board of Trade of the city of Boston took upon themselves the task of examining into and adjusting the points of difference between the State and our Corporation. Aided by their intervention, an agreement was finally reached, under which we continue to operate the Troy and Greenfield Railroad from Greenfield to North Adams. By this agreement, the State is secured in receiving from the gross receipts of the business over its line of road an agreed cost of maintaining the road and this Corporation is reasonably sure of being paid the cost of operating it. If the business on the Troy and Greenfield Railroad should produce an income over and above the cost of maintaining and operating it, then all such net income belongs exclusively to the State. In other words, provision is made, in the first place, to protect the State from loss in maintaining the Troy and Greenfield Road, and, in the second place, to protect the Fitchburg Railroad Company from loss in operating it, if the income will do so after deducting the expenses of the State.

It is obvious, that, whatever may be the risk of loss, it is incurred by our corporation, while whatever profits accrue belong to the State. But we had taken the position that we were willing "to operate the Troy and Greenfield Railroad and the tunnel upon the actual cost of operating it, that cost to be decided by three disinterested parties," and felt bound to assent to any arrangement which afforded a reasonable probability that we should obtain that cost, and we also conceded to the State the right to receive an agreed cost of maintenance. The agreement is "to be continued after January 1, 1880, until one month's notice by either party, or until action in the matter by the Legislature," and secures to both parties a right to have a board of arbitrators to determine what expenditure should properly be included in such cost of operating, and in that respect lessens the probability of further disagreement. The agreement provides also for the use of the Troy and Greenfield Railroad by other roads which have that right under the toll gate system, upon the same terms as are fixed for our company.

We think it is the judgment of the Committee, of the Board of Trade, and of all who understand the subject of the transportation of through freight from the West, that, in such transportation, the Troy and Greenfield Railroad can be treated only as so many miles of railroad forming part of a continuous line, and can expect to receive only its pro rata of freight carried from one end to the other of the whole line. This is the fundamental law which controls the capacity of the Tunnel line to compete with other through lines. To exact additional rates for extraordinary grades, or special tolls for an expensive bridge or an expensive tunnel, is to add so many miles to the length of the line in which the grades or bridges occur, and would make the cost of each road in a through line an equally important element with the length of it in the division of freight receipts; and, considering the great difference in the cost of railroads, the perplexity occasioned by introducing this factor may be conceived. Even admitting that this principle is just, it is evident, that practice, and in competition with a parallel line on which no arbitrary allowance exists, it would drive off, by adding to the cost of its transportation, the very business by which alone the line can be sustained. When only one line exists for the passage of business, that line may compel the payment of arbitrary rates, and do this independently of any question of cost.

The important railroad lines west of the Hudson River forming a part of the Tunnel line, have refused repeatedly and positively to pay any portion of any arbitrary allowance for the use of the Tunnel; and it is evident that the whole burden of any such allowance can never be borne, without absolute loss, by either of the short lines connecting directly with the Troy and Greenfield Railroad.

The assets and liabilities of the corporation, Sept. 30, 1879, were as follows:

ASSETS.

Cash and cash funds	$293,618 33
Real estate	305,835 09
Stock materials	364,178 62
Improvements Vt. and Mass. R. R.	699,496 56
Sinking fund	155,025 00
Construction accounts in excess of capital stock	881,027 43
Debit balances	11,269 14
	$2,710,450 17

LIABILITIES.

Funded debt	$1,000,000 00	
Notes payable	810,000 00	
Due connecting roads	230,390 74	
Vermont and Mass. R. R. Co	98,774 25	
Unclaimed dividends	9,049 50	
Coupon No. 10	350 00	
Coupon No. 11 (due Oct. 1, 1879)	17,500 00	
Coupon No. 4 (due Oct. 1, 1879)	15,000 00	
Suspense account	10,772 50	
Renewal fund	25,187 77	
		2,216,974 76
		$493,475 41

By reference to the annexed statement it will be seen that the expenditures on account of construction exceed the amount of capital stock by $881,027 43; this, together with the sum of $699,496 56, represent the amount respectively expended in additions and improvements on the Fitchburg and Vermont and Massachusetts Railroads, and are not available assets until stock is issued to cover the amount expended in excess of the present capital, but stand as an investment until capitalized.

TRIAL BALANCE, September 30, 1879.

Construction account	$5,381,027 43

President.—WM. B. STEARNS.

Directors.—Wm. B. Stearns, Boston; Rodney Wallace, Fitchburg; C. U. Cotting, Brookline; Seth Bemis, Newton; Robert Codman, Boston.

Treasurer.—M. D. BENSON.

Superintendent.—C. L. HEYWOOD.

☞ The California State Board of Equalization has completed the work of assessing the railroads of that State. The assessment includes the value of franchise, as well as roadbed, rolling stock, etc. The total number of miles is 2,023½. The franchises on the main lines are assessed at $2,000 per mile. The Central Pacific has the highest total value per mile—$20,264—and the California Northern the lowest—$7,434.

Boston, Concord and Montreal Railroad.

From the report of this company for the year ending March 31, 1880, we learn that the gross earnings during that time were $678,128 34, the expenses $477,251 46, and the net earnings $200,871 88; for the year ending March 31, 1879, the gross earnings were $590,550 49, the expenses $457,377 44, and the net earnings $133,173 05—showing an increasee in gross earnings of $87,572 85, with an increase in expenses of $19,874 02—making the increase in net earnings $67,698 83. The net income shows a decrease of $746 73, which is accounted for by increased proportions amounting to $67,270 22 paid other roads, and also paying bills to the amount of $20,554 50 accruing prior in the last report, which were not included in accounts of last year.

The rolling stock is in good condition and the roadbed has been greatly improved during the year.

Sales of the consolidated bonds have been made to the amount of $153,500; $124,000 has been applied to take up the overdue bonds of 1875 and $28,000 to the construction of the branch road to Mt. Washington. The trustees of the sinking fund hold $306,000 of the bonds due in 1889, the corporation holds $116,000 and there are $202,000 outstanding in the hands of other parties.

The directors regret that the increase of receipts from the business of the road has not been such as to justify them in commencing the construction of that portion of the road between Northumberland and Colebrook.

If the present prospects of business should continue it may be expedient to locate some portion of this extension during the coming season.

The completion of the Profile and Franconia Notch Railroad during the past year—a narrow gauge road connecting at Bethlehem station—has provided additional facilities for the transportation of passengers from this road to the Profile Notch of the White Mountains.

The business arrangement with the Whitefield and Jefferson Railroad, which connects with the road at Whitefield, the operation of which was commenced in July of last year, has proved quite satisfactory.

A branch road has been projected from Lancaster to Kilkenny, with a view of reaching the extensive tracts of lumber in that section; the corporation has been organized, but nothing has been done towards its construction.

Our relations with all the connecting roads have been harmonious, and there is now no apparent reason to apprehend that they may not so continue.

☞ The Manchester and Keene Railroad, which was recently put into the hands of Geo. A. Ramsdell, Esq. as receiver, by Chief Justice Doe, is being put in running condition as rapidly as possible. The track has been opened as far as Harrisville, and a gravel train will be put on in a day or two. It will not be ready for travel and freight in some time. B. F. George, a civil engineer of recognized ability, has charge of the work.

Shenandoah Valley Railroad.

A correspondent, writing from Hagerstown, Md., under date May 19th, says:

Six months ago, when surveys were being made through this county for the extension of the Shenandoah Valley Railroad from the Potomac, opposite Shepherdstown, to this place, and the statement was made that the roadbed would be completed by the first of July, and trains be running by the first of September it was regarded as chimerical. Events have shown the contrary. All the heavy work on the road between these points is already nearly completed. Monday last, one-half a mile south of this town, the connecting rails with the Cumberland Valley railroad were laid, and, in a few days construction rates will be at work aiding in making the roadbed at this end of the line, and by the time the grading is completed to the river the track will be laid and ballasted, and upon the completion of the bridge over the Potomac at Shepherdstown, which will doubtless be accomplished by or before the first of September, there will be communication south from this place through the rich Shenandoah valley to Waynesboro', Augusta county, full 150 miles. The road here connects with the Cumberland Valley railroad via Chambersburg and Harrisburg to Philadelphia, and by the Western Maryland road with Baltimore. A large force of hands are actively employed along the whole line, particularly upon sections where heavy cuttings are encountered, and these are but few, and the heaviest are the approaches to the river opposite Shepherdstown.

Suburban Rapid Transit.

The work of the commission for laying out routes for rapid transit lines in the annexed district has been completed, so far as the designation of routes is concerned, and what remains to be done will be pushed forward by the Commissioners to rapid completion. The company which will build the lines designated will be known as the Suburban Rapid Transit Company, and will begin with a capital of $1,000,000. There will be three lines, and the arrangement of these with respect to connections with existing rapid transit lines and the crossing of the Harlem River, will have the effect of making the Second-avenue line, in this city, the route to all the east and central section of the annexed district, while the Eighth-avenue line will be the means by which all the western section of the district and Yonkers will be reached. The crossing of the Harlem River on the East Side will be by a bridge at the end of Second-avenue, the construction of which will be commenced in a short time. At the end of Eighth-avenue the bridge across the river is already under way, and work is proceeding upon it with the greatest activity. The Second-avenue bridge will be built jointly by the Suburban Company and the New Haven Railroad Company, and the latter will build an additional branch of line so as to reach the bridge by a gentle curve, their present line making a right angle with it. The new line will be used for passenger trains, and the old one used, as now, for the freight depot at this point. The bridge will be a substantial iron and stone structure, 24 feet in the clear above high water mark. On crossing the bridge from the end of Second-avenue, the map of the routes of the Suburban Company shows a broad stem running straight north through the blocks for about half a mile; then it branches into three lines. One will run northeast, parallel with the Southern Boulevard, up to Brooxdale, where the Mount Vernon rapid transit line will come down to join it. Another will run due north, parallel with Fordham-avenue, up to Fordham. The third will run northwest, parallel with Jerome-avenue. There will also be a branch road on the east side of the district, running to Hunt's Point, and northerly, through the Town of Westchester, to New Rochelle. The work upon these lines will be begun as soon as the company is organized, and it is said that all the stock will be subscribed for the same day the Commissioners open the subscription books. The work, which is now going on along the Westchester bank of the Harlem River, is being done by the New York and Northern Railroad Company, which will make its connection with the south side at the Eighth-avenue bridge, and will run northerly, and then turn east to get to Brewster's, where it meets a system of New England roads. At a spot near the north line of the annexed district the West Side and Yonkers Rapid Transit Line will come down from Yonkers and join it. Branch roads, which are now in process of construction, will connect Jerome Park on its east and west sides with the New York and Northern and the Harlem Railroads. When all the lines shall have been completed, the Second Avenue, the Sixth-Avenue, and the Harlem Railroad from Forty second-street will give swift communication with all parts of the annexed district.

Portland and Ogdensburg Railroad.

A correspondent, writing from Swanton, Vt., under date May 16, 1880, says that an important railroad project has been under consideration for several months by the receivers and managers of the Portland and Ogdensburg Railroad (Vermont Division), but not until recently has the proposition received substantial indorsement by the various railroad companies that were naturally interested in the connecting link of road that the management of the Portland and Ogdensburg desired to have constructed between their Swanton (Maquam Bay) terminus and the Rouse's Point end of the Ogdensburg and Lake Champlain Railroad. The correspondent adds:

As the title of the company signifies, it was the intention of the Portland and Ogdensburg Railroad Corporation at the outset to build a line between the cities of Portland and Ogdensburg; but on reaching Lake Champlain at Swanton a further extension of the line was deemed impracticable.

A connection, however, with the terminal point of the Ogdensburg and Lake Champlain Railroad on the other side of the lake at Rouse's Point now seems assured, and the early completion of this link by the financial aid of the Ogdensburg and Lake Champlain, Connecticut and Passumpsic Rivers, Boston, Concord and Montreal, and Portland and Ogdensburg Railroad Corporations has been guaranteed.

Last Saturday a party of railway officials interested in the proposed new road visited Swanton and Rouse's Point on a tour of inspection. After going over the route a consultation was held between the parties interested, and it was decided to put on a locating survey party at once, and to push the road to an early completion.

The route from the Maquam docks will lie along the shore of the bay, and will then diverge in nearly a straight line across Hog Island, crossing Missisquoi Bay by a pile bridge; thence over the Alburgh Peninsula to Windmill Point, there connecting with the Ogdensburg Railroad portion of the bridge on the Rouse's Point side. This will necessitate the construction of a bridge across the channel nearly one-half mile in length. The length of the new road will be 11 miles. At Rouse's Point connection will be made with the Grand Trunk, Delaware and Hudson Canal Co., and the Ogdensburg and Lake Champlain. Maquam Harbor, the present terminus of the Portland and Ogdensburg Railroad, is one of the best ports of entry for shipping on the lake. The United States Government has expended some $25,000 for a breakwater here, and parties interested in the road have built several substantial docks at this point. A spacious and fine hotel has been erected here, a handsome park has been laid out, storehouses put up and other improvements made along the bay.

The new steamboat purchased of Capt. Warren Corbin for $12,000, and which has been building the past winter at the island, will be built here in a few days to receive the engines and furnishings necessary for its equipment. It will be ready for freight and passenger business early in the summer, and will ply between Maquam and Plattsburg.

The construction of this connecting link bids fair to add materially to the prosperity of the Portland and Ogdensburg Railroad, and an increase of business is confidently looked for from the connecting lines. The receivers and managers of the road have made extensive improvements in the roadbed, and contemplate building additional docks at Maquam the present season.

Pacific Mail Steamship Co.

At the annual meeting of the Pacific Mail Steamship Co., held in this city on the 26th inst. the following directors were elected: Jay Gould, Trenor W. Park, Sidney Dillon, Russell Sage, C. P. Huntington, C. G. Francklyn, E. H. Perkins, jr., George A. Hoyt, and J. B. Houston. The Union Pacific Railway Co. is represented by Messrs. Gould, Dillon, and Sage, the Central Pacific by Mr. Huntington and the Panama Railroad Co. by Messrs. Park, Francklyn and Hoyt. J. B. Houston, who was elected President of the Board, is the only representative of the steamship company. The retiring president submitted the report of the business for the year ended April 30, 1880. Compared with the business of the preceding year, the gross earnings of the various lines of steamers show an increase of $9,158, but the receipts for subsidies and from other sources were $93,831 less than for the preceding year, so that the gross receipts from all sources last year were $84,673 less than for the preceding year. The expenses, which are charged to the separate lines as running expenses, were $106,986 less for last year than for the preceding year, and the general expenses were $26,334 less, so that the remaining net earnings of the last year were $48,643 more than for the year ended April 30, 1879. The comparative statements are as follows:

EARNINGS.

From the—	1879.	1880.
Atlantic Line	$581 536	$600,916
Panama Line	1,486,576	1,531,677
Victoria Line	237,918	201,978
Trans-Pacific Line	929,167	930,658
Australian Line	824,282	321,214
Honolulu Line	26,804	.. ....
Total	$3,577,285	$3,586,443
Australia and New Zealand Subsidy	$217,120	$176 410
Central American and Mexico Subsidy	164,938	118,867
British Columbia Subsidy	38,000	38,000
Hawaiian Government Subsidy	11,692	6,500
Interest and dividends on investment and miscel	45,521	44,163
Total earnings	$4,054,560	$3,969,888

EXPENSES.

	1879.	1880.
Of the Atlantic Line.....	$432 373	$474,599
Of the Panama Line.....	1,136,716	1,127,801
Of the Victoria Line.....	261,826	273,592

Total expenses	$3,652,741	$3,519,421
Net earnings.....	$401,819	$450,462

The balance sheet reports the value of its steamers at their cost price, the same as by the report of the preceding year, $10,288,386. The other assets, including cash on hand and in London and subsidies due (other than the old claims against the United States and British Columbia), now $178,591 against $180,504 a year ago, amounted to $11,811,325 April 30, 1880, against $12,269,170 April 30, 1879. The above figures include 25,528 tons of coal on hand at the end o last year against 23,386 at the end of the preceding year. The report of this year omits from the assets $116,284, viz: Tug Miller Griffith, $42,089, steam launch at Panama, $2,180, and lighters at Yokohama, $72,015, which appeared among the assets reported April 30, 1879. The comparative liabilities of the company at the respective dates were as follows:

LIABILITIES.

	1879.	1880.
Bills payable.....	$270,000	$85 281
San Francisco unpaid bills.	20 900	39 330

Panama Railroad Co., interest account	10,551	.....
Miscellaneous	117,783	186,233
Total.....	$2,577,555	$2,110,711

☞ What is supposed to be the largest pumping engine in the World has recently been set up at the Union shaft on the Comstock lode in Nevada. The initial cylinder is 5 feet 5 inches in diameter, with a stroke of 6 feet 9 inches, and the other cylinder is 8 feet 4 inches in diameter, with a stroke of 8 feet 3 inches. The big cylinder weighs 43 tons and the small one 30 tons. The fly-wheel is 37½ feet in diameter and weighs 110 tons, the hub weighing 15 tons and revolving on a shaft 2 feet 8 inches in diameter. The water flooding the three mines, Sierra Nevada, Union and Mexican, will be easily handled by this huge machine.

☞ Messrs. Gowen, Lewis and Caldwell appeared before the Clerk of the United Statest Circuit Court at Philadelphia on the 25th inst., and entered joint security in $500,000 as Receivers of the Philadelphia and Reading Railroad and the Coal and Iron Company.

☞ The Board of Equalization of Kansas has assessed 3,007 miles of railway within the limits of the State this year, as against 2,443 miles last year,—an increase of 564 miles in one year. The railways of the State are valued for taxation at an aggregate of $19,741,655 this year, as against $16,153,018 last year—an increase of $3,588,636 during the year. The average value per mile this year is $6,565.

☞ The Monumental City Railway Company of Baltimore has organized, with the following officers, for the ensuing year: Rufus Bennett, President; Michael P. O'Hern, Vice-President; Robert T. Banks, Secretary; Howard Munnikhuysen, Treasurer. The line of the road is from Hillen Station, by way of Belair market, Patterson Park, Highlandtown and Bayview, to lower Canton. It is proposed to use compressed air motors on the eastern end of the road.

☞ At the annual meeting of the Pittsburg, Fort Wayne and Chicago Railroad Co., held in Pittsburg on the 19th inst., the following directors were elected: George W. Cass, Samuel J. Tilden, J. N. McCullough, Charles Lanier and George B. Roberts. The report shows the net earnings for the year ending December 31, 1879, to have been $3,951,240 10. The vote represented $19,000,000 of stock.

☞ The Managers of the Missisquoi, the Southeastern, and the Missisquoi and Black River Railways have entered into an arrangement whereby the remaining portion of the last named road will be completed to a connection with the Southeastern at North Troy, Vt., and the whole road from that point to Richmond, P. Q., be controlled by the two former companies.

☞ The Waverly (Ohio) Republican says that Contractor Minahan has entered into a contract to extend the Springfield Southern railroad from Jackson to the Ohio River, the precise point not yet being concluded upon, but engineers are surveying upon three routes. Minahan advertises in the Springfield papers for 500 hands for seven months, which looks like work somewhere.

☞ The United States Court in New York on the 25th inst., appointed Messrs. Gowen, Lewis and Caldwell receivers for the Philadelphia and Reading Companies in that State, so that now they will have full control over all the companies' property in Pennsylvania, New Jersey and New York.

HALLS PATENT NOISELESS RUBBER WINDOW Frame for carriages. For carriages this frame requires no cloth covering and for durability will out wear any other frame. Carriage right for sale. WM. J. HALL, 328 E. 37 St., New York.

LITTLE CHIEF MINING COMPANY.

ROOM No. 54 BOREEL BUILDING, 115 BROADWAY, NEW YORK, May 15, 1880.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a MONTHLY DIVIDEND (No. 4) of ONE PER CENT. on the TEN MILLION DOLLARS ($10,000,000) capital stock of this company, amounting to ONE HUNDRED THOUSAND DOLLARS ($100,000,) or FIFTY CENTS Per Share, out of the fourth month's net earnings, payable at the Mining Trust Company, on the 25th inst.

Transfer-books will close May 21, and re-open May 26.

D. F. VERDENAL, Secretary.

The investigation of frauds on Railway Companies a specialty

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending May 15, as reported by the several carrying companies, amounted to 391,462 tons, against 553,237 tons in the corresponding week last year, a decrease of 161,775 tons. The total amount of anthracite mined for the year is 7,633 616 tons, against 8,338,012 tons for the same period last year, a decrease of 704,396 tons. The quantity of bituminous coal sent to market for the week amounted to 83,868 tons, against 78,910 tons in corresponding week last year, an increase of 4,958 tons. The total amount of bituminous mined for the year is 1,311,272 tons against 1,154,058 tons for the correponding period last year, an increase of 157,214 tons The total tonnage all kinds of coal for the week is 475,330 tons, against 632,147 tons in corresponding week last year, a decrease of 156,817 tons, and the total tonnage for the coal year is 3,944 888 tons against 9,492,070 tons to same date last year, a decrease of 547,182 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the second week of May was 133,214 tons, of which 109,680 tons were coal and 23,534 tons coke. The total tonnage for the year thus far has been 2,551,152 tons of which 1,881,386 tons were coal and 659,766 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ended May 15 were 52,251 tons, and for the year to that date 695,627 tons—208 506 tons over the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 29,927 tons, and for the year 510,822 tons, an increase of 192,210 tons over 1879. The shipments to the Chesapeake and Ohio Canal for the week aggregate 19,109 tons, and for the year 96,058 tons, a decrease of 13,161 tons as compared with last year. Shipments to the Pennsylvania Railroad for the week were 9,215 tons, and for the year 89,186 tons, an increase of 29,395 tons as compared with 1879.—Phil. Ledger, May 24.

Central Vermont Railroad.

A correspondent, writing from St. Albans, Vt., says that the freight business of the Central Vermont Railroad is at present immense, and tests its fine facilities to the utmost. It is reported that the Grand Trunk Railway Co. has succeeded in securing a traffic contract with the North Shore Railway of Canada, running to Quebec and Ottawa, which will add very largely to the freight business of the Central Vermont system of roads.

The gauge of the Lake Champlain and St. Lawrence Junction Railway (now a narrow gauge road running from Stanbridge to St. Guillaime, P. Q., a distance of 62 miles) is to be changed at once to conform to the standard width of road. It runs through a rich and fertile belt of Canada, and even with its limited traffic facilities has proven a valuble feeder to the Central Vermont, with which it connects at Stanbridge. With improved roadbed and additional rolling stock, as contemplated, the Lake Champlain and St. Lawrence Junction will assuredly become one of the best paying roads in Canada, and add largely to the earnings of the Central Vermont.

☞ The Manitoba South-west Colonization Railway Co., having made satisfactory arrangements with an English syndicate for the disposal of their bonds, contemplate beginning active operations in July. Twenty miles of the road will be built this season.

☞ A party of surveyors left Wadsworth on the 14th inst. to make a preliminary survey of the Western Nevada Railroad.

NEW YORK, LAKE ERIE & WESTERN RAILWAY

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almos 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

New York, Friday, June 4, 1880.

The Reading Receivership and What it will Do.

The appointment of the three Reading Receivers noted in our last, was announced too late for well considered comment in that issue, and hence we deferred criticism thereon until we could obtain more careful information upon the character and probable results of such appointments. Our readers will bear in mind, however, that in our last we said, before the Receivers had been appointed or definitely talked of, that the remedy for the evils that had swamped Reading, was only to be found in the placing of a practical railroad man as Receiver at the head of the company, and let him undo all that had been done in the past ten years in perverting the functions of the railroad to those of a coal and iron miner and manufacturer, to which the railroad had become secondary and by which it had been swamped. Proceeding upon this basis, we will now speak of the character of these appointments, the probable policy of this triple headed receivership, the possible results, and their cost to the creditors of the companies involved.

In the first place, the appointment of these Receivers was almost as much of a surprise as the failure of the companies, because of the apparently hurried and preconcerted manner in which it was done at the instance of parties who, while interested in the New York coal roads, have by virtue of their influence with the old Reading management as lenders of a large portion of the money represented by the floating debt, became virtual partners in the policy that has wrecked the Reading. It was this same New York interest that helped ten years ago to saddle a considerable portion of the coal lands of the Reading upon it at fabulous prices, from which little or no revenue has been or ever is likely to be derived. Moses Taylor is the head of this party and the Delaware, Lackawanna and Western Railroad interest back of him. During Mr. Gowen's craze to buy all the coal lands in the Schuylkill region, these parties made an ostensible survey for a railroad into the heart of this region, where they or their friends owned large tracts of unavailable land bought on speculation. Under this threat of building an extension of the Lackawanna interest into the Reading's district Mr. Gowen was frightened into buying the lands referred to at enormous prices. In one way or another this New York interest has since been an important influence in bringing Reading into its present straits, with their chief interest in Lackawanna which is the next most hostile interest to Reading after the Lehigh Valley interests.

In this hostile interest, therefore, it would appear these receivers have been appointed and not in the interest of the creditors of the Reading Company; for Moses Taylor's and the Lackawanna's interests in hostility to Reading, as a rival, are far greater than as creditors of the suspended companies. The receivers appointed, therefore, are presumably in the interest of a rival concern represented by Moses Taylor who asked for their appointment. This of itself has a bad look for the bona fide creditors of Reading, who had no voice whatever in the selection of the men to manage what is left of their property after ten years of mismanagement, in which they had little to say and from which this New York interest has chiefly profited, if it is not really responsible with the Reading Directory therefor.

This brings us to consider the receivers personally. Of Mr. Gowen it is sufficient to say that no business man would think of appointing an agent who had confessedly wrecked a valuable property by mismanagement, to restore such property by a continuance of such mismanagement. As he is the only railroad man in the Board of Receivers, he will naturally be the head thereof, and not only control the management of this estate, but the policy will be dictated by him, who though personally honest in act and purpose, is a visionary man who is the most dangerous of all business managers as the result has shown. His co-receivers are able financiers, as he is an able lawyer, and no doubt the finances of the road will be well cared for by them, as its *law* will be by him. But where is the most needed man of all, and really the only one needed, to manage the enormous business of these two great companies upon sound railroad and business methods without which the receivership is but another shift to stave off the inevitable which will be foreclosure and the wiping out of securities amounting to about $130,000,000, except some $40,000,000 representing the real value of the company's property, and leaving nearly $90,000,000 of its "I owe yous" worth little more than the paper on which they are printed.

Beside these objections there is the univer-

sal one of double and triple headed responsibility which is shifted from one to the other until finally it is disowned by all and their victims saddled with a hopeless wreck.

There is still another and not by any means small consideration against more than one receiver. We are told that in Philadelphia it is already estimated that these receivers will each make $100,000 a year out of this office. As this is more than Mr. Gowen or his co-receivers can make as presidents of railroads or banks it is not in human nature that they should be in any hurry to get the road out of the hands of receivers, which must be done before the stockholders have any rights whatever and the junior bondholders few that will be respected.

Beside these objections the sum of $300,000 a year for the management of the company is no light additional burden to add to a bankrupt corporation whose management has not hitherto cost over one-sixth that sum. This difference would pay the interest on over $4,000,000 of the company's bonds which are held largely by trust estates for the maintenance of widows and orphans, who need it far more than these two wealthy presidents of banks.

In conclusion, we can see no possible good for the stock and junior bondholders of these companies in the hands of these receivers.

Upon this subject we call attention to extracts from a letter to us from a correspondent in Philadelphia, who is more familiar with the affairs of the company than any one beside Mr. Gowen, and one of the most practical and successful railroad managers in that city.

How the Reading Receivers were Appointed and What will be their Policy.

The following extracts from a correspondent's letter from Philadelphia, will be of interest to the creditors of the Reading Company. The author is the best informed man and the most competent judge of the subject discussed. In referring to the manner in which the receivers were appointed, he says:

The sharp lawyer dodge of filing a bill in equity in Philadelphia on Saturday, at 5:30 P. M., and getting a hearing on it in Pittsburg on Monday morning, 400 miles off, is too transparent in its object, which was to evade opposition.

The receivers announce a continuation of the past policy, which will run things deeper in the mud than ever. * * * Gowen therefore will control the policy.

I know what ought to be done, what *must* be done to save everything from the wreck, and I know it is not going to be done by these receivers.

Things are much worse than any one supposes them to be.

☞ The Charlottesville Chronicle says that track laying has been commenced on the railroad from Charlottesville to Orange Court House, Va., an extension of the Virginia Midland railroad, and is being pushed forward as rapidly as possible. A material train is now engaged in hauling ties from Lovingston for the new road, and the missing link will soon be completed, and the connection between Charlottesville and Orange Court House made, to the great benefit of both places.

How Vanderbilt's Senate Killed the Anti-Discrimination Bill.

As we went to press last week, the Legislature of this State adjourned without passing the Anti-Discrimination Freight Bill. That the people of the State might know the why and wherefore, and that the responsibility for its failure did not rest upon the House, Mr. Duguid, one of the House Committee on Railroads and one of the Conference Committee, explained that the report of the Conference Committee was in the hands of the Senate, and that that body had gone into executive session. The last moment of the session was at hand and there was no time for further delay. He was unwilling to allow the measure to die in this way. The responsibility was with the Senate. It had converted the bill from one in the interest of the people to one in the interest of railroads, and the Assembly ought in some way to make this known to the people of the State. He therefore, without waiting hopelessly for the formal report of the Conference Committee—a report that was due to the Assembly—would orally report that the Conference Committee had failed to agree. Mr. Duguid spoke with a good deal of feeling because of the indignity which he felt that the Senate had put upon the Assembly and on him.

Mr. Duguid should have gone further and stated who were the members of this Conference on the part of the Senate, and it would have been clearer to the public, how Mr. Vanderbilt owned the Senate of this State to such an extent that he could make one of his partners in his railroad interests a member of this Committee. From this it will be seen that it was impossible to pass the bill. The members of the Conference Committee on the part of the Senate were Messrs. Wagner, Madden and Hogan.

Senator Wagner is Vanderbilt's Wagner Palace Car partner, and had the Senate of this State one remnant of honor or manhood left it would not have placed this man on such a committee. They might as well have made Vanderbilt himself the committee to make laws for himself. Had Senator Wagner any conception of his duty and regard for his oath of office or shame, he would not have consented to sit on this committee. The House has done all that could be asked of it and most of the members of the Railroad Committee The people must hereafter have an accounting at the polls of the stewardship of these recreant members of the Senate, of whom a majority appear by the above action to be the representatives of Vanderbilt, to have betrayed the trust of their constituents to him, to have violated their oaths of office and have not enough manhood or sense of shame left to blush even at their self-degradation, or sensitiveness enough to attempt to conceal the circumstantial evidences of corruption.

A New Motive Power Applied to Locomotives.

The Holland Hydro-Carbon Retort is an ingenious invention for generating heat from water, with oil as fuel, effecting great economy in all places where steam engines are used, and saving travelers from the annoyance of smoke, cinders and the odor of sulphurous gases. The inventor, Dr. Charles Holland, has spent some years in perfecting it and in covering his inventions with patents. A few months since he came to New York and enlisted some men of means in his enterprise. They purchased the right to use the machine in a large section of the country, and have organized a company, which has its offices at No. 18 Vesey street. The experiment of running a locomotive with one of the retorts was made on the Long Island Railroad last week, and in every respect it was a gratifying success. A party of about fifty gentlemen—capitalists, railroad officials and scientists—witnessed the experiment. A forty-ton engine was fired up; and before starting on the experimental trip, Dr. Holland, the inventor, explained the principle and operation of the retort. It is made of cast iron, and consists of four chambers, two for water and two for oil. In starting the fire to first generate steam while the water in the boiler is cold, the water chambers of the retort are supplied from the water tank on the tender. As soon as sufficient steam is raised, say ten pounds, the water supply is shut off, and hot water allowed to flow in from the boiler. The water, being first raised or converted into superheated steam, is then brought in contact with the gas flame generated from the oil and decomposed. The oxygen of the water being liberated from the hydrogen, is at once taken up by the carbon flame, its combustion is made perfect and the hydrogen is left free to burn by combustion with the free oxygen of the air which surrounds it, producing an oxy-hydrocarbon flame or heat of great intensity; in fact, the most intense heat that can be conceived. The inflow of oil and water by the four separate induct pipes into the four separate chambers of the retort is controlled by four valves, which the fireman can govern at will as readily as a common gas jet. The engine was coupled to a car in which the party took their seats, and a run of six miles out and return was made with three gallons of naphtha, costing 3 cents per gallon. Not a particle of smoke or cinders could at any time be seen, nor smell of gases, and a large part of the time it was found necessary to use but two of the chambers of the retort, and then even to not more than one-fourth their capacity, so that an enormous reserve force was in readiness for any emergency, such as ascending heavy grades. In descending grades the fire can all be instantly shut off, and so remain until a level grade is reached, when two chambers of the retort can be instantly relighted, and so continue until a heavy grade is reached, when the other two chambers can be instantly relighted, if required. It is a well known fact that in burning coal as fuel to generate steam in a

locomotive boiler, no more than eight per cent of the carbon is utilized as heat, the enormous waste of ninety-two per cent passing off in waste products—smoke, sparks, cinders and unconsumed gases. And carbon alone, even with a perfect combustion, contains but 14½ units of heat to the pound, while hydrogen contains 62½ units of heat. It will therefore be seen that, with a perfect combustion of the carbon and utilizing the entire amount of hydrogen in the water, an astonishing amount of heat power is generated by the Holland process. Professor John F. Boynton, of Boston; J. G. Case, manager of the Continental Telegraph Company; J. M. Foss, of the Vermont Central Railroad; E. C. Burgess, an engineer of Philadelphia, and other scientists present, all pronounced it a complete success. The great merits of the inventions, aside from those already mentioned, are the cheapness of the materials used, its entire cleanliness, and the fact that the heat and light are always under control. Perhaps the greatest merit claimed for the retort, is its saving of expense in the use of fuel. A low average of the present expense for fuel on railroads to-day is from 7½ to 12 cents a mile. It is declared by Dr. Holland that it will not be long before he can demonstrate to railroads that, with his retort, they can run engines at an expense of from 3 to 4 cents a mile. The retort can be applied to cooking stoves, stationary engines, steamboats, as well as locomotives.

Rights of Express Companies.

In the United States Circuit Court, at Louisville, on the 26th ult., Judge Baxter delivered an opinion in the case of Adams Express Company against the Nashville, Chattanooga and St. Louis, and the Louisville, Cincinnati and Lexington Railroad Companies. Judge Baxter, after alluding to the commencement of the express business in 1839, under the auspices of Alvin Adams, and its growth until to-day, when it represents 160 express companies, possessing an aggregate capital of $30,000,000, and occupying every prominent railway in the United States, says that during this period the railway companies have afforded freely all facilities the express companies have required and in many instances have solicited the business of such companies, to the great profit of the railways. By the recent changes the Louisville and Nashville Railroad Company have obtained control of long lines of railway, and have undertaken to organize a new express company called the Union Express Company, and with the view of supplanting the Adams and Southern Express Companies has undertaken to give the Union Company the exclusive use of the privileges heretofore accorded to the other two express companies. Judge Baxter reviews the whole question at length and concludes as follows:

The attempt on the part of the Railway Company now to arrogate to themselves the exclusive right to perform those services on behalf of the public which so long have been satisfactorily performed by the express companies is not entitled to recognition in a Court of Equity. The railroad companies fostered the business of the express companies, and it was built up and conducted with their assent and assistance, and the railway companies are therefore estopped from asserting a right to render valueless the business and capital of the express companies or from claiming the exclusive right hereafter to conduct the express business on their own behalf. An injunction will be therefore issued as prayed for by the complainants, and if any question arises as to the proper measure of compensation to be paid for by the express companies, such a question may be presented to the court, but m antime the defendant is enjoined from disturbing the business of the express companies, or from refusing to transmit its express matter under the charge of its messenger.

Indebtedness of the Philadelphia and Reading R. R. Co. to the state of Maryland.

A correspondent, writing from Annapolis, Md., under date May 26th, says that the financial difficulties of the Philadelphia and Reading Railroad Company are likely to defer indefinitely the settlement reached last winter in regard to the $60,000 annuity to that State from this company, which has been in default for some years on account of mortgages of the Susquehanna and Tidewater Canal Companies, and then adds:

Propositions were made by Mr. F. B. Gowen, president of the Reading road, in 1878, to give debenture guarantee scrip covering the default, and the propositions were accepted by the board of public works, but the Legislature failed to ratify the bargain. Last winter this mode of settlement was consummated. An act was passed authorizing the State treasurer to accept $150,000 in debenture guarantee scrip, payable July 1, 1882, with interest coupons, the first payable January 1, 1880, in settlement of interest due July 1, 1879. The State treasurer was authorized to accept checks of the Reading Company for $9,000 in payment of the interest on scrip to July 1, 1879, and the checks as well as the scrip were forwarded to Annapolis. It is not known, however, that the checks have ever been cashed, and in the present state of affairs it looks as though the State of Maryland will continue for some time yet without any return from its million of dollars investment in these canals. The scrip, of course, will continue to bear interest, the next coupon being due July 1, 1880.

Anthracite Coal Going West.

In answer to the question "How much hard coal is there this year going west to Chicago and beyond?" the Philadelphia Ledger says:

Last year the low prices of coal and the great anxiety of the trade to sell made the West, until then a comparatively new field, a large taker of coal. Whether it will take as much this year, under rather higher prices for coal, and probably higher toll charges, for last year West bound freights were so scarce that the return of Eastern bound loaded produce cars carried coal back at little more than loading charges. To the extent that the Western demand for anthracite coal may be less this year than last will the year's out-put be less in that direction. A lessened Western consumption of hard coal, however, is not thought probable, as we notice by last week's report the receipts at Chicago amounted to 58,481 tons, and since January 1, to 914,683 tons, against 653,454 tons received there in the same time last year. The amount of coal shipped thence since the beginning of the year is 221,714 tons, against 145,408 tons in same time last year, showing an increased demand for hard coal throughout the entire West, as a preference for it everywhere will be shown after being once tried.

Dynograph Car.

The dynograph car, which the Boston and Albany Railroad Company are testing on their road, accomplishes the recording of the motive power used in drawing a train by the transmission of the force imparted by the car's draw-bar to a piston working in a cylinder filled with oil to a pen which draws a diagram of the train's resistance on a roll of paper. Other pens record the distance traveled, in seconds, minutes and hours, the revolutions of the driving wheels, the mile posts as they are passed, the curves and straight lines of the track, the water used and each shovelful of coal put on the engine fire, every escapement of black smoke from the chimney, and the tale of the anemometer on the top of the car. The car is to be used to determine the relative difference between the various kinds of joints and ballast commonly used on railroads—a question which has been prominently before the general managers of late, and when once settled, will be the means of saving large sums of money to the corporations, and bringing about better roadbeds.

Broadway Underground Railroad.

S. M. Lawson, A. L. Sullivan, T. L. Smead, J. G. Sickels, of New York; A. N. Cromwell, of Brooklyn; H. H. Edwards, of Staten Island, and T. E. Sickels, of Pennsylvania, are named as directors of the Broadway Underground Railway Company. This railway is to begin near the South Ferry, New York; thence it is to run under Whitehall street to Broadway, under Broadway to Fifty-ninth street, under Fifty-ninth street to the Boulevard, under the Boulevard to Tenth avenue, and under that avenue to Kingsbridge. The length of the road is to be fourteen miles, and the capital is placed at $14,000,000. The same parties are also named as directors of the Madison Avenue Underground Railway Company. The route is as follows: beginning in Broadway near Twenty-third street, under and across Broadway and Madison square to Madison avenue, to the Harlem River. The length of the road is six miles, and the capital is placed at $6,000,000.

New York, Boston and Albany Railroad.

Wm. Hinds, Francis E. Frothingham, Wm. S. Carmen, Charles Ely, Wm. L. Davis, Horace F. Chase, Benjamin C. Hind, Eben B. Crane, James G. Hobbie, of New York, John W. Van Valkenburgh, of Albany, James T. Potter, Frederick W. H. Crane, of Brooklyn, and Edwin B. Moore of Jamaica, are named as directors of the New York, Boston and Albany railroad company. The lines are to run from New York to state line, between New York and Connecticut, at or near the town of Salem, and from some point at state line between New York and Massachusetts, at or near the town of Canaan, to town of New Lebanon. The length of road is fifty-two miles. The capital is placed at $7,000,000.

☞ The Directors of the New York, Ontario and Western Railroad Company have filed a notice with the Secretary of State at Albany to the following effect: The said company was formed upon the sale of the New York and Oswego Midland Railroad, and its present capital, $50,000,000, is insufficient to carry out the plan of reorganization. The additional amount required is $15,000,000, thus making the capital stock $65,000,000.

☞ George D. Chapman has resigned the presidency of the Scioto Valley Railroad Co., and Wm. Adams, Jr., of New York, has been elected in his place. Mr. Chapman will construct the Ohio river branch of the Scioto Valley railroad to connect it with the Chesapeake and Ohio Railway.

☞ A narrow-gauge railroad from Grafton to Beverly, West Virginia, fifty miles, is projected. A company has been formed, and some of the stock has been taken.

RAILROAD AND CANAL DIVIDEND STATEMENT.

Showing the amount of Stock Outstanding, the Dividend Periods and the date of last Dividend.

Manchester and Ashburnham Railroad.

At the annual meeting of the stockholders of the Manchester and Ashburnham Railroad Company, held in Manchester, N. H., on the 26th ult., the following Directors were elected: S. R. Payson, Edmund Dwight, J. C. Palfrey, Boston; ex-Gov. P. C. Cheney, Jos. Stone, H. K. Slayton, Aretas Blood, Manchester; Treasurer M. P. Hall. Several names were added to the list of grantees. A report was made by a committee, consisting of ex-Governor Cheney, Col. Thos. Livermore, and Jos. Stone. The estimated cost of the road to the Massachusetts line is $440,000. A very feasible route has been surveyed, with easy grades, and though nothing positive can be said at present, indications point to an early taking of the stock and the building of an independent competing line.

Statement of the Public Debt of the United States, June 1, 1880.

Sioux City and Pacific bonds, 1862-64.....	1,628,320 00	40,708 00
Totals.....	$64,623,512 00	$1,615,587 80

Interest paid by United States, $45,651,155 94; interest repaid by transportation of mails, &c., $13,084,815 67; interest repaid by cash payments: 5 per cent net earnings $658,198 87; balance of interest paid by United States $31,911,141 40.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, May 31, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

☞ Receivers Lewis, Gowan and Caldwell having filed their required bonds, as stated in our last issue, and having organized, appointed as Secretaries Messrs. White and Foster, the present Secretaries of the Railroad Company and the Coal and Iron Company, respectively. A form of notice was prepared for transmission to officers, agents, employes and others concerned, announcing that receivers had duly taken charge of the affairs of the two companies, and notifying the present agents, etc., to continue in the performance of their usual duties until further notice. The receivers also gave notice for the immediate preparation of such statements and reports as will show as concisely and accurately as possible the exact condition of affairs, the assets and liabilities of both companies, &c. The preparation of these reports and statements will be the work of considerable time.

☞ The executive committee of the Hannibal and St. Joseph Railroad Company has directed a survey of the line between Chicago and Quincy, with a view of constructing an extension to Chicago.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, June 3, 1880.

The Wall Street and Merchandize Markets for the past week have been under the control of speculators as a rule whenever there has been a speculative interest. The situation has been so bearish of late in all these markets that a very large short interest has been created in most of them, and the large cliques or operators who hold or control stocks of merchandize or the supply of stocks on the street, have used the opportunity to make a turn on the bull side of the market by squeezing this short interest. The result has been higher prices in stocks and in breadstuffs, all of which were more or less cornered, while provisions have ruled lower and cotton unsettled on an excess of stocks and a small short interest. The foundation for this kind of a market was laid in Wall Street last week by the great fall in the coal stocks, in which an enormous short interest was created and a good part of it is still in existence, though much of it has been covered and the profit taken, yet the remaining portion has been sufficient to sustain these shares better than the balance of the list through the week and at its close to advance these several points in excess of the balance of the list. On the other hand the Vanderbilt stocks have been weak and lower on an active market said to be due to a bear clique formed to depress Lake Shore and Western Union for the purpose of buying these stocks. With these all the other Vanderbilt shares have sympathized until near the close, when all rallied quite sharply on an active demand from the shorts to cover their contracts.

With these two counter movements the rest of the market has sympathized some stocks following the coal stocks and others the Vanderbilts, without important movements in any. The dealings have been on agreatly restricted scale and have not averaged more than about half those of last week's. As to the tendency of the market it is difficult to say. As stated in our last the shock to the coal shares by the fall of Reading is not to be overcome in a day, and the feeling is yet bearish on these particularly, and it will be the cause of another reaction in their prices unless the rest of the market becomes bullish and carries them with it, or the bearish selling of them shall produce an artificial market by which the managers of these coal roads will be able to sustain their stocks by holding them off the street and making them scarce for borrowing until they force the shorts to settle by worrying them out with charges, as was the case in 1877, when they "milked" the market in this way, and then let it down until they secured another large short interest on which they would jump up the price so suddenly that they could not cover except at heavy loss, and repeat the above squeezing operations. Hence the inherent distrust of, and the weakness in the coal shares may be made their great speculative strength. As to the prospects of the balance of the market it may safely be said that confidence in late prices will be restored more slowly than they were broken even, unless the great operators combine for another wild boom like last fall's, and the public go crazy again. Should crops prove to be good later on, and these operators interests be on the long side, it is not at all unlikely we may see a repetition of last Fall. Indeed their operations are already shaping themselves for such a move should the opportunity offer, while on the other hand they are endeavoring to get their line of stocks at low enough prices to be safe should the situation at harvest be unfavorable to a boom. In other words they are getting back their stocks sold to the public on the late boom, at safe prices and will be the holders of the floating supply as they were a year ago, and at no great enhancement of values, while the money made on the rise has gone into their pockets, and out of the hands of the public. By so much then will their power to manipulate the market in the future be increased, as has been shown lately in their power to break it in spite of the public who held the stocks and believed in them.

The bond market has followed the share list, and especially the Erie Consolidated Seconds have been very active at lower prices with the stock, which went off with the Vanderbilts, and other trunk lines and Grangers. while a special effort was made to break the bonds, which are held largely by Keene, on the rumor that the June interest would not be paid. On its payment promptly as announced by President Jewett, the market recovered for both stocks and bonds of the road.

The money market has been easy throughout, and an important feature in the stock market. The usual weekly sale of $3,000,000 bonds to the Treasury added to the ease and the prices paid were not materially changed. The State issues have been higher and in demand for investment by people who had become frightened at stocks bought at much higher prices and sold out putting the proceeds in Governments.

Good State bonds have been in fair request for the same reasons but speculatives have not materially changed.

Sterling Exchange has been quiet as a rule at about steady prices, and the increased shipmnets of wheat for account of the Combination for the past week, and larger account for which vessels have been taken for all June will doubtless prevent the export of gold spoken of as likely to occur before long, in our last.

Exports have been $8,042,822 the past week against $6,691,638 last year, and $157,619,094 since January, 1st, against $133,387,600 last year.

The last bank statement shows a further increase in the surplus reserve of over $2,000,000, making it $16,128,480 against $13,919,975 last week, and $5,078,675 a year ago. From this date to January 1880, a year ago, the surplus was not higher than $18,614,825 at any time.

Northern Pacific went up on the House Committee's report in favor of extending its land grant. Pacific Mail was better on the election of a Gould directory, and consolidation virtually of the Pacific Railroad and Panama interests.

The receivers of Reading announced early in the week that the interest for June on the Consolidated Mortgage bonds will be paid, an order from the Court authorizing them to borrow $1,000,000 for that and other purposes having been obtained.

New York, Ontario and Western Railroad officials say that the increase of the capital stock of the company is to provide for the $30 per share assessment on the old capital stock and convertible bonds. This assessment, if paid on all shares and bonds, will amount to $3,250 000, making with the $7,050 000 cash now on hand, a total of $10,300,000.

Monday being a holiday, and the excitement of the Chicago Convention since, have checked business in all lines. On Tuesday the market for stocks was decidedly lower, but Wednesday they were better again as will be seen from our table of daily quotations. The decrease of the public debt for May was $15,928,033 87. Cash in Treasury June 1st, $206,613,516 97.

Mining stocks have been a little more active without material change, though the opening of the new mining exchange had been heralded by its patrons as the beginning of a boom in these stocks. These "boom" prophets are getting ridiculous here as in San Francisco, where they have been predicting one for a year, while stocks have steadily gone down. It will take more than a mining exchange and a brokers' market to boom stocks, and when honest management is introduced into mining for a novelty the public may possibly have confidence again in mining shares and buy, but we apprehend not much before, except some few stocks which are justly regarded as investment because so managed.

Among this class it would be difficult to find a San Francisco managed mine, and it is to be hoped the new "Hoodlum" mining laws of that State will bring some of these mining sharks to account who have been decrying the late Legislature because they could not own and control its members as they have former ones, until California has become a semi-civilized State under their misrule and robberies of the people, until the masses were compelled to rise to save their homes from these legalized brigands who controlled the Press and made public opinion on the Pacific Coast to perpetuate the power of a gang of men, beside whom Kearney and Kalloch even are paragons of virtue and honor.

If one doubts the justice of these remarks let him read the new mining laws of California and compare them with the old ones, for by men's acts we judge them, not by their words.

Wheat, corn and oats were "cornered" here at the close of May and were forced up to shut off exports. Since then prices fell back to the old level and shippers are taking hold freely, while the clique or their agents have chartered over 50 vessels this week at this and other ports to take wheat during this month. There will probably be the largest shipments this month, therefore since last August.

Baltimore and Potomac Railroad.

At the annual meeting of the stockholders of the Baltimore and Potomac Railroad Company, held in Baltimore on the 2d inst., the following directors were elected to serve for the ensuing year : A. J. Cassatt, George B. Roberts, George Small, B. F. Newcomer, William T. Walters, Dr. Eli J. Henkle, Samuel Cox, jr. Oden Bowie was re-elected president, A. J. Cassatt vice president, John S. Leib treasurer, and John Crowe secretary and auditor. The report of President Bowie showed the gross earnings for the past year to have been $699,772 05, an increase of $60,695 51 over the previous year ; the total expenses were $526,201 69, a decrease of $19,984 59 ; and the net earnings $173,570 36, an increase of $80 680 10. The increase in the net receipts for the first quarter of the present year, ending April 30, was $37,677 54.

☞ The directors of the New York Central and Hudson River Railroad Co., elected on the 2d inst., are : William H. Vanderbilt, Cornelius Vanderbilt, William K. Vanderbilt, Frederick W. Vanderbilt, Augustus Schell, Samuel F. Barger, Chauncey M. Depew, James H. Rutter, J. Pierpont Morgan, Cyrus W. Field and Solon Humphreys, of New York ; Chester W. Chapin, of Springfield, Mass., and John Allen, jr., of Buffalo, New York. The stock voted on amounted to $71,000,000.

☞ Howard Schuyler, the Chief Engineer of the Mexican Central Railroad, and George Skilton, the Assistant Engineer of the same line, sailed on the 2d inst. by the Alexandria, for Mexico. The steamer also takes out tools, flat cars, and rails for the construction of this railroad, which is to extend from the Mexican capital to the American frontier.

☞ Col. E. W. Cole has been elected president of the East Tennessee, Virginia and Georgia Railroad Co., vice R. T. Wilson, of New York, resigned. Col. Cole will also have control of the Memphis and Charleston Railroad, with central headquarters at Chattanooga.

Broadway Underground Connecting Railway.

Robert Sewell, Douglass Cambell, James F. Ruggles, Walter I. Morris, James F. Pierce, Francis A. Stout, D. Colden Murray, Charles P. Shaw, Harvey Sheldon, Herbert N. Curtis, Hiram Calkins, Orijen Vandenburg and DeWitt C. Brown are named as directors of the Broadway Underground Connecting Railway of New York. The road will commence at the intersection of the north line of Park Place and Broadway, and running thence by the most direct route under Broadway to the intersection of the north line of Fourteenth street and Broadway. The capital is placed at $1,000,000.

Northern Central Railway.

We gave in the JOURNAL of May 7th, the Report of the President of the Northern Central Railway Company for the year ending December 31, 1879, showing the gross earnings of the roads to have been $4,107,948 82, the operating expenses $2,861,941 97, and the net earnings $1,246,006 85. The income account of the company for the year is as follows:

Operating expenses of—		
Main Line		$1,916,624 79
Shamokin Division		129,757 22
Elmira Division		434,934 04
Chemung Division		135,257 01
Canandaigua Division		236,117 61
Green Spring Branch		9,251 30
		$2,861,941 97
Interest on Funded debt, except Second General Mortgage bonds	$685,140 00	
Interest on $1,600,000 Second General Mortgage 6 per cent Convertible bonds	60,000,000	
Interest on $3,000,000 Second General Mortgage 5 per cent bonds	150,000 00	
Interest and discount	22,822 96	
State tax on capital stock	3,800 15	
Interest on mortgages and ground rents	26,416 45	
Rents	4 502 18	
		952,681 74
Rental of Shamokin Valley and Pottsville R. R. Company	$52,167 00	
Interest and gold premium on bonds of Shamokin Valley and Pottsville R. R. Co.	140,000 00	
Interest on equipment	11,521 59	
Rents	982 81	
		204,671 40
Rental Elmira and Williamsport R R. Co.	$165,000 00	
Interest on equipment	29,166 92	
Rents	94 93	
		194,261 85
Dividend Chemung R. R. Company	$22,800 00	
Interest on equipment	12 817 92	
Rents	1,434 20	
		37,052 12
Interest on equipment Elmira, Jefferson and Canandaigua R. R. Company	$24,269 77	
Rents	3,207 24	
		27,477 01
		$4,278,086,09
Balance credited profit and loss account		163,994 65
		$4,442,080 74

Gross earnings of—		
Main Line		$2,809,558 37
Shamokin Division		416,561 95
Elmira Division		495,303 61
Chemung Division		132 573 68
Canandaigua Division		246,064 43
Green Spring Branch		7,886 78
		$4,107,948 82
Dividend on stock of Elmira, Jefferson and Canandaigua R. R. Co.	$5,882 50	
Dividend on stock of Chemung R. R. Co.	21,684 00	
Dividend on stock of Shamokin Valley and Pottsville R. R. Co.	36,102 00	
Dividends and interest on other investment	6,895 00	
Interest on valuation of equipment furnished leased roads	77,776 20	
Contribution from Pennsylvania Railroad Co. for operating Elmira, Chemung and Canandaigua Divisions	159,736 96	
Royalty on coal mined —Shamokin Division	26,055 26	
		334,131 92
		$4,442,080 74

The company owns 152 locomotives, of which 61 are on the Baltimore Division, 38 on the Susquehanna and Shamokin Divisions, and 53 on the Elmira and Canandaigua Divisions; 127 in service in working order, 7 in shop under general repairs, 4 in shop under slight repairs, and 14 in shop for renewal.

The company have also 69 passenger, 22 baggage, 16 express, 4 postal, 1018 box, 527 gondola, 51 stock, 101 box and stock, 50 stone, 2 510 eight-wheel and 1,592 four-wheel coal, 161 lime, 11 tool, 79 freight cabin, and 4 maintenance of way cabin cars.

The mileage of locomotives during the year was as follows:

	Passenger.	Distributing.	Freight.	Total.
Baltimore div.	402,058	28,751	1,352,817	1,783,626
Susq. div	120,000	17,998	355,652	493,650
Shamokin div.	24,013	8,000	80 379	112.892
Gr. Spring. Br.	9,708	24	4,854	14,586
Elmira div.	147,961	....	526,120	674,071
Chemung div.	59,882	....	151,639	211,521
Canand. div.	89,818	....	236,702	326,520
Total	853,430	54,773	2,708,163	3,616,366

The financial statement of the company, December 31, 1879 is as follows:

Railway and appurtenances	$12,184,504 99	
Real estate	1,021,545 43	
Equipment	4,196,107 35	
		$17,402,157 77
Stock of the Chemung R. R. Co. and the Elmira, Jefferson and Canandaigua R. R. Co. (cost)		3,048,680 82
Cash on hand and in banks	$277,572 44	
Due from agents	100,948 88

President.—THOMAS A. SCOTT.

Vice-President.—A. J. CASSATT.

Directors.—A. J. Cassatt, Wistar Morris, Samuel C. Huey, Geo. B. Roberts, Edmund Smith, Geo. Small, B. F. Newcomer, S. M. Shoemaker, J. N. Hutchinson, Dell Noblit, M. B. Sellers, Wm. Calder.

Secretary.—STEPHEN W. WHITE.

Assistant Secretary.—JOHN W. DAVIS.

Treasurer.—JOHN S. LIEB.

Auditor.—JOHN CROWE.

General Counsel.—WAYNE MACVEAH.

General Manager.—FRANK THOMSON.

☞ On the 27th ult., Samuel Dickson, Esq., attorney for the Receivers of the Philadelphia and Reading Railroad, appeared before Judge McKennan of the U. S. Court, at Pittsburg and applied for an order authorizing the Receivers to borrow $1,000,000 for the payment of wages of employees and interest falling due on June 1 He submitted a preliminary statement of the condition of the company, showing its assets and liabilities, but stated that a full report would be made in a short time by the Receivers. The Court granted the order applied for.

☞ The Philadelphia Ledger says that the $1,000,000 the Receivers of the Philadelphia and Reading Railroad Company were authorized by the Court to borrow, was readily obtained, and in time to meet the necessities of the company.

Cumberland Valley Railroad.

The revenue of this road for the years ending December 31, 1878 and 1879, were as follows:

	1878.	1879.
From freight	$294,301 05	$300,983 78
" passengers	153,686 91	152,422 09
" mail	6,775 19	6,678 25
" express	6,341 21	8,647 18
" miscellaneous	32,314 60	34,916 47
	$193,418 96	$503,597 72
Expenses, viz:		
Conducting transp.	$69,850 68	$76,750 77
Motive power	53,086 48	47,664 11
Maintenance of cars	19,043 53	43,187 37
Maintenance of way	124,231 68	58,221 79
General expenses	12,692 22	12,873 66
	$278,904 59	$238,697 70
Net earnings	$214,514 37	$264,900 02

Appropriated as follows:

Ten per cent in quarterly dividends	$177,785 00	
Interest on bonded debt.	26,548 00	
State tax	21,770 78	
		226,103 78
Surplus		$38,796 24

The cost of operating the main line for the year was 47.4 per cent of receipts, against 56.525 for the preceding year.

Compared with the year 1878, the gross earnings of 1879, show an increase of $10,178 76, with a decrease in operating expenses of $40,206 89, making the increase in net earnings $50,385 65.

The earnings per mile for the year (including receipts from miscellaneous sources) were $6,141 44, the expenses $2,910 95, and the net earnings $3,230 49, against $2,616 02 in 1878, an increase of $614 47.

The number of passengers carried on the main line and branches in 1879 was 323,045, against 325,551 in 1878, a decrease of 2,506.

The number of tons of freight moved on main line and branches in 1879 was 374,172, against 318,696 in 1878, an increase of 55,476. Tons moved one mile in 1879, 12,485,385; do. in 1878, 11,030,907—increase, 1,454,478. The report says:

We have laid during the year 136 tons of steel rail, and renewed 47,759 cross ties. We have also graded and laid 1,500 feet of new siding.

Our equipment has been increased, by the purchase from the Harrisburg Car Co. of twenty gondola cars, and we are building, at our own shops, three passenger coaches and three cabin cars, which, though not yet completed, are charged at their estimated cost to the expense account.

We have now 48.4 miles of main track laid with steel rails and have the satisfaction of reporting roadway and rolling stock in good condition.

Earnings and expenses of the leased lines:

MARTINSBURG AND POTOMAC RAILROAD.

This road is 21 miles in length, passes through a rich agricultural section of Franklin county, drains a large area of territory, and has considerable local travel to the county seat. Notwithstanding these advantages, and the fact that it is operated with the most rigid economy, it barely pays working expenses.

It was originally projected and built as an appendage to a large iron estate, which was expected to contribute largely and regularly to its business, but for years nothing whatever has been derived from that source, and the road has been wholly dependent for its traffic upon the general trade of the country through which it passes. Our experience during these years affords sufficient proof that, except in periods of activity in the iron business, the road cannot be more than self-sustaining.

The Mont Alto Railroad Co. completed its extension to Waynesboro' in April last, and, although laboring under many disadvantages for want of suitable warehouse facilities, shows a considerable increase in business. Its net earnings for 1878 were only $389 12, and for 1879 have been $4,069 20. The improvement in the business of this road cannot, however, be credited so much to the extension, as to the increase in shipments of iron and iron ores from the Mont Alto estate, and mines adjacent thereto.

It may be said of this road, as well as of all the other lateral and tributary roads in the valley, that all are largely dependent for business upon the ore mines and furnaces, and without these auxiliaries none of them would more than pay the expenses of their operation.

The magnetic ores of Dillsburg, and the large deposits of superior hematite ores lying at the termini, and along the lines of the other roads, are attracting considerable attention.

The Shenandoah Valley railroad is now approaching completion. Hagerstown has been adopted as its northern terminus; and a connection with our road, a short distance south of the town, has been determined upon. Our depot, and other facilities at this point, will afford them such terminal conveniences as they will need, and a satisfactory agreement upon this subject has been entered into. The route of the road will be via Shepherdstown, through the counties of Jefferson, Clarke, Warren, Page, Rockingham and Augusta, to a point on the line of the Chesapeake and Ohio railroad, at or near Staunton, Virginia. It is now completed, and being operated from Shepherdstown to Front Royal, a distance of 45 miles; and the officers report that the entire road will be finished by the close of the present year.

Much of the Shenandoah Valley resembles our own in its agricultural features, and also in the fact that it abounds in iron ore deposits of the best quality. For want of convenient transportation, this latter element of wealth has hitherto remained comparatively unexplored and untouched. Now that this want is about to be supplied, it is not improbable that in the near future large quantities of the rich ores of the Shenandoah will be transported over our road to the furnaces of Pennsylvania. With the development of the resources of this country, and establishment of its trade and industries, we have every reason to expect a profitable interchange of general business between the two roads.

The new road traverses a section of country, most inviting to tourists. Weir's cave, and the newly discovered cave at Luray, are both points of great interest, and the scenery of the valley is unusually attractive. These considerations, together with the fact that the road affords a direct route via the Chesapeake and Ohio railroad to the Virginia Springs, are sufficient to insure a large and profitable excursion business during the summer months.

The receipts and expenditures for the year ending December 31, 1879, were:

RECEIPTS.

Cash on hand, December 31, 1878	$67,643 69

President.—THOMAS B. KENNEDY.

Directors.—Thomas B. Kennedy, Frederick Watts, Thomas A. Biddle, Thomas A. Scott, Wistar Morris, Josiah Bacon, Edmund Smith, George B. Roberts, Strickland Kneass, John Stewart, Daniel O. Gehr.

Secretary and Treasurer.—E. M. BIDDLE.

Superintendent.—J. F. BOYD.

Chief Engineer.—O. N. LULL.

Boston, Hoosac Tunnel and Western R. R.

It was stated a short time since that the directors of the Boston, Hoosac Tunnel and Western Railroad of Vermont and New York States respectively had come to an agreement by which the two corporations were to be consolidated into one. At a meeting of the stockholders of the Vermont corporation, held at Rutland, Vermont, on the 25th ult, and of the New York corporation, at New York, on the 27th ult., the action of the directors of the two roads was confirmed and the act of consolidation carried out, so that henceforth the line from the Massachusetts State line to Mechanicsville will form a single line under the corporate name of the Boston, Hoosac Tunnel and Western Railroad. The extension of the road to Schenectady from Mechanicsville is soon to follow, the surveys having been nearly completed, and the Delaware and Hudson Canal Company, who are to build the extension jointly with the Boston, Hoosac Tunnel and Western Railroad, having secured the right of way for a large portion of the distance. Recent arrangements have been made which will open to Boston a connection with the lakes via the Hoosac Tunnel and the Erie Canal. From Buffalo, grain, etc., will be loaded into canal boats for Schenectady, where elevators are already provided for the transfer to the cars, which will then be taken eastward via the new road and the Tunnel line. It is said that large engagements for grain to take this new route have already been made.

Anthracite Coal in Pennsylvania.

Messrs. Sheaffer, engineers of mines at Pottsville, have published a diagram of the progress of the anthracite coal trade of Pennsylvania, accompanied by statistics of the coal trade and railways of the world, all compactly presented on a single sheet of paper. The statistical matter is compiled from reliable sources of information. The anthracite coal trade has grown with a reasonable degree of steadiness from 365 tons in 1820, when the Lehigh Canal was first opened, to an output of over 26,000,000 tons in 1879. The Wyoming district now leads all the others, although the estimated deposit in the Schuylkill coal field is somewhat greater. Of the quantity of anthracite coal in Pennsylvania, only one-third of which can be utilized, the probable yield is set down as 8,286,858 666 tons. Seventy per cent of the anthracite coal areas in the Schuylkill coal field, and 32 per cent in the middle coal field belong to the Philadelphia and Reading Coal and Iron Company. Pennsylvania in 1878 produced all the anthracite coal mined in the United States, and fully 40 per cent of all the bituminous coal. The coal output of the United States, notwithstanding the immensity of her coal fields, is only a little more than that of Germany, and much less than one-half of Great Britain.

☞ A mortgage from the Metropolitan Elevated Railway Co. to George J. Forrest and Arthur Leary, trustees, to secure second mortgage bonds aggregating $4,000,000, payable in twenty years, from Nov. 1, 1879, the date of the instrument, with 6 per cent interest, was recorded at the Register's office on the 29th ult. The mortgage cites that this money is necessary to enable the company to complete its road, and also to withdraw and cancel a series of debentures aggregating $1,000,000 issued at the request of and secured by the Manhattan Railroad Company.

Adirondack Surveys.

HEIGHTS OF MOUNTAINS, LAKES AND TOWNS ABOVE THE LEVEL OF THE SEA.

The chapter on altitudes in the seventh annual report of Mr. Verplank Colvin, Superintendent of the Adirondack survey, contains a table of all the important heights so far measured in Northern New York, and gives a very thorough idea of the elevated and mountainous character of this district. The greater number of these stations have been measured with level and rod, many thousands of stations being occupied in this work. From the table we extract the following:

HEIGHTS OF MOUNTAINS ABOVE THE SEA.

	Feet.
Bald-face Mountain, Lewey Lake	3,903
Basin Mountain, Essex County	4,901
Blue Mountain, Hamilton County	3,762
Boot-bay Mountain, Franklin County	2,531
Catamount Mountain, Clinton County	3,128
De Bar Mountain, Franklin County	3,011
Dix Mountain, Essex County	4,916
Gore Mountain, Warren County	3,539
Gothic Mountain, Essex County	4,744
Hurricane Mountain, Essex County	3,763
Lyon Mountain, Clinton County	3,609
Marcy Mountain, Essex County	5,344
St. Louis Mountain, Herkimer County	2,295
St. Regis Mountain, Franklin County	2,888
Manning Mountain, Clinton County	3,793
Norway Mountain, Clinton County	2,666
Poke-a-Moonshine Mountain	2,171
Rand Hill, Clinton County	1,307
Snowy Mountain, Hamilton County	3,903
Wallface Mountain, Essex County	3,893
Wallface Precipice	1,355

HEIGHTS OF LAKES.

	Feet.
Albany Lake, Hamilton County	1,704
Au Sable Lake, Essex County	1,993
Avalanche Lake, Essex County	2,856
Beach's or Brandreth's Lake	1,890
Big Moose Lake	1,787
Big Tupper's Lake	1,552
Blue Mountain Lake	1,800
Champlain Lake	99
Cranberry Lake, Great	1,540
Forked Lake	1,753
Fourth Lake, Fulton Chain	1,687
George, Lake George	343
Placid, Lake Placid	1,863
Tear-of-the-Clouds	4,321
Mirror Lake	1,859
Salmon Lake	1,756
Schroon Lake	830

HEIGHTS OF TOWNS, ETC.

	Feet.
Ballston Spa, Saratoga County	277
Booneville, Oneida County	1,124
Cadyville, Clinton County	734
Carthage, Jefferson County	728
Elba, North-east	1,655
Freeman's Home, Essex County	2,086
Glen's Falls, Warren County	282
Hadley, Saratoga County	667
John Brown's Grave	1,857
Keene Flatts, Essex County	1,000
Keene Village	854
Lowville, Lewis County	779
Luzerne Bridge	639
Malone City	609
Mineville	1,374

Many hundreds of bench marks or height monuments have been located throughout the wilderness, and a table of the precise height of these stations is also given to the thousandth part of a foot.

Mining.

The San Francisco Bulletin gives some interesting statistics covering operations on the Comstock during 1878-79-80. The total amount of dividends paid for the three years was $32,951,600. Deducting $21,538,740, the total amount of assessments levied for the same period, gives a credit balance to stockholders of $11,412,860. The only mines which paid dividends were the California, Consolidated Virginia and the Ophir:

The California and Consolidated Virginia mines each paid twelve dividends during the year ending May 1, 1878. In the following year the California paid six and the Consolidated Virginia three dividends. Each paid four dividends during the year ending May 1, 1880. Neither mine has paid a dividend since last December. When the next will be paid is a matter of great uncertainty. Still the result shows that mining on the Comstock for the past three years—dark as that period has been—is not without profit, viewing the work in the aggregate. There has probably been $50,000,000 added to the bullion supply of the world by the Comstock mines in this interval, of which $38 000,000 has gone directly into the pockets of stockholders, and two-thirds of the latter amount has been retained.

A Swiss Car on Wheels.

The Philadelphia and Reading Railroad Company recently placed on their road a novel and elegant passenger coach built in their own shops. It has been called "a Swiss cottage on wheels." The dimensions are about the same as those of an ordinary first class passenger car. There are no curved lines anywhere except some turned rosettes. In the building of the car and in the ornamentation right angles were observed. The elevator rises square above the roof, but the rafters—all of which show—meet in the center of the elevator roof. The rafters are of iron and wood, the former being exposed and painted so as to preserve the natural color of the iron, and the natural grain of the wood will also be shown. The interior portion of the car, excepting the iron, is all of oak, paneled, beaded, champered and notched, and there is not a single piece of wood, if it is only a few inches long, that has not notches, grooves, right angles or rosettes. The head lining will be frescoed. On the exterior of the car there are brackets above and below the windows to break the monotony of the weather boarding, which also extends above and below the square windows, and there are rosettes on the panels between the windows. It is painted green.

Nashua and Lowell Railroad.

At the annual meeting of the stockholders of the Nashua and Lowell Railroad Co., held at Nashua, N. H., on the 26th ult, the President, Francis A. Brooks, in an introductory address, referred to the separation of the road from the Boston and Lowell, and stated that it would now be able to pay satisfactory dividends. It was voted that the reading of the annual report be dispensed with, and resolutions were passed authorizing the stockholders to obtain subscriptions to the amount of $200 000 to aid in forming a a connecting link with Boston through other lines of road unless lesser rates were charged for transportation over the Boston and Lowell road. The following gentlemen were elected directors: Francis O. Brooks of Boston, Jeremiah W. White, Cornelius V. Barber, Wm. W. Bailey of Nashua, Albert M. Shaw of Lebanon, and Francis O. Par-

ker, Gedney K. Richardson of Boston. Treasurer, C. Dearborn of Nashua. Clerk, Walter A. Lovering of Nashua. Subsequently Francis A. Brooks of Boston was elected President.

Interoceanic Canal.

A contract has been made between Mr. A. G. Menocal, on the part of an American company, and the Government of the Republic of Nicaragua, for the construction of a canal across Nicaraguan territory. It now awaits only the approval of the Legislative Congress, which has been convened for that purpose, to become a law of the land. The terms of the contract have not been made public, but it is said that they are extremely liberal on the part of the Government, and more explicit and in detail than those of the Wyse-Salgar contract. The points developed in the discussion of the Panama contract have been of service in the arrangement of the terms of the Nicaragua business. The *Parvenir*, of Nicaragua, asserts that the moving spirits of the new American company are President Hayes, General Grant, Admiral Ammen, and Mr. A. G. Menocal. Great enthusiasm exists in the various cities of Nicaragua in favor of the new contract, and we hope it may share a more happy fate than the Blanchet affair. A canal, no matter where built, will be a benefit to all the world, and we desire to see it accomplished as soon as possible. The Nicaragua people are, however, a little behind in their calculations. While they are occupied in the discussion of preliminaries, etc., M. De Lesseps has already got through that part of the business, and it only remains for him now to form his company and go ahead. He says he can raise the money and we believe him. We are not so sure about the Nicaragua company. In both cases the corporations have to be created and endowed with financial life, and in the race, Lesseps has, by long odds, the advantage.—[Panama Star and Herald.

Annapolis and Elkridge Railroad.

The Board of Public Works of Maryland have agreed to sell to the Drum Point Railroad Company the State's interest in the Annapolis and Elkridge Railroad—$300,000—for $50,000; provided the Drum Point Company will secure the remainder of the bonds—about $358,000—from the present owners. The State is not to relinquish its interest until the road shall be finished to Drum Point, fully equipped and in operation. The President of the Drum Company, Augustus Albert, does not anticipate any difficulty in negotiating for the bonds held by private individuals, although it is not probable that they will sell at the same rate as the State, namely, about 17 per cent. A majority of the bondholders reside in Europe, but have an agent in Baltimore. The Drum Point Company say that the road will be built, whether they succeed in purchasing the Annapolis and Elkridge road or not. It is the purpose of the company to use seven miles of the Elkridge road, and the course will be a direct line from Baltimore to Annapolis and Drum Point. This will lessen the distance between Annapolis and Baltimore, so that the run can be made in forty-five minutes. The convenience to citizens of both places, if such is the case, will be very great.

☞ The Burlington (Vt.) Press says a contract has just been concluded between the Burlington and Lamoille and Central Vermont Railroads, subject to the approval of the stockholders, by virtue of which the former road obtains the use of the track, stations and sidings of the Central Vermont, on equal terms with the Central Vermont, between that city and Essex Junction. Each road continues in the same independent position as heretofore, and the division of business between them remains the same as by the contract of January, 1879. The new contract places another good station on the Burlington and Lamoille, as Winooski is construed to be a station on both roads.

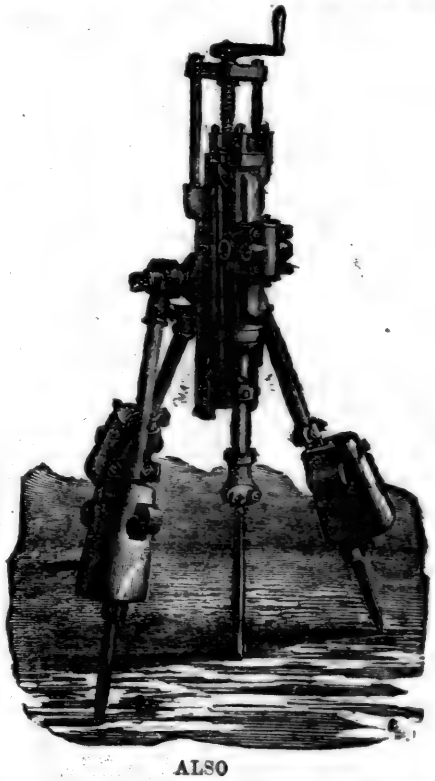
Massachusetts Central Railroad.

The Directors of the Massachusetts Central Railroad Co. have decided upon a permanent location of the road from Coldbrook to West Deerfield and from Amherst to Northampton. The new route through Ware and Bondville to Belchertown, and thence to Amherst, it is claimed, is not only shorter and admits of lower grades and better curves, but will afford more business and can be built for so much less than the old route through Greenwich could be finished, that the company can afford to throw away altogether the $100,000 that was expended there under the old management. At several points west of Coldbrook the location still has to await the sanction of the Selectmen of the respective towns. Between the junction with the Lowell Railroad in Cambridge and Stony Brook, work is progressing well. From Stony Brook through Hudson, Berlin, and other towns to the crossing of the Worcester and Nashua Railroad in West Boylston the bed is nearly ready for the rails. Between West Boylston and Coldbrook, with the exception of a rock-cut of 10,000 or 12 000 cubic yards in the town of Rutland, upon which a large force with steam drills, etc., are at work, the road is also nearly ready for the superstructure.

The Railroad Up Mount Vesuvius.

The United States consul at Naples, in a dispatch to the Department of State, reports that the new railroad to the summit of Mount Vesuvius is about complete, and will be opened to the public in a few days. The ascent hitherto toilsome will thus become a pleasant ride of but ten minutes, at a moderate expense. The cost of the route is estimated at $100,000, and an exaggerated idea prevails that it will pay for itself in one year. The number of visitors will undoubtedly be largely increased. The invention is attributed to an engineer of Lombardy, and also to an American. It is quite different from that in use at Mount Washington, in this country, or the more celebrated one up the Rhizi, in Switzerland. The car is supported by two wheels, one forward of the other, like a bicycle.

☞ The Carolina Central Railway, extending from Wilmington to Shelby, N. C., with all its property, rights, and franchises, was sold at Wilmington on the 31st ult., by auction under a decree of foreclosure for $1,200,000. T. O. French, A. V. Graves, D. R. Murchison, James S. Whedbee, and A. V. Stout, a committee on behalf of the first mortgage bondholders, were the purchasers.



☞ The directors of the Toledo, Delphos and Burlington Railroad Company, recently elected, are: Gen. John M. Corse of New York, Calvin S. Brice and Jas. Irvine of Ohio, W. J. Craig of Indiana, Geo. Wm. Ballou, J. Wentworth Brown, W. A. Haskell, Geo. W. T. Riley and Chas. P. Batt of Boston. The officers are: Gen. John M. Corse, President; Jas. Irvine, Vice President and General Manager; Louis Curth, Jr., Secretary and Treasurer; Wm. H. Andrews, Assistant Treasurer. There being only 200 miles of the road completed and in operation, arrangements have been perfected to complete 100 miles more and to furnish additional equipment demanded by the increasing traffic.

☞ The office of President of the Pennsylvania Railroad Company was assumed by George B. Roberts on the 1st inst. A. J. Cassatt, Third Vice President, was promoted to the First Vice Presidency, and the office of Third Vice President abolished.

☞ The directors of the Northern (N. H.) Railroad Company, elected on the 27th ult., are: Henry C. Sherburn, George W. Nesmith, Uriel Crocker, Francis B. Hayes, Josiah H. Benton, Jr., George E. Todd and Alvah W. Sulloway.

☞ The Carson and Colorado Railroad Company have begun the work of construction of the first 150 miles between Carson and Candelaria, Columbus mining district, Nevada.

The investigation of frauds on Railway Companies a specialty.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending May 22, as reported by the several carrying companies, amounted to 397,953 tons, against 524,292 tons in the corresponding week last year, a decrease of 126,339 tons. The total amount of anthracite mined for the year is 8,031,569 tons, against 8,854,304 tons for the same period last year, a decrease of 827,735 tons. The quantity of bituminous coal sent to market for the week amounted to 93,258 tons, against 67,170 tons in corresponding week last year, an increase of 26,088 tons. The total amount of bituminous mined for the year is 1,404,430 tons against 1,221,239 tons for the correponding period last year, an increase of 183,191 tons The total tonnage all kinds of coal for the week is 491,211 tons, against 591,462 tons in corresponding week last year, a decrease of 100,251 tons, and the total tonnage for the coal year is 9,435,999 tons against 10,080,513 tons to same date last year, a decrease of 644,514 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the third week of May was 134,506 tons, of which 109,379 tons were coal and 25,227 tons coke. The total tonnage for the year thus far has been 2,685,658 tons of which 1,990,765 tons were coal and 684,893 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ended May 22 were 55,942 tons, and for the year to that date 751,509 tons—228,767 tons over the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 29,428 tons, and for the year 539,750 tons, an increase of 205,426 tons over 1879. The shipments to the Chesapeake and Ohio Canal for the week aggregate 21,348 tons, and for the year 117,496 tons, a decrease of 8,131 tons as compared with last year. Shipments to the Pennsylvania Railroad for the week were 5,167 tons, and for the year 94,353 tons, an increase of 31,473 tons as compared with 1879.—Phil. Ledger, May 31.

Railroads in Washington Territory.

A correspondent, writing from Walla Walla, Washington Territory, under date May 20th, says that the party of capitalists headed by Henry Villard are well pleased with the prospects of this country, and will, without unnecessary delay, have branch railroads to every desirable location, and then adds:

Good judges who are with the party, but unconnected with the company, claim that in four years $25,000 worth of grain will be raised annually in Eastern Oregon and Eastern Washington Territory. The people of this country, generally speaking, have great faith that the company will act honorably and fairly with them in the matter of freights and transportation. The railroad, between Umatilla and Wallula will be in running order in sixty days, and from Wallula to Celilo by fall. Mr. Villard stated that the railroad to Grange City, taking in Waitsburg and Dayton, would be ready to remove next year's harvest. Since the advent of these railroad men, and it has become known that they mean business, real estate has advanced in price. Villard announces himself as being opposed to subsidies, on the ground that it is not only unprofitable, but unjust to the people.

☞ Wertheim & Gompertz, representing Holland bondholders, have filed a petition in the Summit County Common Pleas Court at Akron, Ohio, for the sale of the Cleveland, Mount Vernon and Delaware Railroad. The amount involved is over $2,000,000.

☞ The Carson and Colorado Railroad Company have begun the construction of the first 150 les, between Carson and Candelaria, the Cobus mining district of Nevada.

FACTORY—SEYMOUR, CONN. **Office, 120 Broadway, New York.**

NEW YORK, LAKE ERIE & WESTERN RAILWAY

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almos 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

Trouble in the Iron and Metal Trade.

LARGE FAILURES, AND MORE IMMINENT.

The failure of Messrs. Lisburger, iron importers of Pearl Street, this city, on the day our last issue went to press, for $2,500,000 to $3,000,000, was a surprise to the outside public who had not watched closely the iron markets for the past five months, or since the "boom" ended, and the reaction set in. In the trade it was an event that had been generally anticipated for a month or more, of the iron importers generally, although not of Messrs. Lisburger in particular who were a heavy house, and although heavy losers by the decline, they were regarded as wealthy beside having made some three-quarters of a million of dollars on the advance last fall. It was at first supposed their failure was wholly due to the fall in iron and old rails of which they were large holders, having had as many as thirty cargoes of the latter discharging here at a time the past few months. The refusal of some of their customers to take their cargoes on contracts is said to have been the immediate cause of their suspension. But shrinkage is no doubt really the main cause and there is no doubt that they were speculating largely in their line and were sunk by too heavy a load of speculative stock. It now turns out that the firm was involved in metals also as we hear they were carrying 4,000,000 lbs of copper that cost them 22c. while the market is now about 18c. or within about 2c. of the price before the advance last year. This is so much additional weight upon their iron speculations.

On the first of this week Mr. Chas. Schofield also suspended on heavy stocks of iron carried on speculation with heavy liabilities. His liabilities are estimated at $2,000,000, of which he is said to have made $500,000 on the boom in iron last fall. His indebtedness—for iron about a million—is held by bankers here, who have made advances. They are secured, and none of them will be crippled by his failure. The assets—new iron and steel rails and real estate—are nominally estimated at $3,000,000. Mr. Schofield's creditors are disposed to be lenient, and he expects to pay his indebtedness in full, if given an extension of time. He has 20,000 tons new iron and steel rails on hand, part in warehouses and the rest on the way from England.

Rumors were busy with several other iron houses among which was a large Pine Street house with Philadelphia connections, who are said to have been somewhat affected by Lisburger's failure. At this writing their suspension has not been announced, and it is said that some heavy banking houses which had issued this Pine Street house Letters of Credit to buy iron and are involved heavily with it, have been trying to tide this house over, until the iron market is better. Messrs. Morton, Bliss & Co. are said to be at the head of this movement. The iron brokers who have done a large part of the business for this firm which is said to be in trouble and involved for about $5,000,000 claim that it made $1,000,000 on the advance last fall and that they could close out to-day, at the market and still be about even. This, however, can scarcely be true, else there would have been no such extraordinary efforts necessary to keep a house afloat whose capital of a year ago is not impaired.

In connection with these failures and embarrassments and the loss of Lisburger & Co on metals, there have been rumors of a large Cliff Street metal importing house being embarrassed for the same reasons, namely, shrinkage on large stocks of metals carried on speculation. The shrinkage on tin is greater even than on copper, and this house are large holders of both. Tin is now 15½c. against about 20c. but recently, and near 27c. last fall with 12c. the lowest point before the advance.

While there may be no further failures since the largest houses are the most deeply involved and to such an extent that banks and bankers may have to carry them, there can be no settled condition and safe basis in the iron and metal trade so long as these virtually pledged stocks hang over the market to be dropped on it whenever it shall recover to a point at which the holders of these pledges can get their advances out of them. We may therefore look for more trouble, before the iron and metal markets shall recover a healthy and sound basis. We recently made comparisons of prices of iron which showed the condition of the market with a year ago.

☞ Dispatches from Tucson report the completion of the Southern Pacific Railroad to Benson, 45 miles east of there. A local company is surveying a line thence up the San Pedro Valley to the Sonora boundary, touching the new mining towns of Charlestown, Tombstone, Mule Pass, Huachuca, Rafael, Washington and Patagonia. The construction of the track eastward toward

El Paso is going ahead with the same force as during the past season.

Brooklyn Bridge.

At a meeting of the Trustees of the Brooklyn Bridge Co., on the 7th inst., the old officers were re-elected for the ensuing year including Henry C. Murphy, President, and William C. Kingsley, Vice-President. The President in thanking the Board for his re-election, said that the bridge would probably be ready to open by July 4, 1881. The Treasurer's statement, dated May 31, showed the cash receipts up to that time to have been $11,973,305 08; cash expenditures, $11,644,463 32; cash on hand, $328,841 76; cash liabilities, $87,264 50. The executive committee of the Trustees opened the bids for the 400 steel suspension rods, 1,872 steel connecting rods needed to complete the structure, and gave the contract to the Edgemoor Iron Company, the lowest bidders, at 11¼ and 11 68-100 cents a pound. The contract for 400 tons of wire rope for stem stays was given to John A. Roebling & Sons.

Georgia Railroad and Banking Co.

The earnings of this road for the years ending March 31, 1879 and 1880, were:

	1879.	1880.
From passengers	$199,904 11	$255 443 91
" freight	731,312 53	785,408 70
" mail	29,630 29	32,041 81
" express, etc.	36,871 97	96,629 72
	$997,718 90	$1,169,524 14
Expenses, viz:		
Conducting transp	$209,115 03	$197,181 71
Motive power	234,192 09	258,028 87
Maintenance of way	166,342 15	222,557 61
Maintenance of cars	49,676 65	88,681 24
	$659,325 92	$766,448 33
Net earnings	$338,392 98	$403,075 21

The gross earnings of the road for the year ending March 31, 1878, were: from passengers, $191,896 15; from freight, $793,151 54; from mail, $28,664 92—total, $1 013,712 61. The expenses were: for conducting transportation, $165,-264 81; motive power, $274,792 10; maintenance of way, $221,882 66; maintenance of cars, $65,-760 88—total, $727,700 45. Net earnings, $286,-012 16. The expenses were 71.5 per cent of the gross earnings in 1878; in 1879 they were 66 per cent; and in 1880, 65.5 per cent. Compared with the year 1879 the gross earnings of 1880 show an increase of $171,805 24, with an increase in expenses of $107,123 01; making the increase in net earnings $64,682 23.

The income from all sources, and the manner in which it has been applied, is shown in the following comparative statement:

	1879.	1880.
Net earnings of the road	$338,392 98	$403,075 21
Net earnings of the bank	12,633 80	21,437 56
Dividends Atlanta and West Point Railroad stock	32,000 00	32,000 00
Dividends Rome Railroad stock	8,936 25	14,893 75
Dividend, Nashville, Chattanooga and St. Louis Railroad stock	4,500 00	.....
Western Railroad of Alabama, rent of rolling stock	18,500 00	18,000 00
Western Railroad of Alabama, coupon acc't.	80,500 00	110,000 00
Miscellaneous sources	16,059 51	8,513 31
Total	$506,522 54	$607,919 83
Paid dividends	$252,000 00	$252,000 00
Interest bonds of this company	82,235 00	93,530 00
Interest bonds of Macon and Augusta R. R. Co.	51,777 60	39,220 12
Interest bonds of Western Railroad of Alabama	93,080 00	88,260 00
Taxes, legal and incidental	23,305 07	17,645 11
Balance, surplus	4,124 87	122,264 60
Total, as above	$506,522 54	$607,919 83

The interest paid on the Macon and Augusta bonds was paid as endorser, and is charged against the purchase of that road. The excess paid on coupon account by the Western Railroad of Alabama over the coupons for that year, reduces the deficit on that account, charged against that company on previous years, from $124,280 to $97,540. Referring more particularly to these roads, and to the Atlanta and West Point, Rome, and Port Royal Railroads, the President in his report says:

MACON AND AUGUSTA RAILROAD.

The last annual report explained fully our relations to this road up to its date. The proceedings then pending were terminated by decisions in the Supreme Court in our favor, under which decisions the road was sold on the 2d of March last, on foreclosure of the second mortgage, and was bought in by this company for the sum of $50,000, subject to the first mortgage bonds, which fall due in 1887.

The second mortgage bonds, $370,000, which fell due in July last, were taken up by this company and were charged to a new account opened upon our books, called Macon and Augusta Railroad Purchase Account. To this account, also, all coupons of this issue previously redeemed by us and all other expenses of the purchase have since been carried, making the present total of this account $506,162 04.

The first mortgage bonds on this road, $400,000, do not fall due until January, 1887. We have taken up as endorsers on $300,000 of this issue, coupons, tax fi. fas. and other prior liens to the amount of $241,963 15, which amounts we hold in a separate account for the present, being, with interest upon it, a prior lien upon the M. & A. Road, in case we should find it necessary to foreclose and sell under the first mortgage at its maturity. But for this contingency this sum would also go at once into the purchase account as above, making it $748,125 19. The latter sum represents what the road has cost us to date. During the year past a large amount of work has been done upon this road in filling trestles, reducing grades and rebuilding defective masonry, details of which will be found in roadmaster's report.

WESTERN RAILROAD OF ALABAMA.

This road has fully realized the favorable expectations of the last report. It is now not only self-sustaining, but has begun to refund us rapidly the amounts formerly advanced to it. During the past fiscal year it has paid its own interest and refunded us $26,740 on account of coupons previously paid for it, and has also paid us $18,000 for rent of its rolling stock, as explained in last report.

ATLANTA AND WEST POINT, ROME, AND PORT ROYAL RAILROADS.

Our stock in the A. & W. P. R. R. Co. has paid its usual eight per cent dividend, and that in the Rome R. R. Co. has paid ten per cent during our fiscal year, against six per cent paid for some years past. Both roads are expected to do as well for the ensuing year. Both the business and the condition of the Port Royal Railroad are gradually improving, but no revenue can be derived from it for the present. The ultimate value of that road will depend upon the possibility of a large export trade being turned through our Southern ports from the West to England and other foreign countries. The difficulty in the way of inaugurating such an export trade at once is the fact that, at present, the swarms of vessels, of every class, plying to the great Northern ports, with cargoes in both directions, keep the ocean rates from those ports to Liverpool at lower figures than will induce vessels to come empty to our Southern ports. Consequently, the sum of the rates from the West to New York, and from New York to Liverpool, has always been lower than the sum of the rates from the West to the Southern cost and thence to Liverpool. With this disadvantage against us on the ocean, and with the powerful competition of the Mississippi river on one side of us, and the great trunk lines and the lakes and canals on the other, we can hardly hope to see much of that business until the production of the West, and the necessities of foreign countries, outrun the capacity of the great Northern ports and of New Orleans to handle. This is not a very promising outlook, as any business secured only when the larger ports are overcrowded would be spasmodic and fluctuating, and would not justify large outlays to prepare for it. There is, however, one way of making a beginning at such a business, which may add something to our revenues, and is at least worth the effort. A great deal of cotton is exported direct to Europe from our Southern ports, and a certain amount of grain and other heavy Western products can probably be advantageously shipped in each vessel along with the cotton, as ballast. In this way it is hoped that, during the fall and winter, when cotton is moving in large quantities, and when, too, the Northern roads and ports are most crowded, we may secure a small export trade from the West. With a view to at least test the practicability of the idea, this company has agreed to join in the erection of a small elevator at Port Royal, and it is hoped to have it in operation in time for the next year's business.

The new business for our lines, however, from which we most hope for early results, is the direct business between the West and New York, and other Eastern ports. By means of fine steamer lines now in operation to the ports of Savannah and Charleston, which are also being rapidly increased in power with larger and faster steamers, we believe it possible to make as good time from New York to St. Louis, via Charleston and Savannah, and over our roads, as is being made by the all-rail direct lines from New York to the West. And, as our pro-rating distances are as short, we believe that we can secure a very considerable increase of business from these quarters. With this in view, close alliances have been made between this road and the South Carolina and Central Railroads, and the steamer lines from Charleston and Savannah to New York, and also with the Louisville and Nashville Railroad Company, and the large system of roads under its control. The alliances are not exclusive, or intended to discriminate against any others of our connecting lines, but are simply to co-operate harmoniously, and as one line, in a concentrated effort to secure a portion of the great business between the West and East over our respective roads. The necessary details and preparations are be-

ing worked up as rapidly as possible, and before the next winter we hope to have a thoroughly organized and efficient line, capable of handling a large business.

CONDITION OF THE ROAD.

The physical condition of the road and rolling stock has been much improved during the past year, but a great deal remains to be done to bring it up to the standard desired, and fully equip it for the business which we hope to secure. We hope, however, to accomplish it all economically and gradually, so as not to reduce our net earnings. For the particulars of what has been and is being done in different departments, reference is made to reports of Superintendent and other officers.

The Railroad Commissioners of the State of Georgia, under provisions of the law which created them, have recently issued regulations and rates to govern the transaction of all local business on the railroads of this State. These rates are in some cases considerably below the reduced rates which we voluntarily put in effect September, 1878, and in other cases they are higher than some of our rates which are limited by our charter restrictions. As the charges of this company have always been regulated by law, incorporated in its charter, we are really not subject to the restrictions which these rates will put upon us, nor are we at liberty to avail ourselves of the concessions they offer to give us. Earnestly desiring, however, to see the Commission a success, and to co-operate with it in the solution of the problems before it, we propose voluntarily, and without surrendering or infringing, in any way, our charter privileges or restrictions, to put in full operation such of their rates as are lower than our present tariff, while declining the benefit of all such as are higher. The result will doubtless be some reduction of our local freight revenue, but we have made the experiment before, believing it to be on the right line—as explained in the last annual report—and that it will eventually be returned to us in the prosperity of our local territory. And if we are successful in working up the new through business in prospect, we can the better afford reduction on our locals.

The earnings of the Western Railroad of Alabama, referred to above, for the year ending August 31, 1879, were $579,492 73; and the expenses, including taxes, $395,498 52—leaving net, $183,994 21. For the seven months ending March 31, 1880, the earnings were $454,349 35; and the expenses, including taxes and rent of rolling stock, $268,601 77—leaving net, $185,747 58.

The company have 40 locomotives, 29 passenger, 2 sleeping, 8 baggage, 3 mail, 382 box, 99 Green line, 15 cab, 186 flat, 31 stock, 59 coal, 19 shanty, 1 pay and 2 wood cars. The number of miles run by locomotives in 1880 was 1,017,797, against 1,019,478 in 1879, a decrease of 1,681.

The length of road operated in 1880 was 307 miles, against 275 in 1879, and 231 in 1878.

Profit and loss account shows a surplus at the close of the year of $1,007,744 02, against $831,805 71 at the close of the previous year, an increase of $175,938 26.

The bonded liability of company March 31, 1879, was $3,204,500. During the year $156,000 six per cent bonds have been issued, and $432,000 seven per cent bonds retired, leaving the amount outstanding March 31, 1880, $2,928,500. Of these, $425,000 are seven and $1,156,000 six per cent bonds of the Georgia Railroad and Banking Co.; $296,000 1st mort. Macon and Augusta R. R. Co.; $800,000 1st, and $579,000 2d Western Railroad of Alabama; $150,000 1st, and $22,500 2d Montgomery and West Point R. R. Co.

The following is a condensed statement of the condi ion of the Georgia Railroad and Banking Co. March 31, 1880.

The road and its outfit		$4,200,000 00

President.—E. P. ALEXANDER.

Directors.—James W. Davies, James S. Hamilton, Stevens Thomas, M. P. Stovall, Geo. T. Jackson, L. M. Hill, Josiah Sibley, H. D. McDaniel, Geo. Hillyer, John Davison, Wm. M. Reese, Chas. H. Phinizy, Jno. H. James, Joel A. Billups, N. L. Hutchins, H. H. Hickman.

Superintendent.—S. K. JOHNSON.

Auditor.—CARLTON HILLYER.

Cashier.—GEO. P. BUTLER.

☞ According to the official report of the New Jersey State Commissioners the total earnings of the Delaware and Raritan Canal, operated by the Pennsylvania Railroad Company last year, were $895,959 10, and its working expenses $326,924 85, leaving a balance of $369,034 25.

Investment Securities.

The Finance Committee of the Produce Exchange recently asked proposals for the purchase of $385,000 of investment bonds, consisting of the following: $90,000 United States currency sixes, due 1899; $20,000 United States currency sixes, due 1898; $50,000 United States fours, consols, due 1907; $110,000 New York City 7 per cent consolidated stock bonds, due 1894; $20,000 New York City 7 per cent accumulated debt bonds, due 1887; $95,000 New York City 6 per cent park improvement bonds, due 1901. There were 15 bids, aggregating $2,205,000. The following awards were made: all the currency sixes to the National State Bank, of Newark, N. J., at 126.45 for the 1899s and 125.50 for the 1898s; the fours to Fisk & Hatch at 108.26; and all the New York City bonds to George K. Sistare's Sons at 125.17 and interest for the consolidated stock bonds; 116.57 and interest for the accumulated debt bonds; and 119.57 and interest for the park improvement bonds. The total sum realized is $473,877 45, or an aggregate premium of $88,877 45. The money will be applied to the purchase of the site and the erection of the proposed new Exchange Building.

Valley Railroad of Virginia.

Efforts are being made to negotiate a loan of $2,600,000 with which to complete the road to Salem, on the Virginia and Tennessee line. The length of the completed road between Harrisonburg and Salem is 26 miles, the cost being $1,338,998 52. The uncompleted part between Staunton and Salem is 87 miles in length, and the expenditure has been $1,018,067 72. Chief Engineer Randolph estimates the amount necessary to complete the road at $2,795,442 04; the amount of subscriptions due in cash and bonds being $577,000. The debt due to the Baltimore and Ohio railroad, which is the only indebtedness of the road, is $119,491 75, for which the Baltimore and Ohio railroad holds as collaterals Virginia county bonds to the amount of $174,500, valued at from 85 to 90.

☞ The Phœnix Iron Co., Phœnixville, are having one of Riehle Bros. Narrow-Gauge Railroad Track Scales erected at their works. This is the second Track Scale they have put in of Riehle Bros. make; the first one giving great satisfaction for continued accuracy and sensitiveness, after being in use for some time, and frequently weighing over one thousand tons a day.

☞ The stockholders of the Monongahela Bridge Company have endorsed the surveys for the proposed new bridge, prepared under the direction of the Building Committee, and proposals for its construction will be received until the latter part of the month.

☞ The Buffalo and Southwestern Railroad Company will take into consideration the consolidation of that road with the Pittsburg, Titusville and Buffalo Railroad at a meeting of the directors to be held on the 6th of July.

☞ The completion of the Ohio and West Virginia railway to Logan, was celebrated at that place on the 3d inst.

Nantasket Railway.

The workmen have laid a mile of this new railroad, which commences near the head of the steamboat wharf and is to extend to Point Alderton. It is a broad gauge road, and the new cars which are to be used are very elegant. It will be used for pleasure travel this season, but ultimately it will connect with the Old Colony Railroad. It will develop a large section of the beach now of little value on account of a want of means of access, which the road will supply. It is proposed to have a branch of the road to run to Tudor's Point, with a view to secure a connection with a line of steamboats from Boston, which will shorten the trip to Nantasket about ten minutes. The new station at the head of the wharf is to be 175 feet in length, and is to be a very ornamental structure. There will be several stations on the road.

Statement of the Public Debt of the United States, June 1, 1880.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, May 31, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

Pennsylvania Railroad.

Mr. A. J. Cassatt, First Vice President of the Pennsylvania Railroad Company, "who is now about 40 years of age, is a native of Pittsburg, and an able and experienced engineer. He is a graduate of the Rensselaer Polytecnic Institute, Troy, N. Y., where he received a first-class scientific education, afterward completing his studies at the University of Heidelberg, Germany. In 1861 he entered the service of the Pennsylvania Railroad Company as rodman in the office of the Resident Engineer of the Philadelphia division. In the year 1863 he was appointed Assistant Engineer, in connection with the construction of the Connecting Railway; and in 1864 Resident Engineer of the Middle Division of the Philadelphia and Erie Railroad, with office at Renova. In 1866 he was appointed Superintendent of Motive Power and Machinery on the same road, with office at Williamsport; and November 16, 1867, he was appointed to a similar position in the Pennsylvania Railroad Company's service, with his office at Altoona. April 1, 1870, he was appointed General Superintendent of the Company, and on the lease of the New Jersey lines by the Pennsylvania Railroad Company he was appointed General Manager of all the Company's lines east of Pittsburg and Erie. On the 1st of July, 1874, he was elected Third Vice President, upon the death of J. Edgar Thomson.—[Phila. Record.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, June 10, 1880.

There has been a thorough reaction in the Wall Street markets the past week based upon the "covering" and "twisting" of an enormous short interest created on the demoralization of the two preceding weeks following the collapse of Reading. The position is about this: on the decline from the top prices of last winter Mr. Gould and his following were credited with being the leading bears, and that the other great operators of the street were as a rule on the bull side of the market until near the time of the Reading collapse, before which it was understood that the Gould party had obtained a good line of stocks at prices which they regarded as low enough to be safe, and were getting ready to increase their operations and go in for a bull campaign. The demoralization caused by the failure of Reading disturbed the basis upon which their calculations were made and changed the relations of several of the large operators to the market. The great speculators outside the Gould family were then credited with turning bears, first on the coal and then on the Vanderbilt stocks, especially Lake Shore and Western Union, then Erie and Iron Mountain, on which they made heavy profits in a few days, which so emboldened them that they went short still more heavily of the whole list in large lines. This new bear clique was said to embrace Keene and his following, the "Twenty Third Street" party headed by Prince & Whitley, and their following. In the meantime Mr.

Gould who had shaped himself for an advance did not resist the decline, although he was credited with heavy buying at each new break, partly to permit a panic in the market and partly to average down the cost of his stocks principally bought at much higher prices. As this did not injure his plans, giving him a lower average for his line of stocks, he went with the current two weeks or more after he was ready to turn bull. In the meantime an enormous short interest had been put out by the other large operators, which it is now said Gould quietly took, until the past week when he put the screws to the market and twisted their shorts up steadily several points a day, without reaction until an advance of 5 to 15 points had been realized on the general list since a week ago.

These large operators are said not only to have resisted the movement and refused to settle but actually to have put out larger lines on the rise until they are now so heavily short that Gould has determined to hold them and the market where it is, or put it higher until he forces them to settle their short contracts. As a result the Vanderbilt, Gould, and Coal stocks, Grangers, Pacific Mail, Erie and Iron Mountain, followed by the balance of the list, have led the advance as they did the decline, and stocks have been made so scarce as to be worth a premium for borrowing in some cases. This is the basis of the whole supposed movement in Wall Street, and as it is purely speculative it will last so long as this short interest is unsettled, and afterwards there will no doubt be reaction, as the public do not come in and help the movement as they did last Fall, and hence it has none of the appearances of another boom. This is the key to Wall Street, and all other elements have been unimportant factors in this market. Railroad earnings are large and have been used to bull stocks.

The bank statement continues favorable, $205,600 being added to surplus of $16,334,050.

Money ruled easy at 2@4 on stocks and 2@3 on U. S. bonds.

Sterling Exchange has been dull and steady.

Government bonds have been dull but firm until after the Government purchase of $2,000,000 on Wednesday instead of $3,000,000, after which 4s fell off ½c.

State bonds have been quiet and without important change or feature.

The passenger as well as freight pool of the trunk lines has helped their stocks. Railroad bonds have sympathized with the stock speculation, the speculative securities being most active, while investments were quiet and firm.

Exports have increased to over $9,000,000, largely in consequence of the free movement of breadstuffs, especially wheat, which the combination have been shipping out freely on their account from all the Atlantic ports the past week, for which they have chartered more than 100 and nearly 150 vessels for June loading.

Imports are falling off in the iron line since the heavy losses on imports and failures here, noted in our editorial columns, since when, the failure of Arkell, Tuffts & Co., shipping merchants, of Pearl Street, this city and London, has been announced, on speculations outside their business in iron for $500,000, it is said.

The iron and metal markets are very much unsettled by these failures, and trade is in a very unsafe and unsatisfactory condition.

Breadstuffs have not improved in price with the increase in the movement noted above, for the reason there is too much stuff and the exports are not sales but consignments of the clique largely. Hence since the May "corner" was over and another in June anticipated and discounted, the prices have fallen back losing nearly all the advance thus obtained.

Provisions have advanced on a light speculation and some export demand, but at no material advance.

Mining stocks have been only moderately active and about steady here and in San Francisco without a sensation in either market and no change in the situation after all the talk of what the new Exchange would do for these stocks. Again has dividend day come for the Bonanzas and none yet declared although returns show nearly a million of dollars in the treasury of the Consolidated Virginia since its last dividend six months ago. There is money enough to pay a dividend of $1@1 50 and the gambling officials of this Co., ought to be compelled to divide this large amount among the stockholders and owners of this property or be brought into disgrace and retirement from its management.

The Quarterly Statement of the Western Union Telegraph Company, made on the 9th, together with a dividend of 1¾ per cent payable July 15th shows a surplus after April dividend of $824,299, instead of $1,108,288 as estimated in last statement. The Presidents report says the net profits for the year will be about $5,300,000, of which $1,543,000 has been invested in new property, including $40,000 increase in surplus. The balance has been paid in 8 per cent dividends. New property includes telephone exchange property, 3,500 miles new line, and 24,500 miles additional wire.

The Governors of the Stock Exchange have admitted to dealings at the board the following securities:

Chicago, Rock Island and Pacific Railroad—Stock of $50,000,000, of which $41,960,000 is issued in place of $25,000,000, the amount of the previously authorized capital. Each holder of the old stock of the same name is entitled to receive two shares of the new stock for one share of the old surrendered. The new capital stock represents the consolidation of the following companies with their respective lines of road: The Chicago, Rock Island and Pacific Railroad, consisting of main line from Chicago, Ill., to Council Bluffs, Iowa, 500¼ miles. The South Chicago branch, from South Englewood, Ill., to South Chicago, 7½ miles. The Washington or Oskaloosa Branch, from Wilton, Iowa, to Knoxville, in the same State, 128 miles. The Iowa Southern and Missouri Northern Railroad, consisting of main line, completed from Washington, in the State of Iowa, to a point on the Missouri River in the State of Missouri opposite or nearly opposite the city of Leavenworth, in the State of Kansas 271 miles. The Atchison Branch, completed from Edgerton Junction, on the line above mentioned in the State of Missouri, to a point on the Missouri River in said State opposite the city of Atchison, in the State of Kansas, 29 miles. The railroad completed from Des Moines, in the State Iowa, to Indianola, in said State, 21½ miles. The railroad completed from Somerset Station, on the line last above described, to Winterset, in said State, 26½ miles. The Newton and Monroe Railroad, completed from Newton, in Jasper County, Iowa, to Monroe, in said County, 17 miles, The Atlantic Southern Railroad, consisting of the railroad completed from Atlantic, in Cass County, Iowa, to Lewis, in said County, 9 miles, and the railroad being constructed to Griswold, an additional distance of 14 miles. The Avoca, Macedonia and Southwestern Railroad; the railroad being constructed from Avoca, in Pottawattamie County, Iowa, to Carson, in the same county, 17 miles. The Atlantic and Audubon Railroad, completed from Atlantic, in Cass County, Iowa, to Audubon, in Audubon County in said State, 25 miles. The Consolidated Company will be the lessee of the following lines: The Peoria and Bureau Valley Railroad, completed from Bureau Junction, in Bureau County, Ill., to Peoria, in Peoria County, in said State, at a rental of $125,000 per annum, 46¾ miles. The Keokuk and Des Moines Railway, completed from Keokuk, in the County of Lee, in the State of Iowa, to Des Moines in said State. The interest on $2,750,000 5 per cent bonds guaranteed as rental, 162 miles. The Fort Leavenworth Railroad, completed from the western terminus of the Kansas and Missouri Bridge, on the Fort Leavenworth military reservation, in the State of Kansas, to the City of Leavenworth in said State, 2 miles. The Avoca, Harlan and Northern Railroad, completed from a point on the main line of the Chicago, Rock Island and Pacific Railroad near Avoca, in the County of Pottawattamie in the State of Iowa, to Harlan, in Shelby County in said State, 12 miles; the Guthrie and Northwestern Railroad, being constructed from a point on the main line of the Chicago, Rock Island and Pacific Railroad, near Guthrie Station, in Guthrie County, to Guthrie Centre in said county, 15 miles; the Hannibal and St. Joseph Railroad, from Cameron, in the State of Missouri to Kansas City in said State, 54 miles; the Keosauqua and Southwestern Railroad, being constructed from Mount Zion Station, on the Keokuk and Des Moines Railway, in Van Buren County in the State of Iowa, to Keosauqua in said county, 4½ miles.

☞ The regular monthly dividend of Fifty cents per share has been declared for May by the Ontario Silver Mining Company, payable June 15, at the office of Wells, Fargo & Co. No. 65 Broadway.

☞ The Cincinnati Railroad Company has been granted authority to increase its capital stock from $1,000,000 to $1,100,000, in shares of fifty dollars each.

☞ A street railway will soon be in operation in Austin, Nev.

Russian Railways.

The Railways of Russia are not doing much to promote the interests of producers and shippers. They are not able to carry forward the grain anything like as fast as it is received, and yet they furnish no accommodations for storing it and protecting it from the weather and pilfering. It is said that on the lines all the way from Charkoff and Kieff to Odessa last year's wheat may be seen lying about the railroad stations in sacks on the ground. The only way to get grain forward is to bribe the station agent to ship it out of its turn. This it is said is frequently done. The trouble is that the government forbids railroads from buying rolling stock in foreign markets. They must take the inferior Russian manufacture or none, and the consequence is that their repair shops are filled with broken cars and engines. Freight is handled very rudely and carelessly, competition is unknown, damages are never paid, and the system is so defective and so obsolete that it will probably be many years before the Russians can put their wheat in the English market in such a condition as to injure the supremacy of the United States in that field.

Pittsburg, Titusville and Buffalo Railroad.

The earnings of this road for the year ending December 31, 1879, was as follows:

From merchandise		$306,874 52
From passengers		138,109 12
From express		8,873 94
From United States mails		6,288 50
From telegraph		375 78
From rents		2,528 19
From miscellaneous		4,074 75
		$467,135 80
Expenses, viz:		
Conducting transp	$93,220 30	
Motive power	77,415 24	
Maintenance of cars	18,451 45	
Maintenance of way	68,184 45	
General expenses	19,583 76	
	276,805 20	
Net earnings		$190,330 69
To which add:		
Balance reserved fund 1878	$52,004 10	
Less drawback on traffic of 1878	2,646 88	
	49,357 22	
Balance to credit of profit and loss, December 31, 1879, applicable to interest on bonded debt, &c		$239,687 82
Out of which has been paid one year's interest on:		
Warren & Franklin Railway Co. bonds	$105,000 00	
Oil Creek Railroad Co. bonds	40,600 00	
Union and Titusville Railroad Co. bonds	35,000 00	
	180,600 00	
		$59,087 82

Of this amount, $40,425 has been appropriated to the payment of the coupons of the consolidated bonds due February 1, 1880.

The result of the year's business, as compared with 1878, is as follows:

	1878.	1879.
Gross receipts	$526,701 04	$467,135 80
Gross expenses	342,138 33	276,805 20
Net profits	$184,562 71	$190,330 60

—showing a decrease in gross receipts of $59,565 24, or 11.3 per cent; a decrease in expenses of $65,333 13, or 19 per cent; and an increase in net profits of $5,767 89, or 3.1 per cent. The percentage of expenses to earnings in 1879 was 59.25; in 1878, 64.95.

The following statement shows the tonnage moved during the year, as compared with 1878:

	1878 Tons.	1879 Tons.
Coal	207,772	290,257
Oil	161,551	181,961
General mdze	153,109	152,451
	522,432	625,669

The following statement shows the results of the business for the quarter ending March 31, 1880, as compared with the same time in 1879:

	Gross receipts.	Expenses.	Net profits.
1880	$112,604 34	$63,677 86	$48,926 48
1879	111,162 38	78,352 76	32,809 62
Inc	$1,441 96	.....	*$16,116 86
Dec	.....	$14,674 90	.....

*Equal to 49 per cent.

The business for April, 1880, as compared with April, 1879, is as follows:

	Gross receipts.	Expenses.	Net profits.
April, 1880	$55,700	$23,900	$31,800
April, 1879	41,704	21,883	9,821
Increase	$13,996	.....	*$21,979
Decrease	.....	$7,983	.....

* Equal to 223. 8 per cent.

General Balance Sheet.

Cost of road		$8,473,622 16
Cost of equipment		587,500 00
Materials on hand		22,188 29
Freight bills receivable in January, 1880		6,626 82
Debts due to the company from connecting railroad companies, &c		20,798 15
Miscellaneous assets		12,000 00
Cash on hand		84,343 80
Total		$9,207,078 82
Capital stock		$4,959,450 00
First mortgage bonds Warren and Franklin Railway Company		1,500,000 00
First mortgage bonds Oil Creek Railroad Company		580,000 00
First mortgage bonds Union and Titusville Railroad Company		500,000 00
Consolidated mortgage bonds		1,155,000 00
Income bonds		315,933 00
Old scrip		84,597 50
Coupon scrip		40,425 00
Vouchers and pay rolls for December		26,862 92
Interest due January 1, 1880, on Union and Titusville bonds		17,500 00
Coupons due prior to January 1, 1880, not presented		1,746 00
Due other railroad companies		16,476 48
Balance to credit of profit and loss		59,087 82
Total		$9,207,078 72

☞ The Savannah and Memphis Railroad, running 60 miles from Opelika, Ala., to Goodwater, was resold on the 7th inst. to Oliver H. Palmer, Mason Young, and H. W. Sibley, of New York, for $834,500 and was bought for the bondholders.

☞ In the case of the Selma, Rome and Dalton Railroad, Chief Justice Waite of the U. S. Court at Washington, has granted a writ of error, but refused the application for a supersedeas and postponement of the sale under the decree heretofore rendered. The road will be sold on June 14.

The Southern Railroad System.

The Indianapolis Journal says that railroad men are of the opinion that there are to be further changes at an early day in the Southern system of railroads. They say that neither the Louisville and Nashville nor the Cincinnati and Southern will be content to be shut out of a Southwestern port, and they predict that there will be three through lines—W. E. Cole's from St. Louis, Chicago and Evansville to Brunswick; the Cincinnati Southern and Central Georgia to Savannah, and the Louisville and Nashville, over a line yet to be completed to Atlanta, and the Georgia road through Augusta to Port Royal.

The Chattanooga Times states that surveys will at once be made for an extension from Red Clay, Ga., on the Dalton arm of the East Tennessee, Virginia and Georgia railroad, to Oltewah, on the Chattanooga arm. This road will give Chattanooga a second connection with Dalton, only one mile longer than the Western and Atlantic connection. The East Tennessee, Virginia and Georgia railroad own the Selma, Rome and Dalton railroad from Dalton to Rome, and the interest will be a stiff bidder for the balance of that line when the judicial sale of it comes off June 15.

The Times has besides, positive and direct information that the Knoxville and Ohio railroad will be extended from Clinton—about forty miles from Knoxville— to connect with the Cincinnati Southern at Emory Gap, and that work on the extension will begin at an early day. The surveys have already been made. The management of the East Tennessee, Virginia and Georgia railroad also controls this road. The extension of the Memphis and Charleston railroad from Stevenson, Ala., to Chattanooga, which is projected will let freights from the Mississippi Valley pass through the Valley of Tennessee without breaking bulk or paying tolls to roads controlled by Louisville. This connection will prove a great leverage for the Cincinnati Southern. There is no doubt but that the Cincinnati Southern trustees and the company controlling that line have a full understanding with this new and heavy combination of roads under the ablest manager of the South, Mr. Cole, who has recently been made president of the consolidated roads from Bristol, to Memphis, Tenn.

The Balance of Trade.

The chief of the Bureau of Statistics, in his tenth monthly statement for the current fiscal year of the imports and exports of the United States, states that the excess of imports or of exports of merchandize stated in specie values was as follows: Month ended April 30, 1880 (excess of imports), $3,850,648. Month ended April 30, 1879 (excess of exports), $12,205,761. Ten months ended April 30, 1880 (excess of exports), $155,241,872. Ten months ended April 30, 1879 (excess of exports), $241,477,822. Twelve months ended April 30, 1880 (excess of exports), $178,425,716. Twelve months ended April 30, 1879 (excess of exports), $272,269,969.

The excess of imports or of exports of gold and silver coin and bullion was as follows: Month ended April 30, 1880 (excess of imports), $725,643. Month ended April 30, 1879 (excess of imports), $2,452,655. Ten months ended April 30, 1880 (excess of imports), $76,296,825. Ten months ended April 30, 1879 (excess of exports), $2,356,560. Twelve months ended April 30, 1880 (ex-

cess of imports), $73,951,944. Twelve months ended April 30, 1879 (excess of exports), $5,270,647.

Novel Steam Car.

The St. Louis Journal of Commerce thus describes a small steam car built by Mr. Jay Noble, of that city, for the private use of the officers of the Blairstown Railroad Company, of New Jersey:

In exterior appearance it resembles a handsome, well-built street car, with a head light on the front end. The body of the car carrying the machinery and load is very low, being only four inches above the rail; hence she would be very difficult to turn over. Her engines are outside, connected at right angles direct to the hub of the 24-inch drivers. The cylinders are 24 inches by 6 inches, and are handled by links and radius bar, as is usual in railroad practice. The valves are of the rotary type, but of special design by Mr. Noble, and have the faculty of cutting off very sharp. The boiler is of the vertical tubular type, with submerged flues. It is a little dinky for its duty, being only 28 inches diameter and 42 inches high, with 38 2 inch tubes, 12 inches long, the top tube sheet being submerged. The fire-box is 24 inches diameter and 18 inches high. A peculiar feature about the boiler is a chimney only 5 inches in diameter. She carries a horse-shoe water tank in the rear end, which also serves as seats for engineer and fireman. She has tankage for a 50 mile run and coal room for 100 miles. She will carry six persons comfortably in her forward cabin, which is handsomely upholstered. This car will run 50 miles per hour, as others of very similar construction by Mr. Noble have done. And now comes the funny part about the machine. In order to make this speed her 24-inch drivers, to which the engines are connected direct must make 695 revolutions per minute, since her wheel covers 6.25 feet each revolution, and her speed is 0.83 mile, or 4,349 feet per minute. Now, using as she does a mean effective pressure of 80 pounds to the square inch, carrying 125 pounds in her boiler, she would develop 21.15 horse power per engine, or 42.30 horse power per car. The interesting question is, where does this 42 horse power of steam come from, when there is only a little pot of a boiler, with 22.07 square feet of heating surface, which, according to usual rating for vertical tubular boilers, allowing 15 square feet to the horse power would be only 2.14 horse power? By these results the average steam theorist is badly upset. Here is a boiler giving off a horse power for each three-quarters of a square foot of heating surface.

Baltimore and Potomac Railroad.

The annual meeting of the stockholders of this company was held in Baltimore on the 2d inst., William T. Walters in the chair, John T. Crowe secretary. The report of President Oden Bowie and the Board of directors showed that the gross earnings from all sources were $699,772 05, of which the Washington line and tunnel were $661,193 49, and the Pope's Creek line $38,578 56, showing an increase of $60,695 51, namely: an increase on the Washington line of $60,979 24, and a decrease on the Pope's Creek line of $283 73. The total expenses were $526,201 69, of which the Washington line and tunnel were $469,399 78, and the Pope's Creek line $56,801 91, showing a decrease of $19,984 50, making the net earnings $173,570 36, and an increase in them for the year of $80,680 10.

The operations of the first quarter, ended April 30, of the present year, are still more satisfactory. The increased net receipts over the same quarter of last year were $37,677 54. The cost of movement per passenger per mile on the Washington line was 2.619 cents, and on the Pope's Creek line 9.915 cents. The average was 2.738 cents, a decrease of 0.245 cent per passenger per mile as compared with 1878. The cost of movement of freight per ton per mile on the Washington line was 1,689 cent, and on the Pope's Creek line 5.846 cents. The average cost was 1.931 cent, a decrease of 0.876 cent per ton per mile as compared with the year 1878. In construction and equipment account no charge was made during the year 1879.

The track and roadbed have been greatly improved. During the year 1,115 tons of steel rails, 44,950 new cross ties, and 4,768 feet of new siding were laid. Of the 48.85 miles of single and second track between Baltimore and Washington, 47.22 miles are now laid with new steel rails, leaving only about a mile and a-half of iron rails at this date on the main tracks. Particular attention has been paid to repairs and renewals of bridges. In addition to repairs of others, new boiler plate girder bridges were erected at Herbert's run and Rogue's Harbor, of 60 and 50 feet span, respectively. At Big Patuxent river the pier was pointed and grouted, and the wooden superstructure renewed with a wrought iron bridge at a cost of $11,546. The cost of the two girder bridgers was $3,236. The Patapsco bridge has been strongly trestled, preparatory to its renewal during the year with an iron structure.

The officers and directors for the ensuing year were elected as follows: Officers, Hon. Oden Bowie, president, A. J. Cassatt, vice president; John S. Leib, treasurer; John Crowe secretary and auditor. Directors, A. J. Cassatt, Geo. B. Roberts, Geo. Small, B. F. Newcomer, Wm. T. Walters, Dr. Eli J. Henkle, Samuel Cox, Jr., to succeed his father.

Railroad Construction in Oregon.

A correspondent, writing from Portland, Oregon, under date May 27th, says that a wonderful degree of activity is manifested in railroad matters, and then adds:

The Oregon Railway and Navigation Company now has five surveying parties in the field in different portions of Eastern Oregon and Washington, locating the various proposed lines of road. The company has determined to construct a road from Portland to The Dalles, and with that purpose in view will commence active operations at once. Two parties will make a final location for route from Portland to The Dalles. Preliminary lines were run early this spring. In order to facilitate the work one party will start at The Dalles and come west, while the other will start here and work east. It is expected that the rock work on the Wallula and Celilo division will be done by August 15th, and after that date all available workmen will be put at the rock work on the Portland division. Much of this work is of such a difficult character that much labor must be performed this year in order to have the road completed to Portland in time to move next year's crop. There will be three tunnels—two between the Dalles and the Cascades, and one between here and the Cascades—each 900 feet long.

☞ At the annual meeting of the Boston and New York Air Line Railroad Company, held at Middletown, Conn., on the 1st inst., the followong officers were chosen: President, H. B. Hammond of New York; Treasurer, D. B. Hatch of New York; Secretary, Thomas L. Watson of Bridgeport; Superintendent, J. H. Franklin of New Haven. The gross earnings of the road for the year ending May 1, 1880, were $274,177, and the net earnings $148,689. The net earnings were applied to the liquidation of floating debt, instead of being divided among the shareholders.

Cheshire Railroad.

At the adjourned annual meeting of the Cheshire Railroad Company, held at Keene, N. H., on the 2d inst., the following Board of directors was chosen: Hon. Wm. A. Russell of Lawrence, President; Captain E. Murdock, Jr., Winchendon, Samuel Gould Esq, of Boston, George P Williams Esq., of Boston, John B. Meer, Esq., of Boston, Edward C. Thayer, Esq., of Keene, Hon. James H. Williams of Bellows' Falls.

It was voted to accept and ratify the lease of the Monadnock Railroad. The lease as read by the clerk, requires the rent to be paid quarterly—the lease to run 6 years at an annual rent of $12,000; the privilege of continuing the lease for the next five years is granted, the rent to be increased to $13,000; for the next 5 years, an increase to an annual rent of $14,000; for the next 5 years an increase to $15,000, the Cheshire Company to pay taxes, equip and furnish rolling stock in a suitable and proper manner.

It was also voted to issue only $550,000 new six per cent bonds of the $586,000 authorized to be issued to retire bonds due in 1880, thus reducing the debt about $36,000.

The President stated, in reply to a question from a stockholder, that for seven months last year and the same time this year an increase was seen in the gross earnings of $56,000, while expenses had increased $17,000 for the same time.

☞ At the annual meeting of the Pennsylvania Co., held in Pittsburg on the 1st inst, the following gentlemen were elected directors: Geo. B. Roberts, J. N. McCullough, William Thaw, Thos. D. Messler, Henry H. Houston, A. J. Cassatt, Witter Morris, Samuel M. Felton, John P. Green, Henry M. Phillips, Joseph N. DuBarry and John Price Wetherill. The recent lease of the Jeffersonville, Madison and Indianapolis Railroad was ratified by the shareholders.

☞ A. J. Steers, Wm. B. Smith, H. E. Hayes, E. E. Jones and others are named as trustees of the Family Seaside Excursion company. The company are to charter and navigate steam vessels for tranportation of passengers and freight to and from New York and adjacent landings on Long Island, Staten Island, New Jersey, Hudson River and Long Island Sound. The capital is placed at $100,000.

☞ John A. Foley, Alvin Walker, William T. Brown and others are named as trustees of the Union Railroad Safety Gate company. The company are to manufacture and sell the patent Meehan & McLean railroad gate. The capital is fixed at $300,000.

☞ The Milwaukee and Marthon and Menasha and Appleton Railroads were sold in Milwaukee on the 5th inst., under a decree of the U. S. Court. They were bid in by representatives of the principal stockholders for $1,500,000

☞ The last rail on the West Jersey and Atlantic Railroad was laid on the 31st ult., and on the 12th instant passenger trains will commence to run.

Pittsburg, Titusville and Buffalo Railway.

The managers of the Pittsburg, Titusville and Buffalo Railroad have taken another step in their efforts to restore that company to its former prosperity by negotiating a contract for consolidation with the Buffalo and Southwestern railroad, thus extending their line into Buffalo.

The Buffalo and Southwestern Railroad extends from Buffalo to Jamestown, a distance of 67 miles and forms a connection with the New York Central and Hudson River, the New York, Lake Erie and Western, the Grand Trunk, the Lake Shore and Michigan Southern, and the Canada Southern Railroads and the Erie Canal. The company owns a large freight yard at Buffalo sufficient to accommodate any traffic. The capital of the company is represented by $471,900 of common stock, $471,900 of preferred stock and $1,500,000 of 6 per cent bonds.

A new company is to be formed by the consolidation, which shall be known as the Pittsburg, Titusville and Buffalo Railway Co., which will assume the payment of all the bonds of both companies; will issue share for share of the common and preferred stock of the Pittsburg, Titusville and Buffalo Company; will issue four shares of common stock for each single share ($100) of the Buffalo and Southwestern Co., and will also issue three shares of preferred stock ($100) of the Buffalo and Southwestern Co.

The consolidated company will then own the following lines of railroad: Oil City to Irvineton, 50 miles; Jamestown to Buffalo, 67 miles; Oil City to Brocton, 89 miles; Titusville to Union, 28 miles; in all 231 miles.

The capital of the consolidated company will be: Common stock, $7,500,000; preferred stock, $1,500,000: first mortgage bonds $4,330,000; second mortgage bonds, $1,155,000. The annual interest of the Buffalo and Southwestern Railroad Company assumed by the Consolidated Company, is $90,000, but the net earnings of that company for several months past have averaged $16 500 per month, or at the rate of $198,000 per annum, which looks like a clear gain of $108,000—a sum equal to 6 per cent on the amount of the common and preferred stock to be issued to the stockholders of the Buffalo and Southwestern Railroad. These earnings should be increased by the reduction of expenses consequent upon the merger and by the large additional traffic expected from the New York, Pennsylvania and Ohio Railroad (formerly the Atlantic and Great Western) when it is standard gauged, which is expected to be finished by the 23d of this month.

The Buffalo and Southwestern Railroad is now connected with the Titusville road by the New York, Pennsylvania and Ohio Railroad from Corry to Jamestown (27 miles), and by the Dunkirk, Allegheny Valley and Pittsburg Railroad from Irvineton to Jamestown (29 miles). The profits of the Pittsburg, Titusville and Buffalo Railroad and of the Buffalo and Southwestern Railroad Companies for the past three months are said to have been sufficient to meet the proportionate interest on all the bonds of both companies, 6 per cent per annum on the preferred stock and 1½ per cent on the common stock as it will stand after the merger.

Railway Passenger Traffic.

After several years of successful pooling of freight receipts by the Trunk lines, their managers have at last applied the system to passenger traffic and will hereafter pool their receipts and do away with agents and commissions to agents for selling tickets which they have often tried to do before without success.

☞ The directors of the Boston and Albany Railroad Company have voted to accept the purchase of the Springfield, Athol and North-Eastern Railroad, subject to the approval of the stockholders.

Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of May, were:

ENTERED FOR CONSUMPTION.

	1879.	1880.
Manufactures of wool....	$410,116	$842,249

☞ The earnings of the Central Pacific Railroad Company for May show an increase of $151,409 over the same month in 1879, and the earnings for the first five months of the present year show an increase of $303,780 over the same period in 1879. The earnings of this road monthly for a series of years will be found on page 649 of our present issue.

Trouble Brewing in the Trunk Line Freight Pool.

In relation to the action of the Trunk Line Managers at their late meeting in this city the Chicago Tribune, after referring to the fact that charges against the Grand Trunk for cutting rates were passed over, says:

"The 'High Joints' were evidently afraid to tackle this subject, lest it might lead the combination into complications which might prove quite serious and make a reduction of rates necessary. There is not the least doubt among railroad managers in this city that the Grand Trunk is acting outside of the pooling arrangement, and is giving such inducements to shippers as to get the business. While the pool lines from this city, during the last two weeks, have done hardly any business, the Grand Trunk has done quite well. The latter does not report its shipments to the Board of Trade, as do the other lines running East from here, but it is asserted that its grain shipments from this point last week amounted to as much as those of all the other lines combined. The Trunk line managers evidently find it more profitable to allow the Grand Trunk to take this business than to have the rates reduced which would reduce greatly their earnings on the business they receive from the lakes at Lake Erie ports. The 'High Joints', however, to show their determination to investigate violations of the agreement, tackled the Baltimore and Ohio for alleged charges of cutting rates from Sandusky, knowing full well that the Baltimore and Ohio would not kick, because it understood the game. The Baltimore and Ohio was not proved guilty, but the agitation served the purpose of showing the Western lines that the trunk lines will even investigate themselves if necessary. 'It is hardly necessary to say that nearly all the Western members of the trunk line pool are highly disgusted with the 'Joints' humbug, which seems to have been organized simply for the purpose of placing the Western roads under the thumb of the New York trunk lines. It is safe to predict that the Western managers will soon break the shackles and free themselves from the yoke under which they allowed themselves to be placed. By the time Commissioner Fink returns from Europe he may find the Eastern pool in a very fragmentary condition, which no amount of his circulars can cement together again."

☞ A conference was held at Newburg, N. Y., on the 2d inst., of the freight agents of the New York, Lake Erie and Western, the Newburg, Dutchess and Connecticut, and the Connecticut Western Railroads, regarding an arrangement for a through freight line between the East and West via Newburg. It is expected that the new line will soon be in operation. It will be known as the Newburg line. Part of the plan is to narrow gauge the Newburg branch. Freight will be transported across the Hudson River to the terminus of the Newburg, Dutchess and Connecticut Railroad. The latter connects with the Connecticut Western, and reaches New England cities via Hartford. The three companies will share the expense and the profits.

☞ The Worthington Pump, at the City Mill, Wilmington, Del., ran during the month of May, 23 days, made 471¼ hours and 378,999 revolutions, and raised 121,279,680 gallons of water to Cool Spring reservoir; an increase of 16,197,340 gallons as compared with May, 1879. The Worthington pump at Cool Spring reservoir ran 27 days, made 802 hours and 811,556 revolutions and

raised to Rodney street reservoir 11,589,019 gallons.

The Texas Pacific Land Grant.

It looks very much as if the Texas Pacific Railroad would lose its grant. There is a bill before Congress asking for an extension of the grant, and the sub-committee, which has the bill in charge, has prepared a report adverse to the bill. The grounds for this report are, first, that the Texas Pacific Company has not built any part of its road in either California or Arizona, where the land is situated, although the charter of the company provides that the construction of the road shall begin simultaneously at San Diego, California, and Marshall, Texas. Second, that the Southern Pacific road has been constructed through the land grant of the Texas Pacific without government aid, and third, that the Texas Pacific admits that it will not be able to complete its road in accordance with its charter for ten years, that it would be against public policy to prevent settlers for so long a time from occupying the land grant in question, which comprises about 18,000,000 of acres.—[N. O. Times.

Vermont and Massachusetts Railroad.

At the annual meeting of the stockholders of the Vermont and Massachusetts Railroad Company, held in Boston on the 2d inst., the following gentlemen were elected directors: Daniel S. Richardson of Lowell, William H. Hill of Brookline, James A. Dupee of Winchester, Francis Goodhue of Brattleboro', Vt., George F. Fay of Fitchburg, Thornton K. Ware of Fitchburg, Edward L. Davis of Worcester. The annual report showed the receipts (being the rent from the Fitchburg Railroad and interest) to have been $180,666 43. The expenditures were: for dividends, $177,300; for keeping up the organization, salaries and miscellaneous expenses, $3,366 43—total, $180,666 43.

The sale of the Brattleboro' Branch to the New London Northern Railroad Co. was ratified by an unanimous vote.

The Northern Pacific.

The Northern Pacific Railroad Company has promised to build 200 miles of railroad in Eastern Washington this year, and is acting as if the promise would be kept. Grading, track laying and shipment of rails are pushed forward with great energy. The track has been laid for 17 miles from Ainsworth; the grading is done for 33 miles beyond; steel rails for 125 miles of road were shipped from New York between January 1st and March 17th, and ships have been chartered to carry rails for 61 miles more. The company having bought its rails (and shipped most of them) and contracted for its ties, has no motive for delaying construction. The grading is not expensive, the land is good, ready saleable, and will produce an immense amount of way freight. The construction of the road will attract a great number of immigrants, and there is a strong probability that for several years Eastern Washington will be one of the most prosperous and progressive portions of the United States.—[San Francisco Alta.

☞ The tracks of the Baltimore and Cumberland Valley railroad have been completed, and it is expected that trains will be run in a short time. The new line is seven miles long, from Edgemont, on the Western Maryland railroad, to Waynesboro', Pa.

☞ Judge Westbrook has handed down his decision on the attorney general's motion for a receiver of the Rochester and State Line railway company, granting the motion. The decision holds that the previous appointment of a receiver in the suit of the Union Trust company against the railway company was procured by collusion and fraud.

Savannah and Charleston Railroad.

The whole property and franchise of the Savannah and Charleston Railroad was sold at Charleston, S. C., at auction under a decree of foreclosure of mortgage, to H. B. Plant, President of the Southern Express Company, for $300,200. The terms require the immediate payment of all undisputed claims reported by the Referee, and the latter's costs and fees, amounting to $50,000. The bonds and coupons entitled to priority by the decision of the State Supreme Court, soon to be rendered, may be used in payment of the credit portion of the purchase money, payable in one year.

The purchasing syndicate have organized a new company with a capital stock of $500,000, and chosen the following-named directors to serve for one year: H. B. Plant, William Cutting, W. T. Walters, B. F. Newcomer, W. H. Brawley, C. G. Memminger, and A. F. Ravenel. The last three are Charleston men. Mr. Plant will be President of the company. The road will immediately be put in complete repair and thoroughly equipped. This, with the early completion of the road from Way Cross to Jacksonville, which is now being rapidly pushed forward, will establish a first-class coast line from Florida to New York.

☞ The Manchester Horse Railroad has proved a financial success, and its lines of communication will probably soon be extended. From May 1, 1879, to April 1, 1880, 272,174 passengers were carried. The average daily number of patrons was 745. The officers of the company are: Samuel N. Bell, President; Frederick Smyth, Treasurer; James A. Weston, Clerk; and George W. Riddle, Superintendent.

☞ At the annual meeting of the Franklin Telegraph Co., held in Boston on the 2d inst., the following directors were chosen: E. D. Morgan, H. McK. Twombly, Augustus Schell, Samuel F. Barger, Norvin Green, John R. Duff, W. J. Syms, John B. Mortimer, A. B. Chandler. James G. Harris was re-elected clerk, and William H. Baker, treasurer.

☞ The gross earnings of the Philadelphia and Erie Railroad Company for the month of April, 1880, were $334,947 07, the expenses $198,812 23 and the net earnings $136,134 84. Net earnings for the four months of 1880, $432 281 10; four months of 1879, $268,676 47—increase, $163,604 63.

☞ A car tracing association has been organized, with headquarters at Buffalo, New York. Fourteen roads are already represented in the organization, which promises to be a very useful one, the object of which is to be able at any time to inform the officials of any road in the association the whereabouts of their cars and the mileage they are making.

☞ The annual report of the Cincinnati, Hamilton and Dayton Railroad states that the floating debt, which in 1877 amounted to nearly $700,000, has been paid. The interest on the bonded debt is reduced and the payment of dividends resumed.

☞ The Delaware and Hudson Canal Company are affixing Nunn's patent train signals to all their station buildings and switch boards in the northern railroad department.

Dining Room Car.

A dining room car, patented by W. J. Akers, of Wheeler, Russell & Co., is thus described by the Ohio State Journal:

The car is built of walnut and ash lumber principally. In the front part of the car is a lunch room. A dining hall is arranged in the middle of the car, and tables sufficient to accommodate forty persons, four at a table, are built on either side. The tables are made of ash timber, and also the seats, with bamboo bottoms. The castors are fastened on the sides of the car, a few inches above the table. In the rear part of the car are the pantry and kitchen. The latter is supplied with a range, and shut off from the pantry by means of a sliding door. The car is provided with two refrigertors and ice chest for meats and vegetables.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending May 29, as reported by the several carrying companies, amounted to 874,156 tons, against 594,139 tons in the corresponding week last year, a decrease of 219,982 tons. The total amount of anthracite mined for the year is 8,405,726 tons, against 9,456,443 tons for the same period last year, a decrease of 1,050,717 tons. The quantity of bituminous coal sent to market for the week amounted to 100,093 tons, against 74,040 tons in corresponding week last year, an increase of 26,053 tons. The total amount of bituminous mined for the year is 1,504,523 tons against 1,216,537 tons for the correponding period last year, an increase of 287,986 tons The total tonnage all kinds of coal for the week is 474,250 tons, against 668,179 tons in corresponding week last year, a decrease of 183,929 tons, and the total tonnage for the coal year is 9,910,249 tons against 10,672,980 tons to same date last year, a decrease of 762,731 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the fourth week of May was 143,392 tons, of which 108,374 tons were coal and 35,018 tons coke. The total tonnage for the year thus far has been 2,819,040 tons of which 2,099,139 tons were coal and 719,911 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ended May 29 were 50,710 tons, and for the year to that date 802,219 tons—248,805 tons over the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 21,482 tons, and for the year 561,232 tons, an increase of 209,240 tons over 1879. The shipments to the Chesapeake and Ohio Canal for the week aggregate 25,432 tons, and for the year 142,838 tons, a decrease of 2,366 tons as compared with last year. Shipments to the Pennsylvania Railroad for the week were 3,796 tons, and for the year 98,149 tons, an increase of 32,200 tons as compared with 1879. The canal shipments for 1880 show an increase over 1879 for the first time.—Phil. Ledger, June 7.

Coal Tonnage.

The leading coal carrying companies make the following reports of their tonnage for the year ending May 29, compared with their respective amounts carried to the same time last year :

	1880.	1879.
Reading Railroad	3,172,943	3,489,004
Schuylkill Canal	149,776	298,322
Lehigh Valley	1,980,970	1,844,698
Delaware, Lackawanna and Western	1,320,936	1,345,984
Shamokin	314,035	298,624
Central New Jersey	1,325,227	1,489,667
United Railroad New Jersey	396,119	359,941
Pennsylvania Coal	367,165	525,500
Delaware and Hudson	1,202,827	1,173,839
Huntingdon and Broad Top	206,809	131,985
Pennsylvania and New York	539,105	580,429
Clearfield, Pa	493,900	583,429

☞ A surveying instrument called the temnograph was exhibited at the annual reception of the Royal Society of London this spring. Its inventor is Mr. A. M. Rymer-Jones. The instrument is intended to be rolled over the ground, and it records the distance traveled, at the same time tracing upon a continuous sheet of paper a line from which all the levels may be accurately measured.

☞ The Carson and Colorado Railroad Company have begun the work of construction of the first 150 miles between Carson and Candelaria, Columbus mining district, Nevada. D. O. Mills, Nicholas Luning, William Sharon, and other large capitalists of California and Nevada, are the principal stockholders,

The Kerite covering of these Conductors unlike any other, resists effectually the destructive action of Heat and Moisture, and the corrosive agents either in Earth, Air or Water.

☞ Special orders should state whether the Cable is to be exposed to Earth, Air or Water.

FACTORY—SEYMOUR, CONN. Office, 120 Broadway, New York.

NEW YORK, LAKE ERIE & WESTERN RAILWAY

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almos 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

New York, Friday, June 18, 1880.

The Trouble with the Coal Roads.

BONDED TO FULL CAPACITY WHICH IS DOUBLE WHAT THEY EARN OR ARE WORTH.

Since the collapse of the Philadelphia and Reading Coal and Iron Co., and with it that of the Philadelphia and Reading Railroad, its other self, we have stated that the distrust engendered thereby was affecting badly the value of the stocks of all the coal roads, because they are all in the same boat and in the same position, varying only in degree, but we have not explained what those conditions were. It is found in the caption of this article. The trouble with the Reading was mismanagement and speculation on the part of its managers, as we have shown, and hence its more disastrous and speedy fall; but it is like all the other companies, except in degree, in the fundamental trouble with all the coal roads, namely, they are capitalized and most of them bonded even to their full capacity to earn returns while their capacity is nearly if not twice the ability of the country to consume anthracite coal.

To show this, we refer our readers to our bond tables and stock and mileage lists of these roads for a verification of our statement, and then they will be able to judge for themselves if our statement of the causes of their troubles is correct, and ergo our conclusions therefrom correct also. From these any one will be able to judge of the present and prospective value of their several securities. From the tables referred to, made up from the last report of the Philadelphia and Reading Railroad and Philadelphia and Reading Coal and Iron Co., we find—

Bonded debt of the road	$67,000,000
Floating debt of the road	11,500,000
Coal and Iron Co. bonds guaranteed by the Railroad	14,767,500
Total bonded and floating debt	$93,267,500
Capital stock of road	34,278,000
Total, less stock of Coal and Iron Co. held by Railroad but worthless, beside some $17,000,000 of its unissued bonds	$127,545,500
Annual interest on same, less $17,000,000 Coal and Iron bonds	$8,300,000
Annual net earnings, including unpaid indebtedness Coal and Iron Co	6,300,000
Annual net earnings, excluding loss of Coal and Iron Co. annually	2,150,000
Annual net earnings received by Railroad	$4,150,000

Thus it will be seen that the chief coal road in the past most favorable year in ten, only earned half its interest on its bonded debt, leaving out of all account $17,000,000 of Coal and Iron Co.'s bonds held by the road for money advanced on which it has never received interest, which would add $1,190,000 to the $4,150,000 deficit on the interest on the cost of the property of the two companies, or a total deficit of $5,340,000 against $4,150,000 earned.

As to the value of the property bonded for these amounts, the showing is no better. The Reading has 98 miles of main line and 228 of branches, with 763 miles of second track and siding, which is valued as follows: Railroad and realty, $30,513,089; 416 engines and rolling stock, $9,355,442—total value of road and equipment, $39,868,531. The same report gives its total assets at $68,859,752, leaving the difference to cover the Coal and Iron Company's property and equipment owned by Road, represented in its $17,000,000 bonds and Coal and Iron Co.'s stock, which is worthless and other securities pledged as collateral for floating debt, $28,981,201.

Should the plan proposed be adopted and the General Mortgage Sinking Fund for $60,000,000 of which $20,000,000 are outstanding, be foreclosed and wipe out all the Coal and Iron Co.'s indebtedness, leaving the holders of the latter company's bonds to take back the lands for which they were given and the improvements therewith, the property of the road would then simply be the roadbed, equipment and real estate valued in report at $40,000,000 in round numbers as lately stated by us against debts of $138,000,009 which would be reduced by foreclosure and riddance of the outstanding Coal and Iron Co.'s bonds, $15,000,000 in round numbers, to $113,000,000 for which the Philadelphia and Reading would still be originally liable with $40,000,000 at their own valuation to pay it. Of course foreclosure would wipe out $34,000,000 stock which would reduce the indebtedness to be paid out of the $40,000,000, to $79,000,000, which bears out our proposition in the caption of this article that some of these roads are bonded for double their value. Outside these the leases and guarantees of Reading are for millions more of obligations.

The Reading is of course the worst illustration of the condition of the coal roads since the Central of New Jersey was reorganized. But an examination of our tables will show that the other Coal roads are not in so much better condition in this respect except Central

of New Jersey which has been reorganized. It will thus be seen how much these stocks are worth hereafter as investment securities. Taking them next in order of importance as coal miners and carriers, for that is what is understood now by coal roads, one can see what is their financial condition in the order above indicated.

Lehigh Valley's bonded debt is per same authority $25,000,000; stock, $27,228,000; value of road, $14,647,000; rolling stock, $8,282,000. Main Line, 101 miles; Branch Line, 192 miles; second track and sidings, 346 miles; 235 engines; gross earnings, $5,532,000; net earnings, $3,075,000, of which $1,575,000 goes for interest, leaving $1,500,000 for dividends on $27,000,000 stock and bonds issued in excess of $25,000,000 and to pay guarantees and leases. This road makes a better showing from the fact that it is less a coal miner and more a coal carrier than the others, and yet the company's own valuation of this whole property is only $22,784,000 or less than either their bonded debt, $25,000,000, or stock of $27,000,000. Hence this conservatively and well managed road by comparison is capitalized for thrice the values of its property though it appears somehow to earn fair interest on this more than double capitalization.

Delaware, Lackawanna and Western's bonded debt is $5,888,100 on 115 miles main line, 92 of branches and 223 of double track and siding; stock, $26,200,000; gross earnings, $3,699,000; net, $2,320,000; Value of road $30,000,000, and 150 engines.

But to this should properly be added the Morris and Essex Railroad leased, its bonds and stocks guaranteed. Stock, $15,000,000; bonds, $20,000,000; earnings, $2,710,000; net earnings, $78,000; road and rolling stock, $30,000,000 on 84 miles main line, 36 miles branches, 205 of second track and sidings, with 111 engines. This gives a total of $25,888,000 bonded debt, $41,000,000 of stock, $6,409,000 gross, and $3,048,000 net earnings, for which the Delaware, Lackawanna and Western is holden for 7 per cent interest and guaranteed dividends for the amount of $2,870,000, against total net earnings of $3,048,000, leaving only $78,000 for other leases, guarantees, and interest on floating debt of $1,000,000 to $2,000,000, which leaves no dividend and none in prospect for its own stock of $26,000,000, now selling at 75 and 78, which at 7 per cent would require $1,820,000 more. This road is therefore, on its own showing, which is of course favorable, over capitalized $26,000,000 or earns $1,820,000 less than interest.

Delaware and Hudson: Capital, $20,000,000; its bonded debt, $19,300,000. Capital of leased and owned lines, $15,000,000; bonded debt, $23,500,000; mileage of all, 953; engines, 131; value of roads, $44,000,000 including canal; gross earnings exclusive of canal, $3,500,000; net earnings exclusive of canal $1,340,000. The last statement of this company showed about $600,000 loss on leased lines and on general balance sheet after failing to pay dividends on their $20,000,000 capital which added would make $2,000,000 short of making their interest, and shows a capitalization of nearly $30,000,000 in excess of their earning capacity, even in such a phenomenally good year as last for the coal and iron trade.

Here then we have outside of Reading's leases on some of which it has defaulted so as to make a computation of its earned and paid liabilities thereon, too doubtful to embrace in this calculation:

Over capitalization on part of Reading more than	$63,000,000
Over capitalization on part of Lehigh Valley more than	29,000,000
Over capitalization on part of Delaware, Lackawanna and Western more than	26,000,000
Over capitalization on part of Delaware and Hudson more than	30,000,000
Or a total for the four roads, excluding Jersey Central, of	$148,000,000

The condition of the debt of the Central of New Jersey is so changed by the reorganization that we are unable to give accurate figures in time for this issue, but doubt not it will furnish its proportionate quota to the above total.

CORRECTION.—We are satisfied that our information in our last issue relating to Morton, Bliss & Co. and a certain iron importing house in Pine Street was incorrect. The latter house have had no dealings with Mr. Lissberger, and Messrs. Morton, Bliss & Co. inform us they hold no indebtedness of the Pine Street firm. Our informant was one of the usually best reporters on the iron market, and as we had before tried him and not found him wanting we felt safe in publishing what we did in our last. But we most gladly make this correction in hopes of undoing all injury our former article may have done those named.

Baltimore and Delta Railway.

A mortgage to secure the issue of $600,000 of bonds, with six per cent interest coupons, of the Baltimore and Delta Railway Company, to Henry V. Archer and John S. Gittings and their survivors, has been filed for record in the office of the clerk of the Superior Court, at Baltimore, Md. The money is to be used for the construction of the road, which will run from Baltimore to Delta, on the Pennsylvania line. The property, franchises, revenues, &c., of the railroad are conveyed in the mortgage as security. The bonds are payable in the year 1910, and there are the usual provisions for taking possession of the road on default in the interest, and for selling it on one year's default in payment of principal and interest after due notice.

☞ Articles of incorporation of the Nevada and Oregon Railroad were filed at Reno on the 5th inst. The road runs from Aurora on the south to the Oregon line on the north. Reno will be its headquarters. Surveys will be made at once, and the work of construction pushed ahead. The directors are ex-Governor Woods, John T. Davis, Mr. Moore, Mr. McMeachan, Colonel Ellis, T. Coffin, J. C. McTarnahan—the last three named being residents of Nevada.

Cincinnati, Hamilton and Dayton Railroad.

The income of this company for the years ending March 31, 1879 and 1880 was as follows:

	1879.	1880.
From passengers	$328,041 02	$383,442 41
" freight	505,161 52	448,429 83
" mails and express	21,284 33	21,485 44
" rents	22,820 90	22,303 61
" miscellaneous	29,903 06	74,962 95
	$907,210 83	$950,924 24
Expenses:		
Transportation	$537,860 93	$513,464 06
Taxes	36,706 64	26,176 92
Interest on bonds	191,450 00	191,520 00
General interest		26,640 62
	$766,017 57	$757,801 60
Net earnings	$141,193 26	$192,822 64
Add net earnings from—		
Cincinnati, Hamilton and Indianapolis R. R		50,810 93
Dayton & Michigan R. R.		45,488 61
Cincinnati, Richmond & Chicago R. R.		12,356 75
Total		$301,478 93

The income from operations of the Dayton and Michigan Railroad during the year was $1,040,862 66; and the operating expenses were $629,427 96, taxes $42,693 86, interest on bonds $190,995, general interest $336 73, dividend on preferred stock $36,900, and dividend on common stock $35,021—total, $995,374 05, showing a profit to C., H. and D. R. R. Co., lessors, of $45,488 61.

The income from operations of the Cincinnati, Richmond and Chicago Railroad was $214,556 66; and the operating expenses were $155,124 91, taxes $3,918 15, interest on bonds $43,120, general interest $36 85—total, $202,199 91, showing a profit of $12,356 75.

The income from operations of the Cincinnati, Hamilton and Indianapolis Railroad was $372,773 04; and the expenses for operating were $312,150 83, taxes $9,811 28—total, $321,962 11, showing a profit of $50,810 93, applicable to payment of coupons due July 1, 1880.

The gross income from operations of all the roads was $2,578,816 60, viz: from passengers $837,335 75, freight $1,493,977 48, mails $32,993 21, express $50,134 87, rents $31,225 67, miscellaneous $133,149 52; the operating expenses were $1,610,167 76, taxes $82,599 71, interest on bonds $425,635, general interest $27,014 20, dividends Dayton and Michigan R. R. Co., as above, $131,921—total, $2,277,337 67, showing a profit for the year of $301,478 93; from which deduct dividend No. 86, C. H. & D. R. R. Co., $122,500, leaving a surplus of $178,978 93. The report says:

The net earnings of the C. H. & D. R. R., show an increase over last year of $51,629 38. In addition to this there has been added 70 new freight cars at a cost of $36,034 71, making the actual increase of net earnings $84,664 09.

The Dayton and Michigan R. R. shows a net earning of $45,488 61 as against a deficit of $51,949 47 last year, making a net gain of $97,438 08. In addition there has been added one first class passenger coach and 25 new freight cars, at a cost of $14,000, which makes the actual gain $111,438 08. This gain is attributable almost entirely to the increase in local business on the line of road caused by the general improvement in the country adjacent thereto. There has been expended

for real estate and permanent improvements at Lima and Toledo $29,066 85.

The Cincinnati, Richmond and Chicago R. R. road shows a net profit of $12,356 75 as against a loss of $9,738 18 last year, making the actual net gain $22,094 93.

The earnings of the Cincinnati, Hamilton and Indianapolis R. R. for the year show $50,810 93 towards the payment of interest, which if paid on the $1,800,000 of bonds—as contemplated in the future under the award of the arbitrators from January 1, 1880—would have left a deficiency of $75,189 07. Fifty new box cars were added during the year at a cost of $30,624 71, and charged operating expenses, which if taken out, would still leave a deficiency of $44,564 36. There was also charged expense account $27,328 18 for steel rails.

Since the last report the controversy between this company and the C. H. & D. R. R. in relation to endorsement of the bonds of the Cincinnati, Hamilton and Indianapolis R. R. Co. has been settled by arbitration, substantially in accordance with the proposition authorized by the stockholders of the C. H. & D. R. R. Co. at their annual meeting, June 10, 1879, and as fully set forth in the copy of the award of the arbitrators hereto annexed.

The 700 C. H. and I. bonds held by the company are in the Safe Deposit Company, subject to the conditions of the terms of the award of the arbitrators, awaiting the full execution of said award. No entries of this transaction have as yet been made in the accounts of the company. Up to the present time the holders of 1,336 out of the 1 800 bonds have accepted its terms, and the interest on such bonds, with all others assenting to said award will be paid on the 1st of July next.

The bills payable account as it appears on the Secretary and Treasurer's balance, shows as compared with March 31, 1879, a reduction of $286,528 90, leaving a balance at the end of the year of $13,185 48, not then due which has since been paid.

The company now owes no floating debt except $28,076 48 on account of its guarantee of interest on the Cincinnati, Richmond and Fort Wayne R. R. bonds, now in controversy in the United States Court, as to the legality of the obligation of this company.

The working of the pool with the I. C. & L. has been satisfactory, and has resulted, substantially, as was expected when the pool was made, The amount of earnings for the year was $44,429 27, as against $26,477 84 last year, and appertioned as follows, viz :

	Passenger.	Freight.	Total.
Cin., H. & Day.	$6,738 21	$2,066 60	$8,804 81
Cin., H. & Ind.	26 876 46	8,297 80	35,174 26
Cin., R. & Chi.	450 20	.....	450 20
	$34,064 87	$10,364 40	$44,429 27

The working of the pool between this company and the C. C. C. & I. Railway has been very satisfactory, and quite evenly divided, as during the three years and seven months of its existence, the actual excess is only $2,982 56 paid by this company to the C. C. C. & I. R. R.

The amount received from this pool for the year was $20,413 94, against $16,203 25 paid out last year, making a gain to this company of $36,617 19 viz :

Amount received on freight	$51,103 59
Amount paid on passenger	30,689 65
Balance	$20,413 94

The average rate per ton per mile on all the liner was 1,310 cents, against 1,398 cents the previous year.

The average rate per passenger per mile was 2.202 cents against 2,193 cents last year.

Passenger trains earned per mile run 1.074 cents against 1.08 cents last year.

Freight trains earned 2.25 cents against 2.27 last year.

Payment of the outstanding first mortgage seven per cent bonds, amounting to $1,242,000, maturing May 1, 1880, has been provided for by a sale, at par, of consolidated mortgage bonds having 26 years from October 1879 to run, and bearing interest at the rate of six per cent per year.

The directors are gratified upon being able to report to the stockholders the improved condition of this company. Its floating debt, which in 1877 amounted to nearly $700,000, has all been paid off; the credit of the company, which was then exhausted, has been fully restored; the interest on the bonded debt has been reduced, and dividends upon the stock have been resumed with good promise of continuance, and all the affairs of the company are in a prosperous condition.

The following is a statement of engines and cars owned by C., H. & D. and connecting lines, April 1st, 1880 :

	C.H&D.	D &M.	C.R.&C.	C.H.&I.	Tot.

President.—R. M. SHOEMAKER.

Vice President.—RUFUS KING.

Directors.—R. M. Shoemaker, Rufus King, Theodore Cook, J. N. Kinney, Henry Lewis, Preserved Smith, J. H. Rogers, L. B. Harrison, Martin Bare.

Secretary & Treasurer.—FREDERICK H. SHORT.

General Superintendent.—LEWIS WILLIAMS.

North River Railroad.

Samuel A. Strang, George W. Farlee, Theodore Houston, Conrad N. Jordan, Charles R. Flint, Jose F. Navarro, Charles J. Canda, Vincent P. Snyder, Robert Hyslop, William H. Carey and John W. Simpson, of New York, with Charles G. Hodge and Stephen A. Lathrop, of Passaic, N. J., are named as Directors of the North River Railway Company. The line will extend from a point near Fort Montgomery, Orange County, and on the line of the Jersey City and Albany Railroad to a point in the City of Albany. A branch will be constructed to some point in Schenectady, and another branch from near the Hudson River in Orange County to a point on the railroad of the New York, Ontario and Western Railway Company east of Wurtsborough, in Sullivan County. The capital is placed at $10,000,000, with power to increase.

St. Louis, Arkansas and Texas Railway,

Articles of association of the St. Louis, Arkansas and Texas Railway Company, of Missouri, were filed with the secretary of state in Missouri, June 4, capital $500,000—incorporators, James D. Fish, Jesse Seligman and Edward F. Winslow, of New York; Charles W. Rogers, Alexander Douglas and Alexander Graydon, of St. Louis: John O'Day and Charles E Harwood, of Springfield, Mo., and George A. Purdy, of Pierce City, Mo. Length of road about 35 miles, running from a point on the St. Louis and San Francisco Railway, in Barry County, to the southern boundary line of said county, dividing the States of Missouri and Arkansas, where it will form a connection with the Missouri, Arkansas and Texas Railway, of Arkansas, a railway which will be constructed from said point of intersection in a southwardly direction through the counties of Benton and Washington, in said State of Arkansas, to a point at or near Fayetteville, the object being to hereafter consolidate and merge said lines of railway and operate the same as one road and in one interest.

☞ Two railways have been begun with a view to reach the Atlantic coast through Maine—the Megantic, starting from Sherbrooke, on the Grand Trunk, and the Levis and Kennebec, starting from Point Levis, opposite Quebec. It is stated that the Megantic Company has purchased the Bangor and Pittsfield road, with a view to connect its line with it at Moosehead Lake, thence via the European and North American road to the province of New Brunswick. The Levis and Kennebec proposes to follow up the St. Lawrence and the Du Loupe rivers, via the Kennebec River and the Forks, and thence to unite with the Maine railroads at north Anson, and thence to Wiscasset, or to the eastern provinces via the Maine Central and European and North American railroads, as the public interest may demand.

☞ Among the principal orders received by Rieble Bros., for the week ending June 12th, is one for a number of Hopper Scales for a new Pacific Elevator, building in Brooklyn N. Y., the largest Elevator in the Country, several Furnace Charging Scales for the Lackawanna Iron and Coal Co., Scranton, Pa., also scales for the U. S. Mint, Phila. They are full of orders and the prospect ahead is good.

Illinois Central Railroad.

During the month of May the traffic on the lines operated by this company was:

In Illinois	$497,134 00
In Iowa (leased lines)	129,720 00
Total	$626,854 00

The traffic for the same month in 1879, on the same mileage, was:

In Illinois	$445,332 62
In Iowa (leased lines)	130,128 16
Total	$575,460 78

During May, 1880, the land sales were 1,840 99 acres for $10,203 08, and the cash collected on land contracts was $13,648 08.

NEW YORK, June 10th, 1880.

L. A. CATLIN, Secretary.

U S Notes held for redemption of certificates of deposit	12,815,000 00
Cash balance available June 1, 1880	161,667,339 96
	$206,613,516 97
Debt, less amount in Treasury, Jun. 1, 1880	$1,952,386,719 85
Debt, less amount in Treasury, on the 1st ult.	1,968,314,753 72
Decrease of debt during the month	$15,928,033 87
Decrease of debt since June 30, 1879	$74,820,516 52

BONDS ISSUED TO THE PACIFIC RAILROAD COMPANIES, INTEREST PAYABLE IN LAWFUL MONEY.

	Amount Outstanding.	Accrued Interest not paid.
Central Pacific bonds, 1862-64	$25,885,120 00	$647,128 00
Kansas Pacific bonds, 1862-64	6,303,000 00	157,575 00
Union Pacific bonds, 1862-64.	27,236,512 00	680,912 80
Central Branch Union Pacific bonds, 1862-64	1,600,000 00	40,000 00
Western Pacific bonds, 1862-4	1,970,560 00	49,264 00
Sioux City and Pacific bonds, 1862-64	1,628,320 00	40,708 00
Totals	$64,623,512 00	$1,615,587 80

Interest paid by United States, $45,651,155 94; interest repaid by transportation of mails, &c., $13,084,815 67; interest repaid by cash payments: 5 per cent net earnings $655,198 87; balance of interest paid by United States $31,911,141 40.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, May 31, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

Chicago and Northwestern Railway.

An advance statement from the forthcoming report of the Chicago and Northwestern Railway Company for the year ending May 31, 1880, gives the following figures:

	1878 79.	1879-80.
Passengers	$2,844,062 77	$3,278,150 14
Freight	9,924,030 47	11,923,279 32
Express	264,653 51	269,986 38
Mail	261,694 23	256,967 60
Miscellaneous	136,165 00	103,655 74
Total	$13,420,605 98	$15,832,039 18
Proprietary roads.	1,160,315 41	1,436,409 64
Grand total	$14,580,921 39	$17,268,448 82

—showing an increase of $2,411,433 20; including the proprietary roads, the increase is $2,687,527 43.

The earnings of the Des Moines and Minneapolis railroad and the Sheboygan and Western railway are not included in the above statement. It will be seen that of the $15,832,039 earned by the Chicago and Northwestern proper, aside from the proprietary lines, over 74 per cent was received from freight, and only a little over 20 per cent from passengers.

Philadelphia Stock Exchange.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, JUNE 17, 1880.

The Wall Street markets have been less active since our last, though generaly firm until the middle of the week, when there was a temporary reaction, and a recovery, and another reaction, each one being more feeble than the last and the market more stagnant, looking as if there had been a closing out of the hostile short interest or like the opposing sides resting on their arms for a time awaiting an advantage. There has been little else of importance, and no real radical change apparent in the situation.

Money has been easy at 2@4 on call. Sterling Exchange has been easier and more active under large supplies of Commercial bills from heavy shipments of breadstuffs, which we foreshadowed two weeks ago or more, for account of the Wheat Clique, under which our exports for the past week have risen to over $10,000,000, while on the other hand a large part of the imports, which are already large, go into bond instead of consumption and hence do not require sterling exchange to pay for. This accounts for dullness in Exchange.

Government, and investment railroad bonds have been steady and in fair demand, with speculative railroad bonds following stocks.

State bonds have shown no marked new feature and the whole market has ruled quiet. The bank statement was unusually favorable, the surplus being $11,000,000 greater than a year ago.

There were eighteen proposals to sell bonds to the government, aggregating $8,012,500. The

Secretary of the Treasury accepted $2,000,000 as follows:—E. Sweet & Co., $2,000 sixes, '80, 104⅞; $360,000 sixes, '81, 106.91 @106.94; $25,000 fives '81, 103.23. Musgrave & Co., $2,000 fives, '81, 103.30. Kuhn, Loeb & Co, $200,000 fives, '81, 103.20@103,29. Drexel, Morgan & Co., $60,000 sixes, '81, 106.99; $2,000 fives, '81, 103.30. Fisk & Hatch, $10,000 sixes, '80, 104.08; $300,000 sixes, '81, 106.92; $300,000 fives, '81, 103.23. L. Von Hoffman & Co., $6,000 sixes, '80, 104.86; $300,000 fives, '81, 103.18@103.22. Speyer & Co., $160,000 fives, '81, 103.24. Krohn & Schumacher, $55,000 sixes, '81, 106,91; $10,000 fives, '81, 103.27. First National Bank, $68,000 fives, '81, 103 30. E. S. Boline & Co., $20,000 fives, '81. 103.27.

With the advance in Cleveland and Pittburg and Pittsburg, Fort Wayne and Chicago, leased to the Pennsylvania R. R., the Columbus, Chicago and Indiana Central mortgages and incomes go up. The incomes are 40⅞, and the bonds 87½ per cent. The impression on the street is that the lessee—the Pennsylvania R. R.— has settled with the Columbus, Chicago and Indiana Central Road. If not now true it will have to come to this end. The settlement ought to have been quietly made six or eight years ago.

The managers of the Elevated Roads are just now feeling very fine. Both roads have made 2½ per cent quarterly dividends, which they will pay July 1, and the Metropolitan will sell a second mortgage on favorable terms. The Manhattan Elevated stock, connected with both roads, advances 4@5 per cent this week.

Commercial like financial markets have ruled much like the week before, except that the clique have continued to ship out wheat more freely, in view of approaching harvest which is already upon them in the Southern and Middle States, with large crops again. Hence the tendency has been downward again on all breadstuffs, while provisions have been continually strengthening. Cotton has been dull on another large and forward crop. Ocean freights have been higher on an active demand from the Wheat Clique.

At a regular meeting of the Governing Committee of the Stock Exchange on the 9th inst. the following securities were admitted to the list:

Texas and Pacific Railway Company. (1.) Stock to the amount of $6,173,400, held in trust in the names of Frank S. Bond, Alfred Gaither and W. T. Walters, surviving trustees, who have issued to the owners certificates representing their respective interests in the shares so held in trust, the trust to cease on October 1 next. This stock will be dealt in on the Exchange in the shape of the trust certificate. (2.) First mortgage 6 per cent gold construction bonds, issued and to be issued on the Rio Grande Division to the amount of $15,400,000, at the rate of $25,000 per mile, as 616 miles of road between Fort Worth and the Rio Grand River at El Paso are constructed and put in operation. The bonds are dated January 20 1880, and are payable on February 1, 1930, and in addition to their being a first lien on the road, they are secured by a mortgage upon any land script and lands which may be acquired from the State of Texas by the construction of that division of the road. The present amount admitted is $5,000,000.

Danbury and Norwalk Railroad Company. Stock to the amount of $600,000 out of a total authorized issue of $1,000,000, in shares of $50 each. The company operates a road extending from Danbury to South Norwalk, Conn., twenty-three miles, with ten miles of branches. The bonded debt is $500,000, bearing 7 per cent interest, but there is no floating debt. The gross earnings for the year ending April 1, 1880, were $181,409.

Denver and Rio Grande Railway Company: (1) Stock to the amount of $16,000,000. (2) First consolidated mortgage 7 per cent bonds to the amount of $8,475,000. The company now has 337 miles of road in operation, with 565 miles in course of construction. The total authorized issue of stock is $30,000,000, and of the consolidated bonds $30,000,000. The bonds are intended to take up $6,882,500 first mortgage 7 per cent bonds, covering 391 miles from Denver to Elmoro and Alamosa and $1,040,000 first mortgage 7 per cent bonds on the Arkansas Valley Division, the remainder of the issue to be used for purposes of new construction with the lien limited to $15,000 per mile. The bonds are payable in thirty years and have the benefit of a sinking fund. The net earnings of the 337 miles of operated road for the six months ending December 31, 1879, were reported by the receiver at $396,724. The gross earnings under the company's own management since January 1, 1880, have been as follows: January, $124,090; February, $109,280; March, $168,180; April, $165,250; May 1 to 14, $81,230. Total, $648,030.

Cincinnati, Indianapolis, St. Louis and Chicago Railway Company: (1.) Stock to the amount of $4 000,000; (2.) Consolidated 6 per cent mortgage bonds, to the amount of $1,000,000, payable May 1, 1920. The total authorized issue is $7,500,000, it being intended to exchange the consolidated mortgage bonds for the following divisional bonds: Indianapolis and Cincinnati bonds of 1858, $1,600,000; Cincinnati and Indiana bonds of 1862, $499,000; Cincinnati and Indiana bonds of 1867, $1,501,000; Cincinnati and Indiana funded interest bonds, $44,000; Indianapolis, Cincinnati and Lafayette, 1867, $2,800,000; Indianapolis, Cincinnati and Lafayette funded interest bonds, $79,000; Indianapolis, Cincinnati and Lafayette equipment bonds, $365,000; total, $6,885,000; Consolidated bonds sold $615,000; total new issue, $7,500,000. The company's road extends from Cincinnati, O., to Lafayette, Ind., a distance of 179 miles; its floating debt is $450,000. The directors are Messrs. Thomas H. Perkins, George Bliss, Charles G. Landon, Thomas A. Morris, John King, Jr., George Hoadley. S. J. Broadwell, Hervey Bates, Thomas D. Yessler, C. W. Short, George Willshire, M. E. Ingalls and Thomas H. Sharp.

St. Louis and San Francisco Railway Company—First mortgage sinking fund equipment bonds, to the amount of $1,000,000, payable June 1, 1895, and bearing 7 per cent interest.

The closing quotations on Thursday were: Atlantic and Pacific Telegraph, 39½@40¾; Burlington, Cedar Rapids and Northern, 60@61; Canada Southern, 54¼@54½; Central of New Jersey, 60⅜@60½; Central Pacific, 69@—; Chicago and Northwestern, 92@92⅛; do. pref., 107¾@108; Chesapeake and Ohio, 17½@18; do. 1st pref., 24 @26; do. 2d pref., 18½@20; Chicago, St. Paul and Minneapolis, 51½@52½; Chicago, Milwaukee and St. Paul, 75½@75⅝; do. pref., 102½@104; Chicago, Rock Island and Pacific, new, 102 @102¼; Chicago and Alton, 107¾@108¼; do. pref., 124@126; Chicago, Burlington and Quincy, 117¾@118; Chicago, St. Louis and New Orleans, 27½@28½; Cleveland, Columbus, Cincinnati and Indianapolis, 68@70; Col., Chicago and Indiana Central, 15½@15¾; Delaware and Hudson Canal, 69½@70; Delaware, Lackawanna and Western, 75⅝@75¾; Hannibal and St. Joseph, 33½@33¾; do. pref., 73¼@73⅝; Houston and Texas Central, 62½@64; Illinois Central, 103@104; Lake Erie and Western, 26¼@26½; Lake Shore and Michigan Southern, 103¾@104½; Louisville and Nashville, 120¼@120½; Michigan Central, 87¼ @87⅝; Morris and Essex, 103½@104; Manhattan Railway, 33¾@34; Metropolitan Elevated, 101@101¾; New York Elevated, 115½@118; New York Central and Hudson River 125¾@126; New York, Lake Erie and Western, 36⅞@37; do. pref., 59@59¼; New York, Ontario and Western, 28@28¼; Northern Pacific, 25⅝@26; do. pref., 47@47½; Ohio Central, 18¼@19; Ohio and Miss. 28¾@28⅞; do. pref., 70½@72½; Pacific Mail, 38⅛@38⅝; Panama, 176@185; Philadelphia and Reading, 17⅞@18; St. Louis and San Francisco, 33@33½; do. pref., 44½@45¼; do. 1st pref., 66½@68; St. Louis, Iron Mountain and Southern, 44⅜@44¾; St. Paul and Sioux City, 39@40; do. pref., 74@75; St. Louis, Alton and Terre Haute, 15@17; do. pref., —@60; Union Pacific, 89@89¼; Western Union Telegraph, 104⅛@104⅝; Wabash, St. Louis and Pacific, 34½@34⅞; do. pref., 63@63⅜.

The following quotations of sales of Railway and other securities, for the week, are in addition to those given elsewhere in our columns:

New York.—Am. Dock and Imp. bonds, ass., 106; Buffalo and Erie 7s, new, 118; Boston and New York Air Line, 43; Boston, Hartford and Erie 1st, 38½; Chicago, St. Louis and New Orleans, 28; do. 1st consol., 106; Chicago, St. Paul and Minn., 51¾; do. 1st, 102¼; do. L. G. inc., 100; Chicago and Eastern Illinois 1st, 98; Chesapeake and Ohio 1st pref., 25¼; do. 1st, Series B, 64; do. cur. int., 37; Col., Chi. and Ind. Cent. 1st, Trust Co. certif. ass. 87; do. inc., 38½; Central Iowa 1st, 100; Clev., Col., Cin. and Ind. consol., 112½; Chicago, Milwaukee and St. Paul 1st, S. Minn. Div., 102½; Cairo and Fulton 1st, 100; Denver and Rio Grande 1st, 101¾; Delaware and Hudson 1st, Penn. div., 113; East Tenn., Va. and Ga. 1st, 109; Houston and Texas Central 1st, Inc. and Ind., 24; do. Waco and N. W. div., 107½; Ind., Bloom. and Western, 30½; do. 1st, 73⅞; do. inc., 50; International and Gt. Northern 1st, 99; do. 2d pref. inc., 33½; Indianapolis, Decatur and Springfield 1st, 98½; Joliet and Chicago 1st, 108⅛; Kansas Pacific 1st consol., 94; do. 6s, J. & D. 1896, with coupon certif., 115; do. 6s, Denver Div., ass., with coupon certif. 104¼; do. ex-coupon, 96; Keokuk and Des Moines 10; do. 1st, 95½; Louisville and Nashville 2d, 103⅜; Lake Erie and Western, 25⅞; do. 1st, 101½; do. inc, 55; Lehigh and Wilkesbarre consol. ass., 92½; Louisiana and Missouri River 2d, 100; Laf., Bloom. and Muncie 1st, 99; Marietta and Cincinnati 1st pref., 8¾; do. 2d pref., 6⅛; Missouri, Kansas and Texas, 34; do. consol. ass., 105; do. 2d, 60; Mobile and Ohio, 17; do. 1st 100; do. 1st deben., 71; do. 3d deben., 30; do. 1st mort., 100; Michigan Central 8s, 109; do. 6s, 1909, 108½; Minneapolis and St. Louis 101; New York, Ontario and Western, 28; Nashville, Chattanooga and St. Louis, 57; Nevada Central 1st, 98¾; Oregon Railway and Nav., 112; do. 1st, 95¼; Ohio Central, 19; do. 1st, 90; do. inc., 44; Ohio and Mississippi 1st, Springfield div., 80; Peoria, Decatur and Evansville, 22; do. 1st, 109; do. inc., 58; Rome, Watertown and Ogdensburg, 24; do. 1st consol., 61; Rensselaer and Saratoga 1st, 128; St. Paul and Sioux City, 89¾; do. pref., 74; do. 1st, 101⅞; St. Louis and

☞ The Pittsburgh and Southwest Virginia Railway Company have filed their articles of incorporation in the office of the Secretary of State of West Virginia. The company is formed for the purpose of constructing, building and running a railroad from the line of the States of Pennsylvania and West Virginia, in the county of Monongahela, in West Virginia, and in the counties of Preston, Marion, Taylor, Barbour, Randolph, Pocahontas, Greenbrier, Summers, Mercer and Monroe, to reach the line of the State of Virginia.

Canadian Railways.

The Ontario Free Press gives the following statistics of capital, traffic and working expenditure of the Railways of the Dominion for the year ending June 30, 1879 :

	Miles.
Railways in actual operation	6,484.51
Railways under construction, portions of which are completed and track laid	592.83
Under construction	945.90

Of the foregoing number of miles of railway in operation at the date named the leading lines had

Grand Trunk	1,390 25
Great Western	902 46
Intercolonial	714.00
Canada Central	162 50
Canada Southern	226.60
Hamilton and Northwestern	148.50
Quebec, Montreal and Occidental, Western Division	137.08
Quebec, Montreal and Occidental, Eastern Division	208.00
New Brunswick	191 00
New Brunswick and Canada	120 00
Northern	164.00
Prince Edward Island	198 50
Quebec Central	102.50
Toronto, Grey and Bruce	191.00

The capital raised for the railways of the Dominion on the 30th June, 1879, was as follows :

Ordinary share capital	$128,615,865 60
Preference capital	69,059,187 87
Bonded debt	81,151,627 93
	$278,826,181 40

Of the total mileage, 3 177¼ were laid with iron rails and 3,813¾ with steel rails.

The earnings of the railway for the year ending June 30, 1879, were :

Passengers	$6,459 598 12
Freight	12,509,093 72
Mails, express, &c	789,926 11
Other sources	166,448 32
Total	$19,925,066 27

☞ The U. S. Circuit Court, at Pittsburg, Penn., has granted an order empowering the officials of the Philadelphia and Reading Railroad and the Philadelphia and Reading Coal and Iron Companies to sign and execute all papers necessary to conduct the business of the corporation when requested by the receivers and approved by the masters.

☞ The directors of the George's Creek and Cumberland Railroad Company, recently elected, are : Henry Loveridge, G. P. Bangs, Garliner P. Lloyd, Sidney Wintringham, C. S. Dana, George L. Kingsland and Albert J. Akin. Rails for this road are purchased, and the laying of them has been commenced.

☞ A patent has been issued to W. S. Rogers, a brakemen on the Pittsburg, Cincinnati and St. Louis Railway, for a Combination Signal Lantern, which answers for a red, a green and a white light, and is no more cumbersome or inconvenient to handle than is a common lantern.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Springfield and Clinton Railroad Company, termini Springfield station, Summit county, and the village of Clinton in the same county.

Capt. Ericsson's New Motor.

Capt. John Ericsson, the mathematician and inventor, has recently perfected and patented a caloric pumping engine of very curious and novel construction, which is claimed to furnish the final solution of a question of the utmost practical difficulty in hydraulic engineering. The question of raising a column of water of given diameter to the surface is a very simple one to the hydraulic engineer; but in modern life—city life in particular—it is frequently required to fill large tanks at a height of 50 or 75 feet above the surface. In manufactories the volume of water to be raised to such a height sometimes exceeds 200 gallons per hour, and in private dwellings the volume necessary for domestic purposes is often very considerable. Two motors have (exclusive of manual labor) been hitherto employed for the purpose of working force-pumps of greater or less capacity. One of these is the windmill, which, while taking advantage of a source of power that costs nothing, requires considerable ground space for the turret upon which it must be mounted, and is liable to be completely shattered by a high wind. If well constructed, such a motor costs not less than $1,000 for the engine itself and the necessary appurtenances, and is not very desirable when completed. The steam engine is not very costly, and is sufficiently durable and efficient, but it requires the services of a competent, licensed engineer, and is hence not practicable for private dwellings or persons of moderate means, to whom $50 a month is a consideration.

The principle upon which the Ericsson motor is founded is that of the alternate contraction and expansion of a given volume of air, confined in a cylinder and subjected to rapid alternations of high and low temperature. The heat may be supplied by a 15-foot gas burner, by a small furnace, or, for an engine capable of light work in a laboratory, by an alcohol lamp. A cylinder cast in a single piece, without valve or other such complication, is mounted in an upright position upon an iron stand, (or a pretty brass one, if the taste of the buyer prefers.) Into the top of this cylinder is fitted a piston, working air-tight, which closes it hermetically, and thus confines a given volume of air. It is obvious that where heat is applied to the bottom of the cylinder, the volume of air thus imprisoned will expand and lift the piston with great force to a height commensurate with the expansion. If, after having lifted the piston to a certain hight, the confined volume of air is suddenly cooled, it contracts to its normal proportions, and, unless the piston descends to compensate for the contraction, a vacuum will be created. In point of fact, the piston returns to its original position by external pressure of the atmosphere; and thus, while the expansion of heated air furnishes the power for the upward movement, atmospheric pressure furnishes the power for the downward. The two movements, when applied upon the ordinary principles of engineering, are equal to one revolution of the balance-wheel of a stationary engine, or of the driving-wheels of a locomotive. The play of the piston in the air cylinder is something less than one-third of the distance from the top to the bottom, so that when it actually comes to rest at its lowest point, about two-thirds of the interior is occupied by air, upon which the face of the piston rests as upon an elastic cushion.

When the expansion of the heated air has lifted the piston, the next question is to reduce its temperature surely, instantaneously and effectually, without withdrawing the source of heat from beneath. A simple but ingenious contrivance accomplishes this purpose with automatic regularity and certainty. For about one-third of the distance from the top—the section through which the piston moves—the cylinder is provided with a water-jacket, which retains it at normal temperature. When the piston is at its lowest, this cooling surface is not liable to the contact of the heated air. As the piston rises a larger and larger area of cooling surface is exposed; but this would not be sufficient in and of itself to reduce the temperature materially, with the confined air still in contact with the highly-heated bottom of the cylinder. To obviate this difficulty, a plunger not in contact with the internal surface, but of smaller diameter than the piston, moves up and down in the air space—descending as the piston rises, ascending as it falls, so that when the latter has been lifted to its highest point, the former has descended to its lowest, is in contact with the heated base, and has displaced the lower stratum of air from contact. Thus, exposed to cooling surfaces at all points, it contracts as suddenly as it expanded, resumes its normal volume, and the piston returns to its original position to prevent vacuum. But as the piston falls the plunger rises, the confined air is again exposed to the intensely-heated surface at the bottom, and expands as suddenly as it had previously contracted. The handle of the plunger works within the handle of the piston, and is operated by means of a series of ingeniously-contrived levers, without gearing or complex devices of any kind. When once the gas is lighted beneath and the engine is in motion, no attendance whatever is required. It will work on for hours, days or weeks without the slightest attention from anybody. Light the jet beneath, and in about two and a half minutes it begins to move, and only stops when the gas has been turned off for three or four minutes. Although exerting tremendous power, the motor is almost perfectly noiseless—no tugging and puffing, no grating of cogs or concussion of surfaces. The eye sees the work done, but the ear is scarcely aware of what is going on. When the motor is used for pumping, the pump is screwed firmly to an iron arm projecting from the cylinder, forcing the water through the jacket encircling its upper section, and thence through a pipe leading to the tank or other receptacle. An ingeniously-contrived air-cushion obviates all concussion from the movement of the water, and renders the pump as silent in its action as the motor itself.

The work of this little engine, not more than 4 feet high, table and all, and occupying a floor space of 39 by 20 inches, has been accurately measured by experiment in the houses of Mr. Delamater, of the Delamater Iron Works, and of Mr. Baldwin, the banker, who lives at Huntington, Long Island. With an 8 inch air-cylinder it pumps 350 gallons an hour against a head of 50 feet—that is, lifts 350 gallons of water per hour to a height of 50 feet. The consumption of gas is 15 feet per hour. With the same consumption of gas the 6-inch calibre engine is capable of pumping 200 gallons an hour to the same height. Five hundred gallons an hour have been raised 30 feet. The pipe used for discharge is one 2-inch calibre; so that a column of water 50 feet high weighs about 75 pounds.

One would naturally infer that an engine substituting atmospheric pressure for expansion, or vice versa, at each revolution of the balance would work with a slow, hesitating, irregular movement. The reverse, however, is true. The stroke of the piston is extremely even and steady, when the motor is moving slowly, and when in rapid action it is as decisive and powerful as that of a steam-engine. From 30 to 40 revolutions per minute is the rule with a consumption of 15 cubic feet of gas per hour. The second point, and one that has been urged by competent engineers, is that, as the water passing through the jacket has to absorb the heat of the confined air once during every revolution of the wheel, it must necessarily be warmed during its passage. Experiment has shown that this is not the case. On the contrary, the most delicate medical thermometer is unable to detect the rise in temperature in passing through the jacket. The jacket has four times the capacity of the pump, which makes about 30 strokes per minute. The heat absorbed is consequently equal to application of a 15-foot gas burner to about one gallon of water for the space of eight seconds. Of course, ordinary experience, independent of special test, would indicate that the absorption under such conditions must be too infinitesimal to be measured by instruments of no more than standard delicacy.

Chesapeake and Ohio Canal.

At a meeting of the stockholders of the Chesapeake and Ohio Canal Company, held at Annapolis, Md., on the 7th inst., the following gentlemen were elected directors: President, A. P. Gorman; directors, Col. Jas Berrett, M. Bannon, John Humbird, P. Hamill, H. D. Farnandis, Thos. P. Morgan.

From the report of the President and directors, which was presented, we learn that the receipts for the year ending December 31, 1879, were:

From tolls	$199,534 84
From wharfage and trimming of boats at Cumberland	24,011 46
From water rents	5,271 25
From rent of houses and lands and miscellaneous sources	4,650 52
Total receipts from all sources other than from loans and sale of bonds	$233,467 57
Amount expended during the year for pay of officers, ordinary and extraordinary expenses, was	222,141 96
Leaving the sum of	$11,325 61

The decrease in the revenue of the company for the year, compared with the previous year is $55,545 60. The decrease in revenue from tolls as compared with the year 1878 is accounted for by the fact that the coal tonnage during the year 1879 was only 522,904 tons, while for 1878 it was 594,241 tons, showing the decrease to have been 71,337.

The report also shows that the balance in the treasury January 1, 1879, was $43,145 24. The ordinary receipts from all sources were $233,467-

57, received from the sales of the repair bonds of $1,000 each, $10,000. Total receipts from all sources, including the loan of $15,000 from the Second National Bank of Cumberland, were $301,612 81.

The report states that the canal from Cumberland to Georgetown is unquestionably in better condition than it has been for years. Every part of it damaged by the flood of November, 1877, has been throughly repaired and strengthened, and its navigation is now more reliable than it has been at any time since it was constructed.

During the year the canal has paid on account of the purchase money of the Basin wharf at Cumberland the sum of $11,306 60, making a total payment on purchase of $25,306 60. The cost of operating the wharf and repairs during the year was $12,298 72. The total tonnage from January 1, 1880, to May 31, 1880, was 149,117 tons; an increase as compared with 1879 of 5,935 tons.

The rate of tolls charged during the present year is 51 cents for the whole distance from Cumberland to Georgetown, and 4 cents wharfage. The revenue accrued from tolls and rents has been $95,097 81.

The President and directors promise that, with the increased tolls charged and the probable increase in the tonnage, the revenue of the company during the present year will not be less than $200,000.

Privilege of Membership at the Stock Exchange.

In the Court of Common Pleas, this city, on the 12th inst., Judge Van Hoesen decided that a seat in the Stock Exchange is not property that may be levied upon by execution. This decision is opposed to decisions in the Superior Court and the United States District Courts. The opinion of Judge Van Hoesen is in the case of the Grocers' Bank against Richard G. Murphy. The bank obtained a judgment against Murphy last Winter, and on Feb. 18, an execution was issued against the judgment debtor's property. At the same time a demand was made upon Murphy to assign his seat in the Stock Exchange to the bank, that it might be sold to satisfy the judgment. Murphy refused to surrender his seat, and claimed that it could not be levied upon. In his opinion, passing upon this question, Judge Van Hoesen says:

"A seat in the Exchange does not fall within any of the classes in which the subjects of property are divided in the Civil Code. It is not capable of manual delivery or appropriation; it is not a domestic animal; nor an obligation; nor a product of labor and skill; nor a right created by statute. * * * The advantages of membership (in the Exchange) are very important, and of great value to their possessors, and from that consideration an argument has been drawn that the seat to which they are incident may be sold by the officers of the court. There is no doubt that if membership in certain clubs were put up at auction a very large bonus could be realized by members disposed to retire. But few would contend, therefore, that the privilege of social enjoyment afforded by the Century, the Union, or the Union League Clubs was subject to legal process. A distinction has been drawn between membership in the Stock Exchange and membership in a social club in view of the fact that the former was organized for business purposes, and that in withdrawing is permitted to get back the money which he paid on acquiring his seat. I fail to see the force of this distinction. Whether the club be formed to aid business, or to promote pleasure, the privilege of membership is attached to the person of the individual."

Judge Van Hoesen, therefore, holds that the defendant Murphy did not act wrongfully in refusing to assign his seat in the Exchange to his judgment creditor, and denies the motion of the plaintiff for an order to compel him to make such an assignment. Messrs. Ten Broeck and Van Ordin appeared for the Grocers' Bank, and Messrs. Arthur, Phelps, Knevals, and Ransom for the defendant, Murphy.

Mining.

A General Press dispatch says: The earnings of the Sutro Tunnel from the Comstock mines for the month of May were $53,290. The progress for the month of May in the north lateral was 321 feet, and in the south lateral 315 feet.

During the week ending June 7, 430 tons of ore were shipped from the Chrysolite. During the same period 1,060 tons (previous delivery) were paid for by smelters. The amount of ore unpaid for at the date of the report was 834 tons. The amount received from smelters was $66,607 59. There were shipped Saturday last ninety-four tons.

Messrs. Lounsbery & Haggin are in receipt of $109,000 in gold, the combined product of the Deadwood, Homestake, and Golden Terra mines for the latter half of May.

Shipments on Friday and Saturday from the Little Chief amounted to 286 tons. The superintendent reports that the mine is looking finely.

The Homestake Mining Company has declared its regular monthly dividend of Thirty cents per share for May, payable June 25 at the office of Wells, Fargo & Co., No 65 Broadway.

The final shipment on May account was received from the Consolidated Virginia on the 3d instant, and amounted to $80,000. The total for the month is as follows: gold, $127,310; silver, $78,468; total, $205,778. The large percentage of gold is noteworthy. Recently the ore assayed from $40 to $70 per ton, which is much above the average of several previous months.

The Little Chief Mining Company has declared its usual monthly dividend of $100,000 or 1 per cent on the capital stock ($10,000,000), payable at the office of the Mining Trust Company June 23. Transfer books close June 19, and re-open June 24.

A telegram received from the Manager of the Little Chief says: "Closed all May accounts June 8. Ore receipts $159,000. June ore shipments up to the 15th inst., nearly 1,600 tons, which will net more than $75,000. Remitted $25,000 on the 8th. Seventy-five thousand dollars gold forwarded to-night. This completes dividend money cleanly earned."

☞ A party of engineers in the employ of the Central Pacific Railroad Company, and under the lead of Col. Bates, are in the Walla Walla valley, Washington Territory, examining the country and mountains for railroad routes and passes.

☞ At the recent meeting of master mechanics, in Cleveland, the muffling devices, so called, were all pronounced objectionable as making the safety valves unreliable in their operations, the only safe and satisfactory remedy being that of a blow-back valve, by which no steam escapes into the air at all, but is conducted silently and invisibly to the tender of the locomotive. This noiseless system of boiler relief received the endorsement of the convention.

Canton Company.

At the annual meeting of the Canton Company, held in Baltimore on the 9th inst., the following gentlemen were elected directors for the ensuing year: Abm. B. Baylis, L. Von Hoffmann, James B. Colgate, George F. Stone, of New York city; George S. Brown, Wm. H. Graham, Wm. G. Harrison, Chas. Weber, W. B. Brooks, of Baltimore. The officers are as follows: President, W. B. Brooks; Vice-President, W. H. Graham; Secretary and Treasurer, W. W. Janney.

The report of the Canton Company for the year ending May 31, 1880, showed receipts and disbursements as follows: revenue, $82,912 53; bills discounted, $29,248 53; from Union railroad, $82,000; balance May 31, 1879, $23,364 23—total, $217,525 09. Expenses—repairs to railroads and wharves, salaries, taxes, &c., $29,502 75; real estate purchased, $2,035; bills payable, $29,783 05; rebates to Northern Central Railway, $18,616 05; interest, &c., $99,785 84—total, $179,722 69. Balance May 31, 1880, $37,802 40. Permanent leases made the past year aggregated $4,130 per annum; temporary leases, $3,540. Of these $4,000 were to the Northern Central and $2,500 for water frontage. The real estate sales were unimportant.

The report of the Union Railroad Company, Wm. G. Harrison, president, showed as follows: revenue, $244,315 45; disbursements, (including transportation, repairs, steel rails, &c., $55,214 31. The railroad moved 87,614 cars, of which 46,881 were loaded with grain, 8,303 with petroleum, 8,631 with coal, 6,681 with ore, 338 with timber, 121 with whiskey, 307 with stock, 1,553 with railroad materials, and 14,836 with miscellaneous articles. The report of the railroad company made one year ago showed a revenue of $173,899 14; disbursements, $29,471 23.

Manitoba and South Western Railway.

One of the most promising of recent enterprises in our Prairie Province is the Manitoba South Western Railway, which, starting from Winnipeg is to run in a south-westerly direction to the province line. Surveys have been made and the road approximately located, a distance of 285 miles. The road will pass through a rich agricultural country, the newly surveyed Turtle Mountain district, and thence to the Souris coal fields, which are assuming added importance since it is demonstrated that the lignite can be carried down the Souris River on flat boats 140 miles to its junction with the Assiniboine. The bridge now being built across the river at Winnipeg by the city is to become the property of this railway so soon as its first fifty miles of track are laid; the Company already owns a plot of land in the city containing a passenger station and shops, at present leased to the Canada Pacific Railway. Work is expected to be begun on the road bed in July, very satisfactory advices having been received from the Company's agent, now in England, as to financial arrangements.—[Toronto Monetary Times.

☞ The Texas and Pacific Railway Company has inspected and accepted forty miles of the extension west of Fort Worth, and authorized the issue of 1st mortgage bonds therefor.

Western Union Telegraph.

In the Report presented by the Executive Committee at the last quarterly meeting of the Board, held March 10, 1880, the net profits for the quarter ending March 31 (February being partially and March wholly estimated), were stated at $1,325 071 41.

The official returns for the quarter (ended March 31) showed the profits to be $1,227,553 96, or $97,517 45 less than the estimate, but $296,229 11 more than for the same quarter of the year previous.

The following revised statement, based upon complete returns, will show the condition of the company at the close of the quarter ended March 31, 1880:

Surplus January 1, 1880, as per last quarterly report		$1,107,927 51
Net profits, quarter ended March 31, 1880		1,227,553 96
		$2,335,481 47
From which deducting—		
Dividend 1¾ per cent, paid April 15, 1880	$717,570 00	
Interest on bonded debt	107,200 00	
Sinking fund appropriations	20,000 20	
Construction account	253,044 02	
Purchase of patents	263,272 00	
Purchase of telegraph stocks	106,798 31	
Real estate	43,298 35	
		1,511,182 88
Leaves a surplus, April 1, 1880		$824,298 59
The net profits for the quarter ending June 30, instant, based upon official returns for April, nearly complete returns for May, and estimating the business for June (reserving amount sufficient to meet the claims of the Atlantic and Pacific Telegraph Company, under existing agreements), will be about		$1,201,185 73
Add surplus, April 1, as above		824,298 59
		$2,025,484 32
From which appropriating—		
Interest on bonded debt	$107,200 00	
Construction	250,000 00	
Sinking fund appropriations	20,000 00	
Patents	110,000 00	
Sundries	10 000 00	
		497,200 00
Leaves a balance of		$1,528,281 32
A dividend of 1¾ per cent requires		717,570 00
Deducting which, leaves surplus, after dividend, of		$810,714 32

The present quarter closes the fiscal year, and shows an increase of over $1,600,000 in gross and $1,060,000 in net earnings, over the previous year, ended June 30, 1879.

The net profits for the year will be about $5,300,000 (over 11¾ per cent on the capital stock after deducting fixed charges for interest and sinking fund), out of which eight per cent in cash dividends will have been paid to stockholders, and $1,543,000 invested in new property, with an increase of about $40,000 in the surplus over that of July 1, 1879.

The outlays for new property required by a largely increased business have been unusual in amount, involving extensive constructions and purchase of Telephone Exchange properties, and to increase the facilities of the company for telegraph service, over 3,500 miles of new pole line and 24,500 miles of additional wires have been constructed, a great proportion of the wire being of larger size than ever before used in this country, especially adapted to quadruplex use.

In view of the preceding statements, the committee recommend the adoption by the Board of the following:

Resolved, That a dividend of one and three quarters per cent from the net earnings of the quarter ending June 30, 1880, be, and is hereby declared payable on the 15th day of July next, to stockholders of record, at the close of business on the 19th day of June, instant.

Resolved, That for the purpose of such dividend the stock books of the company be closed at three o'clock on the afternoon of the 19th day of June, instant, and be reopened on the morning of the 16th day of July next.

Respectfully submitted,

NORVIN GREEN, President.

New York, Lake Erie and Western R. R.

The gross earnings, working expenses and net earnings of the New York, Lake Erie and Western Railroad for the month of April, 1879 and 1880, were:

	1879.	1880.
Gross earnings	$1,372,756	$1,643,151
Working expenses	964,455	962,828
Net earnings	$408,301	$680,323

—showing an increase in gross earnings of $270,395, with a decrease in expenses of $1 627, making the increase in net earnings $272,022.

From October 1 to April 30, 1879 and 1880, the earnings, expenses, etc., were:

	1879.	1880.
Gross earnings	$9,144,778	$10,464,485
Working expenses	6,422,953	6,725,142
Net earnings	$2,721 825	$3,739,318

—showing an increase in gross earnings of $1,319,707, with an increase in expenses of $302,189 making the increase in net earnings $1,017,518.

New York Central and Hudson River R. R.

The following is an official statement of the earnings of the New York Central and Hudson River Railroad Company, showing the gross earnings of the road for the eight months ending May 31, 1879 and 1880:

	1878-79.	1879-80.
October	$2,771,203 61	$2,898,586 19
November	2,567,318 47	2,801,835 04
December	2,237,265 30	2,846,216 87
January	2 024,811 99	2,593,612 75
February	2,210,904 17	2,317,230 80
March	2,474,392 22	2,854,834 73
April	2,214,626 15	2,782,324 58
May	2,211,010 69	2,540,997 52
Total	$18,710,932 60	$21,635,637 98
Increase		$2,924,705 38

Grand Trunk Railway of Canada.

The revenue statement of this company for the month of April is as follows:

	1880.	1879.
Gross receipts	£167,810	£138,342
Working expenses	116,477	108,540
Net profit	£51,333	£29,802

—showing an increase in gross earnings of £29,468, in working expenses of £7,937, and in net profit of £21,631.

The aggregate for four months from Jan. 1, is as follows:

	1880.	1879.
Gross receipts	£663,816	£572,677
Working expenses	469,505	462,168
Net profit	£194,311	£110,509

—showing an increase in gross receipts of £91,139, in working expenses of £7,337, and in net profit of £83,802.

Great Western Railway of Canada.

The revenue statement of this company for the month of April (excluding leased lines) is as follows:

	1880.	1879.
Gross receipts	$351,900	$295,160
Working expenses	248,100	253,500
Net profit	$103,800	$41,600

—showing an increase in gross receipts of $56,800, a decrease in working expenses of $5,400, and an increase in net profit of $62,200. The working expenses include transfers to reserved funds.

The aggregate for three months (February 1 to April 30) is as follows:

	1880.	1879.
Gross receipts	$1,061,400	$936,800
Working expenses	710,400	716,900
Net profit	$351,000	$219,400

—showing an increase in gross receipts of $125,100, a decrease in expenses of $6,500, and an increase in net profit of $131,600. The above is subject to interest on bonds.

Chicago, Burlington and Quincy Railroad.

The gross earnings, operating expenses and net earnings of the Chicago, Burlington and Quincy Railroad for the month of April, 1879 and 1880, were:

	Gross earnings.	Operating expenses.	Net earnings.
1880	$1,260,319 11	$710,391 41	$549,927 70
1879	1,018,754 89	618,006 83	400,748 06
Inc.	$241,564 22	$92,384 58	$149,179 64

For the four months ending April 30, 1879 and 1880, the earnings, expenses, etc, were:

	Earnings.	Expenses.	Net.
1880	$5 095,021 20	$2,606,711 42	$2,488,309 78
1879	4,177,977 47	2,358,529 56	1,819,447 91
Inc.	$917,043 79	$248,181 86	$668,861 87

Adirondack Railroad.

Among the assets of the Continental Life Insurance Company, at the time it passed into the hands of a Receiver, were two notes made by Thomas C. Durant in 1873 for $2 562 50 each, and 11 bonds of the Adirondack Railroad Company of the face value of $1,000 each, deposited as collateral for the notes. Durant has since become insolvent. The Adirondack Company was formed for the purpose of constructing a railroad from Saratoga to mines in the Adirondack regions, north. The road was bonded for $6,000,000, and is now under foreclosure proceedings, and the bonds are almost valueless. It is proposed that the stockholders, bondholders, and other creditors of the company deliver over to certain Trustees, to be named, the evidences of their indebtedness against the company; that with the bonds so taken the Trustees purchase, at the foreclosure sales, the assets of the company, form a new company, which is to execute a first mortgage of $4,000,000 to cover the portion of the road already built and that is to be built; that the money realized from the mortgage is to be used exclusively for the construction of the remainder of the road; that a second mortgage for $1,500,000 be executed by such new company, and stock be issued for $4,000,000; that the bonds and other indebtedness of the old company be settled at 50 per cent on the dollar, 40 per cent to be paid in second mortgage bonds and 60 per cent in stock; that the present stockholders receive one share of

the stock for every four shares of the old they surrender. More than a sufficient number of stockholders, bondholders, and creditors of the old company have signified their consent and willingness for the change. It is provided that Durant, who is a large creditor of the company, will receive a quantity of bonds and stocks under the agreement so as to settle with his creditors by paying them the face of their claim. The receiver of the Continental Insurance Company has received authority to co operate in the matter, that corporation being interested to the extent of about $16,000.

Mexican Railroads.

A recent letter to the Galveston News gives the following list of the railroads in Mexico:

	Miles constructed.	Miles to be constructed.
Celaya to Leon and Guanajuato..	29	51
Mexico to Toluca and Cuautitlan.	27	50
Cuautitlan to Tula..	12	30
Ometusco to Pachuca and Tulancingo	8	51
Merido to Peto, extending toward Ticul and Texas	3	78
Zacatecas to San Luis, Aguas Calientes and Lagos	5	280
Mexico to the mouth of the Amacusac river	29	280
San Luis Potosi to Tantoyuquita.	3	131
San Martin Texmelucan to Puebla and branch of same to Huejotzingo and Cholula	11	20
Merida to Progreso	20	3
Puebla to Matamoras Izucar	3	38
Vera Cruz to Alvarado	3	82
Vera Cruz to Medelin	14	..
Vera Cruz to Mexico	263	..
Branch to Puebla	29	..
Branch to Jalapa	91	..
District railroads	115	..
Total..	665	1,094

A number of the shorter lines are horse railroads. There are 6,164 miles of telegraph in the country, on which in 1879, only about 135,000 messages were sent, 41,216 of which were sent free. The revenue was $57,791; the expenses, $127,521. If the official dispatches had been paid for, the receipts would have been three times as great.

Atlantic, Mississippi and Ohio Railroad.

The Richmond (Va.) Whig says that the paragraph which is going the rounds of the newspapers to the effect that the United States Circuit Court, by a recent order, has directed the sale of the Atlantic, Mississippi and Ohio railroad is erroneous, and then adds:

The decree for a sale in foreclosure of deeds was made more than a year ago, (May 9, 1879,) and nothing has been done since in the matter, except the insertion of a name in the decree designating Mr. Pleasants as master commissioner of the court to make the sale. At the time the decree of May, 1879, was entered there was some doubt whether the clerk of the court could act as commissioner, arising from some recent provision of law; and the court left the naming of the commissioner open until that doubt should be determined. Judges Waite and Bond have since concured in thinking there was no inhibition upon the appointment of Mr. Pleasants, and so he has been named to act when the decree of sale shall come to be executed. When that will be is yet a matter undetermined. If the master should at any time soon advertise a sale the period of advertising is required by the decree to be three months, and it is quite certain that that period will embrace the next October term of the court. And thus, if there should be any reason for postponing the sale, it can then be presented to the court. Except a mere formal petition to suspend the sale presented by the State of Virginia, no objection to it has come from any source.

Foreign Shipments of Oil.

The Bradford (Penn.) Star says that the foreign shipments of oil will be larger this year by one-fourth, judging by the shipments thus far, and then adds.

The increase in the demand each year for the past 15 years has been about fifteen per cent per annum. The increase, however, for the past two years has been greater even than that, the low prices inducing many foreign countries to try it as an illuminator. After once getting accustomed to it they will buy it and cannot be prevented from taking it if it can be furnished at any reasonable price. Even a ten million stock would be only a little more than a half year's supply, and the time is near at hand when the demand will exceed the supply, and with a defined field, as it is to day, there is no wonder that oil should go up, as it is really worth more than it is bringing.

☞ The purchasers of the Berks County Railroad, extending from Reading to Slatington, Penn., on the Lehigh River, a distance of 46 miles, have organized under the corporate title of the Schuylkill and Lehigh Railroad Company. They elected John N. Hutchinson President and George De. B. Keim, Henry S. Eckert, George F. Baer, G. A. Nicolls, George D. Stitzel and J. T. Humphrey directors.

☞ A branch railroad, five miles in length, to Anglesea, N. J., the watering place name given to Five Mile Beach, commencing at the West Jersey Railroad, one mile below Cape May Court House, has been graded and ready for the rails. A drawbridge over Grassy Sound channel, on the line of the branch road, is about to be built.

☞ Elijah B. Phillips of Boston, Alfred P. Rockwell af Boston, Samuel C. Lawrence of Medford, Mass., Geo. P. King of Boston, George E. B. Jackson of Portland, John B. Brown of Portland, Wm. P. Bacon of Boston, have been elected directors of the Portland, Saco and Portsmouth Railroad Co.

☞ Buckingham county, Va., voted on the 10th inst., to subscribe $60,600 to the capital stock of the Richmond and Southwestern Railroad Company.

☞ The Denver and Rio Grande and South Park narrow-gauge railroads have been consolidated.

LITTLE CHIEF MINING COMPANY.

ROOM No. 54 BOREEL BUILDING, 115 BROADWAY, NEW YORK, June 15, 1880.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a MONTHLY DIVIDEND (No. 5) of ONE PER CENT. on the TEN MILLION DOLLARS ($10,000,000) capital stock of this company, amounting to ONE HUNDRED THOUSAND DOLLARS ($100,000,) or FIFTY CENTS Per Share, out of the fifth month's net earnings, payable at the Mining Trust Company, on the 23d inst.

Transfer-books will close June 19, and re-open June 24.

D. F. VERDENAL, Secretary.

OFFICE OF THE HOMESTAKE MINING COMPANY, 18 WALL-ST., NEW YORK, June 14, 1880.

DIVIDEND NO. 18.

THE REGULAR MONTHLY DIVIDEND OF Thirty Cents per share has been declared for May, payable at the office of Wells, Fargo & Co., No. 65 Broadway, on the 25th inst. Transfer-books close on the 19th inst.

H. B. PARSONS, Assistant Secretary.

SECRETARY AND TREASURER'S OFFICE, METROPOLITAN ELEVATED RAILWAY COMPANY, No. 71 BROADWAY, NEW YORK, June 11, 1880.

THE QUARTERLY DIVIDEND OF (2½) TWO and a Half per Cent. upon the capital stock of this company will be paid on and after the 1st day of July next at the Central Trust Company, No. 15 Nassau-st., New York, to the Stockholders of record on the 18th inst.

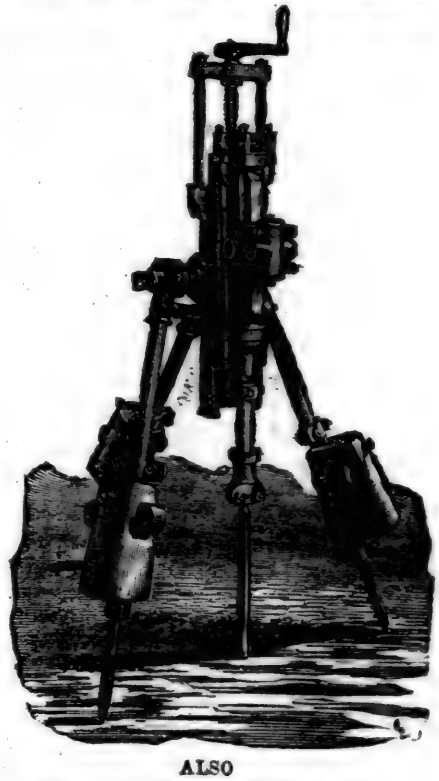
The transfer books will be closed on the 18th inst., at 3 o'clock P. M., and reopened on the 2d July next.

JOHN E. BODY, Treasurer.

SECRETARY AND TREASURER'S OFFICE, METROPOLITAN ELEVATED RAILWAY COMPANY, No. 71 BROADWAY, NEW YORK, June 11, 1880.

THE COUPONS OF THE HALF-YEARLY INTEREST on the First Mortgage Bonds of this company will be paid on and after the 1st July next at the Central Trust Company, No. 15 Nassau-st., New York.

JOHN E. BODY, Treasurer.



OFFICE OF THE ONTARIO SILVER MINING CO., No. 18 WALL ST., NEW YORK, June 7, 1880.

DIVIDEND NO. 56.

THE REGULAR MONTHLY DIVIDEND OF FIFTY CENTS per share has been declared for May, payable at the office of the Transfer Agents, Wells, Fargo & Co., No. 65 Broadway, on the 15th inst. Transfer books close on the 10th inst.

H. B. PARSONS, Assistant Secretary.

The investigation of frauds on Railway Companies a specialty

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending June 5, as reported by the several carrying companies, amounted to 869,360 tons, against 511,044 tons in the corresponding week last year, a decrease of 141,684 tons. The total amount of anthracite mined for the year is 8,775,074 tons, against 9,965,476 tons for the same period last year, a decrease of 1,090,402 tons. The quantity of bituminous coal sent to market for the week amounted to 112,993 tons, against 76,963 tons in corresponding week last year, an increase of 86,030 tons. The total amount of bituminous mined for the year is 1,616,761 tons against 1,366,782 tons for the corresponding period last year, an increase of 249 979 tons The total tonnage all kinds of coal for the week is 482,353 tons, against 588,007 tons in corresponding week last year, a decrease of 105,654 tons, and the total tonnage for the coal year is 10,391,835 tons against 11,332,184 tons to same date last year, a decrease of 940,349 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last two days of May was 41,475 tons, of which 26,811 tons were coal and 14,664 tons coke. The total tonnage for the year thus far has been 2,860,525 tons of which 2,129,950 tons were coal and 734,575 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ended June 5 were 45,982 tons, and for the year to that date 848,201 tons—264,072 tons over the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 21,221 tons, and for the year 582,453 tons, an increase of 212,490 tons over 1879. The shipments to the Chesapeake and Ohio Canal for the week aggregate 21,700 tons, and for the year 164,539 tons, an increase of 10,142 tons as compared with last year. Shipments to the Pennsylvania Railroad for the week were 3,060 tons, and for the year 101,209 tons, an increase of 31,438 tons as compared with 1879. —Phil. Ledger, June 14.

A New Iron Mill.

The Phœnix Iron Company, of Phœnixville, are making preparations to start their new mill in operation at an early date. They have already tested their gas producers and found them to work satisfactorily. On Tuesday next the gas will be turned on to the new Seimens furnaces, and the machinery in the new mill will be put in operation for the purpose of testing the pipes and the joints, and in about two weeks the whole mill will be put in operation. In the meantime any matters pertaining to the machinery or the furnaces that do not work well will be put in order. The arrangements for working this mill will probably be the most complete of any in the United States. There will be no coal whatever used in the mill and everything can be kept clean and in good order. The iron will be heated by gas made in a building some fifty feet distant from the mill; it will be carried to the latter by means of pipes, and after entering the furnace is set on fire, with which the heating power is carried on. It will be more cleanly and certainly more pleasant for the workmen, and in every way more satisfactory to all.—[Miners' Journal.

☞ The Rapid Transit Commission recently appointed by the Mayor to lay out routes for rapid transit roads, met on the 14th inst. and organized by electing William Osborne, President, N. Comstock, Secretary, and H. W. Hunt, Treasurer. After suitable rooms are secured by the commission, daily sessions will be held.

☞ The earnings of the Chesapeake and Ohio Railway for May, 1880, were $196,550, against $178,824 for May, 1879; for five months ended May 31, they were $1,041,888 against $664,353 in 1879, or an increase of $377,535.

NEW YORK, LAKE ERIE & WESTERN RAILWAY

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almos 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

New York, Friday, June 25, 1880.

The Southern Railroad System.

Another great railroad syndicate is announced in the South as in course of formation, the basis of which is a combination with the Richmond and Danville and the Richmond and York River Railroads. Following are further particulars in relation to the history and plans of the combination. It is the counterpart of the Louisville and Nashville system, which reaches the sea coast at Charleston and Savannah, and covers a large extent of country. The purchase, some eighteen months ago, of the Charlotte, Columbia and Augusta Railroad by the Pennsylvania Railroad Company, the Richmond and Danville Railroad Company, and Thomas and William P. Clyde, was the beginning of this movement. The second step was the formation of a syndicate composed of New York, Philadelphia, Baltimore and Richmond capitalists, controlling among them the Richmond and York River Railroad, the East Tennessee, Virginia and Georgia Railroad, the Memphis and Charleston Railroad, and the Selma, Rome and Dalton Railroad, with numerous branches, extensions and connections. This syndicate was formed to purchase all the railroad interests of the Pennsylvania Railroad Company south of Richmond, which gave to it the control of the Richmond and Danville Railroad, with its leased roads in North Carolina, running from Richmond to Danville, embracing the Piedmont Railroad from Danville to Greensborough, N. C., and the North Carolina Railroad from Goldsborough to Charlotte as a trunk line, thus affording an outlet through Richmond to deep water for the entire system. This was followed by the purchase of the controlling interest in the Greenville and Columbia Railroad Company of South Carolina, and by arrangements for securing the immediate completion of the Western North Carolina Railroad from Asheville, N. C., to Point Rock, Tenn., which makes another link connecting the roads lying west of the Blue Ridge Mountains with those east of the Blue Ridge, and at the same time affording the shortest practicable route between the Northwest and the States of the Southern seaboard. The Richmond and York River Railroad, composing a section of the trunk line of this combination, extends from Richmond, Va., to West Point, Va., on the Chesapeake Bay, a distance of 38 miles. This road is operated in connection with the Richmond and York River line of steamers. It was destroyed during the military operations of 1862, and was rebuilt in 1867. The East Tennessee, Virginia and Georgia Railroad extends from Bristol, Tenn., to Dalton, Ga., with a branch from Cleveland, Tenn., to Chattanooga, Tenn., a distance of 270 miles, with about 24 miles of side tracks. This line was formed by the consolidation in 1869 of the East Tennessee and Virginia Railroad, chartered March 6, 1849, and opened June 10, 1855, with the East Tennessee and Georgia Railroad, chartered February 4, 1848, and opened October 18, 1856. The branch road to Chattanooga, 29 miles in length, was originally a separate road, but it was acquired by the East Tennessee and Georgia on its completion. The Rogersville and Jefferson and the Cincinnati, Cumberland Gap and Charleston Railroads were purchased at a foreclosure sale for the non-payment of interest on the State mortgage lien in 1871. This line includes the Western North Carolina Railroad to Point Rock. The line of the Memphis and Charleston Railroad extends from Memphis, Tenn., to Stevenson, Ala., a distance of 271 miles. It has branches to Somerville, Tenn. and to Florence, Ala., making 363 miles of road in the aggregate. The Selma, Rome and Dalton Railroad, also a part of this system, extends from Selma, Ala., to Dalton, Ga., a distance of 237 miles. The capital stock of this corporation was reported in the financial statement of 1872 at $5,000,000. There are other branches and leased lines radiating throughout the territory mentioned. The effect of this combination, it is claimed, will be to give greater economy of operation and increased efficiency of service than has heretofore been possible under the old condition of things where the roads were independent and disconnected. While it secures to the owners greater protection from competition, it also affords the public better and cheaper facilities.

An Important Electric Cab Signal Invention.

A number of railroad men, engineers, capitalists and members of the Press were taken by special train on the New York and Greenwood Lake Railroad to Arlington on Tuesday last by Mr. T. A. B. Putnum, the inventor, and his associates, to witness an exhibition of the practical workings of the Locomotive Cab Electric Railroad Signal, at which place they have made their attachments to the road bed, and to one of the engines of which road they have adjusted these machines which are in daily use for the purposes of experimenting with a view to perfecting the apparatus, having now thoroughly demonstrated the applicability of the principle. This was the first public exhibition although several railroad men

have seen private trials of which they have so far expressed entire satisfaction, both of the principle as well as of its adaptability. The purpose is to obviate beyond chance, accidents by the misplacement of switches and drawbridges, by collisions and at crossings, by first making the signal one that cannot be mistaken or unnoticed; and that shall overcome all the dangers of color-blindness. This is done by making the signal one to the ear instead of to the eye and by placing it in the cab where the engineer must hear it, and at the same time automatic whenever it passes over the machine by which the locomotive itself completes the electrical circuit, and signals the station agent and switchmen of its approach while it receives an instantaneous signal that all is right at their posts, or the contrary, without the intervention of any man or agency whatever but the locomotive by means of electricity.

We had the pleasure of witnessing one of these exhibitions in company with railroad men and engineers, and it was most thorough and the signal was put in our presence to every test the engineers asked for or that could be asked, to make the operation perfectly satisfactory and plain to one not familiar with mechanics or telegraphy. After this exhibition we questioned closely the engineers present as to their views of the invention to which they replied that the principle was completely demonstrated as practicable on the exhibition and that the inventor Mr. Putnam had done all he had promised to do, and that all the imperfections of details necessarily incident to a new invention could be overcome, no doubt. The only question left would then be whether in applying the invention to an extensive system of railroads it would be equally practicable, and they admitted that they could see no reason why it should not be. This demonstrated, it would in their opinion undoubtedly be one of the greatest and most indispensable inventions to railroads that was ever made, as it would remove or prevent the causes of three-fourths of the accidents on railroads.

Mr. Putnam is now rapidly perfecting his apparatus and will expect to be able to apply it to railroads in a couple of months. As to its cost he could not give us the figures but said he would contract to put it upon railroads at half the cost of any other system which it will not necessarily do away with, but can be used in connection therewith, if a road should desire. He says that by dividing our elevated roads into signal blocks of 500 yards each he could by his invention make accidents by misplaced switches impossible. It is also applied to road crossings by making the engine ring a bell, lower a bar across the road on its approach and raise it as it passes. The following is a more specific and technical description of the invention, its manner of operations and methods as well as purposes, than the foregoing general description:

The Locomotive Cab Electric Signal is distinguished from others in that it is given in the cab of a locomotive while running at full speed, and at such given distance from the points of danger as to permit the train to be slowed up or stopped. The uses are principally for open switches and draws, to lock switches and draws, signal stations, guard the crossings of carriage roads, denote trains ahead on the same line, and signal trains from stations or points on the line. The alarm is a gong bell placed in the locomotive cab which when once set ringing will continue to ring until stopped by the engineer. The whole system is automatic, requiring no attention or changing of levers, etc. At a given distance on the road bed between the rails is placed an iron frame which encloses metal brushes. This frame is arranged to open and project these brushes upward when a lever connected with the same and parallel with the rails is actuated by the locomotive. This is done by an extra wheel clamped on the tender axle so as to avoid the numerous movements that would be consequent by using the ordinary truck wheel. Several brushes are thus used in one frame for various purposes, wires running from the same to given points. Carried under the tender is a wood base supplied with metal strip to correspond in number to the brushes used, from which wires are led to the alarm on the locomotive and to the generator of the electric force.

Each locomotive carries its own generator, and is thus independent of a central source, and each mechanism on the road is connected only to a certain section and is thus similarly independent. By simple mechanism attached to a switch the act of unlocking or moving the same makes ready a circuit that is closed when the locomotive passes over the mechanism on the road bed and the alarm bell on the locomotive is thus operated.

If the switch is not open the locomotive will at the road mechanism close a circuit which will lock the switch in such a manner that the switchman will be apprised that a train is approaching and cannot unlock the switch, the unlocking being done by the wheel of the locomotive in passing the switch. On the same circuit or on an independent one a bell can be operated at a depot and road guards dropped, or other signals operated by the closing of circuits between the locomotive and the road bed mechanism. An important feature of the signal is a tell tale or second bell in the locomotive cab which only sounds when the regular alarm circuits are from malevolence or other cause faulty, thus giving a security that a simple signal without such tell tale could not give. The whole mechanism is free from complication and is designed as a perfect protection from ice and snow. It is comparatively inexpensive in construction as parts are duplications and can be made easily. Roads can be blocked any distance and as all the mechanism is level with the rails it is especially adapted for elevated roads. The operation has been perfect on regular trips and the signals given at rates of 50 miles per hour. The heavy work is all arranged to be done by the power of the moving locomotive, and the closing of circuits operate electro magnets where such are required for light operations. The parties are at present using a battery that runs two months or more without attention but propose to substitute a small Dynamo Electric machine for the same thus giving greater electro motive power in less room.

Capt. Ericsson's New Motor.

There is one use for the new motor invented by Mr. Ericsson which has not as yet, apparently, occurred to the acutest members of the profession of engineering. The great bar to the introduction of the electric lamp for house illumination in such a manner as to prove or disprove its practicability has hitherto lain in the lack of a convenient, easily-managed, and reliable motor, at a small cost, capable of operating a generator of electricity sufficiently powerful for domestic purposes. There is no sort of doubt of the adaptation of the Ericsson motor to supply this deficiency and operate the small electrical system required for an ordinary mansion or a hotel safely, steadily, and without special attendance. In the absence of gas, other fuel may be used beneath the cylinder of the engine, and thus the plan is available in a country house as well as in the city. The experience of Prof. Henry Draper, who lights his Madison-avenue mansion by electricity, furnished by a generator operated by means of a gas engine, has been that the illuminating capacity of 1,000 cubic feet of gas can be nearly doubled by employing it to generate the electricity, and then utilizing the electricity for light, instead of using the gas directly for that purpose. It requires 15 feet of gas per hour to operate an Ericsson motor large enough to run a generator capable of furnishing an illumination equal to 1,000 or 1,200 standard candles, or to 60 or 75 such lights as are supplied by a 5-foot burner. Such being the case, any wealthy citizen of New York City who cares to test the practical working of the electric lamp has it in his power to decide upon the availability of electricity for domestic purposes by that best of all methods—the method of experiment under the precise condition which it must meet successfully or fail as an illuminator. The Edison, the Sawyer, the Brush, and the Werdermann lamp all make more or less pretense of meeting these conditions, and practice may thus determine between them without organizing New York electric lighting companies or disturbing the streets by laying conductors. If such an experiment should prove successful, the electric light would enter into immediate competition with gas, and that monopoly would be abated at a stroke by the very man whose brain excogitated the means of defeating the formidable *Merrimac*. But will Edison, Sawyer and Brush care to submit their pretensions to such a practical test of avaliability as that just suggested?—*N. Y. Times.*

☞ In a certificate filed in the office of the Secretary of State at Albany, N. Y., on the 22d inst., Henry B. Hammond, Robert Jenkins, Henry Stone, and others are named as directors of the Boston, New York and Western Railroad Company. The road is to be constructed from the located line of the Boston, Hoosac Tunnel and Western Railway, in Schenectady, and thence through

the counties of Schenectady, Montgomery, Herkimer, and Oneida to the City of Utica, The capital is placed at $8,000,000.

New York, Lake Erie and Western R. R.

There are five old classes of bonds of the Erie, called the American issues, which rank before the New York, Lake Erie and Western (Erie) First Mortgage bonds. Those five classes are not of large amount, and always had their cash interest paid in full, even when the Erie was passing through reconstruction. One of them fell due last year—the Second. Their interest was 7 per cent, but the holders were told that unless they consented to take 5 per cent for forty years they would be paid off at par. They were wise enough, however, to close with the offer, and we see by the last edition of Messrs. McCulloch & Co.'s New York Circular, dated May 25, that these extension Second 5 per cent bonds, due not before 1919, command a premium of 6¾ per cent, and pay the purchaser only 4¾ per cent for his money. Thus high class American railroad bonds are assuming the standard we have long said they would, and were entitled to by reason of their real value.

The other four American Erie bonds are all 7 per cents, and rank at premiums more or less high according to the length of their duration. The fourth class falling due this year are at only 102, or 2 per cent premium. These will doubtless become sweet 5 per cents, and the other three 7 per cents may be in like manner converted when the periods for which they were issued have expired.

Such operations tend to benefit the after claimants and the company generally.

We would rather see, however, all bonds extinguished as far as may be, and their place taken by ordinary shares.

There is hardly an American railway that has not too large a proportion of its capital in bonds, and too small in shares. Where the finances and range of profits are very strong this disposition of the capital account may not matter, and may even be regarded as an advantage, since it tends to raise the rate of dividend; but it is a curious fact that prosperous companies are generally sound companies, and have the greater proportion of their capital represented by ordinary or common stock. It is usually the rickety ones which take an over sanguine view of their prospects, and issue the greater portion of their capital in bonds. Or it may be that their necessities have driven them to adopt this unsound course. It should be an object with reformed railroad companies to gradually reduce their bond capital, and increase their share. They thus extend their safety line.—*Herapath.*

Shenandoah Valley Railroad.

The engineers of the Shenandoah Valley Railroad Co. commenced on the 21st inst., the survey of the line of a railroad starting at Afton, in Albemarle county, Va., following the eastern slope of the Blue Ridge, through the county of Nelson, by Buffalo Springs and Balcony Falls to Liberty, on the Atlantic, Mississippi and Ohio railroad, west of Lynchburg; thence through Chamblissburg, and Taylor's Store and Rocky Mount, in Franklin county; thence through Patrick county to Taylorsville, near Rock Castle; then crossing the North Carolina State line to Mount Airy, in Surry county; then into Wilkes county, to Briar Creek and Wilkesboro'; then through Elkville, King's Creek, Fort Defiance, to Morgantown, which is on the line of the Western North Carolina railroad; from Morgantown to Asheville, in Buncombe county; thence up the French Broad to Daytonville, in Transylvania county: then following the Chattanooga river down to Taccoa City which is on the line of the Atlanta and Richmond Air Line. This proposed road passes through the finest mineral belt of the South Atlantic States.

Mining in New Mexico.

Very flattering reports are coming from New Mexico concerning recent rich mineral discoveries in the Cerrillos. The developments which have been made within the last few months have attracted large numbers of fortune-hunters, and every mountain range in the Territory is now being thoroughly prospected. The situation of the Cerrillos is exceptionally fine for mining. The waters of the Cienega and Santa Fe Creeks unite about three miles northwest of the Sierra Rosa, one of the Cerrillos groups, while the Galisteo River borders the south edge of the district. The water supply is ample for all purposes. Wood for fuel is easily obtained; lumber is sold at low rates; coal can be delivered at smelters at $2 per ton—a very fine quality of anthracite. Bituminous coal is also plentiful. The general formation of the district is porphyrytic. The character of the ore varies in the different sections of the district. At the extreme south end is found quartz and heavyspar, carrying galena, sulphide of iron ashurite, carbonate and sulphide of copper, also bromide and traces of other minerals; further north, manganese appears in the combination, also zinc blende; in the center of the district the zinc blende and copper give out, and clean galena takes their place; an increase of quartz is met with toward the north, which runs high in gold. The veins vary from a few inches in width to over twenty feet between walls. The crevice matter for the greater part, is rotton porphyry filled with gypsum, heavyspar, quartz and galena. Experts predict that the Cerrillos District is destined to develop into one of the richest mining camps on the continent.

Decision in a Telegraph Case.

The Supreme Court of Georgia has rendered its decision in the case of the Western Union Telegraph Co., vs. the American Union Telegraph Co., upon the question of the right of the latter company to build telegraph lines upon the various railroads in Georgia, the Western Union Company claiming exclusive rights. The Court unanimously sustains the lower Court, and held the Western Union exclusive contracts void upon the ground: 1st, That they are void as being in restraint of trade; 2d, That they are ultra vires; 3d, That if sustained the State right of eminent domain would be subject to be lost by contracts of corporations. This is claimed to be the first decision by a court of final resort upon the Western Union exclusive contracts in the South.

☞ The locomotives on some of our Western Railroads are equipped with the noiseless steam valve and the engines moving about switching, etc. make no more noise than does an omnibus passing along the street. So satisfactory does the improvement work it would hardly seem necessary to urge upon other railroad companies to adopt it. Nothing is more distressing to the nerves or the ear than the sudden outbursts of steam where the pop-valve is used, and more horses are frightened and more damage results from this nuisance than any other in railroad operations, and it all can be avoided at a trivial expense.

Richmond and Alleghany Railroad.

The grading of the Richmond and Alleghany railroad is progressing rapidly. Except a few spots, including Maiden's Adventure dam, (on which spot special work is needed), it has been completed from the Nine-mile Lock to the thirty-seventh mile post. The work this side of the Nine mile Lock will be undertaken in a few days. The crossties have been delivered along the line of the graded portion, so that when track-laying begins it will go forward with dispatch. On the Clifton Forge end of the line twenty-five miles of the road have been graded. The pioneer of the fleet of schooners bringing the rails is in the river now; she carries 300 tons. Inasmuch as the builders of the road desire to get revenue from their work as soon as possible, we may be sure that the completion of the whole line will not be delayed a single day beyond what may be needed to turn it out in perfect order.—[Richmond Commonwealth.

A Short Line to Florida.

Work has been commenced on a new line of railroad which is to connect Savannah, Ga., with Jacksonville, Fla., via Waycross, the distance being 170 miles, and the connecting links are expected to be completed by the 15th of November next. This road will open up to Savannah and to the country generally a land which is developing more rapidly than any in the South, not even excepting Texas—that is East Florida and the extreme southern peninsula. It will afford the people of those sections facilities for moving their immense fruit and vegetable crops, which have become a necessity to the world. The schedule will be six hours from the banks of the Savannah to the banks of the St. John's, and in addition to the heavy freight business there will necessarily, on account of the saving in time, be a large passenger traffic.

Change of Gauge.

The narrowing of the gauge of the Western Division of the New York, Lake Erie and Western Railroad from Hornellsville to Salamanca and Dunkirk was completed on the 22d inst. The road has now the standard gauge from New York to Niagara Falls, Buffalo, Salamanca and Dunkirk.

The gauge of the New York, Pennsylvania and Ohio Railroad was changed from broad to standard gauge on the 22d inst. Twenty five hundred men were placed along the line from Dayton to Leavittsburg, a distance of 225 miles. Work began at 3 A. M., and the last spike was driven at 9:30 A. M.

☞ A Portland, Oregon, dispatch says that work on the narrow-gauge railroad from Silverton to Ray's Landing, on the Willamette river, is being pushed with all possible speed, a force of about 175 men being engaged in grading toward the landing, where the terminus for the present season will be located. Grading will be completed to the ferry in a few days, when tracklaying will follow.

☞ A double track has been laid the entire length of the New York and Long Branch division of the Central Railroad of New Jersey, from Long Branch to Sea Girt, a distance of 12 miles. It was completed on the 22d inst.

Pennsylvania Railroad.

The statement of the business of all the lines of Pennsylvania Railroad Company east of Pittsburg and Erie, for May, 1880, as compared with the same month in 1879, shows

An increase in gross earnings of.....$709,221
An increase in expenses of..... 266,461

An increase in net earnings of.....$442,760

The five months of 1880, as compared with the same period in 1879, show

An increase in gross earnings of.....$3,189,347
An increase in expenses of..... 1,352,046

An increase in net earnings of.....$1,837,301

All lines west of Pittsburg and Erie for the five months of 1880 show a surplus over liabilities of $1,302,655, being a gain over the same period in 1879 of $1,469,605.

Statement of the Public Debt of the United States, June 1, 1880.

BONDS ISSUED TO THE PACIFIC RAILROAD COMPANIES, INTEREST PAYABLE IN LAWFUL MONEY.

	Amount Outstanding.	Accrued Interest not paid.
Central Pacific bonds, 1862-64	$25,885,120 00	$647,128 00
Kansas Pacific bonds, 1862-64	6,303,000 00	157,575 00
Union Pacific bonds, 1862-64.	27,236,512 00	680,912 80
Central Branch Union Pacific bonds, 1862-64.....	1,600,000 00	40,000 00
Western Pacific bonds, 1862-4	1,970,560 00	49,264 00
Sioux City and Pacific bonds, 1862-64.....	1,628,320 00	40,708 00
Totals.....	$64,623,512 00	$1,615,587 80

Interest paid by United States, $45,651,155 94; interest repaid by transportation of mails, &c., $13,084,816 67: interest repaid by cash payments: 5 per cent net earnings $655,198 87; balance of interest paid by United States $31,911,141 40.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, May 31, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

Toronto's Railways.

Besides the Grand Trunk Railway, 1,390 miles in length, with its principal Western offices in this city, there are six railways converging on Toronto. All these roads carried last year 3,645,847 passengers and 4,975,203 tons of freight. The earnings of these 3,000 miles of road were last year $13,337,644, and their working expenses $9,858,768. Their plant is as follows:

	Miles track.	Engines.	Pass. cars.	Other cars.
Grand Trunk Railway..	1,390	434	274	9,017
Great Western Railway.	902	216	167	4,549
Northern	167	82	26	787
Toronto, Grey & Bruce.	191	20	12	430
Toronto and Nipissing..	105	12	15	276
Credit Valley Railway..	160	9	10	150
Total.....	2,915	723	504	15,209

It should be stated that the last named road has five engines and about 200 cars of various kinds under construction.—[Toronto Monetary Times.

☞ The Selma, Rome and Dalton Railroad was sold at Selma, Ala., on the 14th inst., for $1,503,000, and was bought by the East Tennessee, Virginia and Georgia Railroad Co.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, June 24, 1880.

At the close of our last review there was a lull in Stock Exchange speculation and a slight wavering in the upward movement followed by slight reactions when the bears became emboldened and began to sell the market again contrary to expectation, however, which was quite general, the market rallied and has since continued to advance, with few temporary weaknesses, while the upward movement has been so steady and gradual without excitement, that the Street is getting puzzled at the position of the great speculators and hence of the speculation itself, for up to this point the advance is admitted to have been speculative. There is now a query in the outside speculative mind whether this is to so continue, or whether these great speculators have joined hands for another hot weather bull campaign as last year, and will continue to put up prices until the public come in the fall as then, or whether they are getting up the market by common consent to go short again and then knock down prices once more before the new crops which, barring accident, will be more bountiful than last year even, begin to move and increase the earnings of all but the coal roads, or again, whether the late short clique caught by Gould have stood out still and he is squeezing them until they are forced to settle. These are the three theories on the Street and of their correctness the reader can judge as well as any one. If the first theory is correct then

we need not look for lower prices, materially, except in case of some unforeseen accident, while in either of the latter cases we will of course see a reaction, although in either, we may have higher prices before, and probably before the new crops begin to move freely enough to show in increased earnings. As to when this will be depends upon the anomalous conditions of the Breadstuffs market which has been so under the control of the Wheat Clique that the natural movement has been delayed on the old crop and hence may delay that of the new crop to some extent, although the harvest of winter wheat with favorable weather, will be two weeks earlier than last year, when it was also two weeks earlier than usual. On last year, large arrivals at the seaboard of new winter wheat occurred in the latter half of July to so unusual an extent that 1,500,000 bushels were delivered on contract on the first day of August. As it is this year, the Clique have been shipping an enormous amount of wheat on their own account for a month past, and will for a month to come, which will fill up foreign markets to an unusual extent, so that when European harvests are gathered, those countries will not be compelled to draw upon this for so large supplies, or so early of our new crop to mix with their new wheat to enable them to grind theirs, it being so soft, as our old crop will be then to an extent of a months supply beyond the usual average, by reason of these clique consignments of wheat, with which they are filling every importing market of Europe.

As foreign crops are up to a full average so far, against millions of deficit in two years past, the demand, which we have shown will come later for our new crop, will be of as much less volume this year, compared with the past two, as the excess of this crop abroad over last year. Hence the traffic of the roads, with a bigger and earlier harvest than last year, may be much less than then unless at sufficiently lower prices to practically less in net earnings, while then July would be the most favorable time to depress stocks to the lowest point, it is not by any means certain after that there will be as good a basis for an advance in railroad stocks as last year, which has since been demonstrated to have been more than half fictitous.

Breadstuffs have been depressed though moving out very freely, running our exports up again to about $10,000,000, but as last week this was largely consigned wheat by the combination, and hence we see the anomaly of the lowest prices on the decline, in the face of the largest movement,

Cotton is also undergoing the usual annual revision of values based on the new crop which promises to be over 6,000,000 as the last proved to be about 5,500,000.

Iron has continued unsettled as noted in our last few issues, but the worst is thought to be over and prices near bottom, with no more failures and more confidence in the future. The reasoning is that as railroad stocks and iron first went up on the prosperity of the roads and first collapsed on the wild speculation that followed, they will naturally be the first to react for the better, which stocks have already done, ergo iron must soon.

The metal markets follow iron closely and hence no special features.

Provisions have advanced on both shipping demand, to cover a large short interest in lard on the Continent, and on the efforts of the speculators here to get up prices where they can get out a line of short contracts at good figures in which the backers are helping them in order to sell their taken product.

Ocean freights have been as excited as a Wall Street market, between the demand from the wheat clique and shippers for grain vessels and room with a good demand for butter and cheese, of which 32,000 and 95,000 packages respectively were shipped last week. The great demand at the close, however, has been from petroleum shippers, who were long of oil and short of freights for this month's shipment and were obliged to cover. Under these combined influences rates are 50 to 75 per cent higher than a month ago.

Mining stocks have continued in good demand on a brokers' or "scalping" market, without much public interest in the dealings and not much change in prices except for good show which has bobbed around with clique movements in San Francisco on reports of a rich strike. The Consolidated Virginia officials semi-officially announce that next month they will resume dividends permanently on large bodies of rich ore developed the past year and that they have enough money in their treasury to pay two dividends. We lately showed from official receipts of bullion at San Francisco that it had enough to pay three dividends or nearly half the price of the stock. These semi-official announcements also state that of late the ore has been yielding $70 per ton and that the managers have now secured half the stock and that there will be a boom in this and California soon.

Government bonds have been strong but not so active and railroad investments ditto as the supply offering is light. With July dividends and interest disbursements there will no doubt be a stronger and more active market for them both.

State bonds have met with more demand without material features.

Sterling Exchange has ruled easy under the conditions noted in our last of heavy exports and decreasing imports without any other special influences to affect it.

Money has been easy and an unimportant influence in stocks. The Treasury purchased $2,000,000 at no material change in prices. The last bank statement continues a favorable showing.

Northern Central Railway.

The Northern Central Railway Company furnish the following comparative statement of operations during the periods named, viz :

Month of May.	1880	1879.
Gross earnings.....	$329 788	$317,568
Operating expenses.	276,122	273,774
Net earnings.....	$53,666	$43,794
Five months ended May 31.	1880.	1879.
Gross earnings.....	$1 796,597	$1,519,213
Operating expenses.....	1,251,109	1,076 283
Net earnings.....	$545,488	$442,930

☞ The gross earnings of the Houston and Texas Central Railway for the year ending April 30, 1880, were $3,403,743, the operating expenses $1,853,148, and the net earnings $1,556,595 : for the year ending April 30, 1879, the gross earnings were $3,031,631, the operating expenses $1 720,-559, and the net earnings $1,311,072—showing an increase in gross earnings of $378,112, in operating expenses of $132,589, and in net earnings of $245,523.

☞ The Louisville and Nashville Company have purchased the Mobile, New Orleans and Texas Railroad (Mobile to New Orleans, completed and equipped seven or eight years ago at a cost of $13,000,000) for $5,000,000 of their own 6 per cent bonds. These bonds have been exchanged for $4,000,000 originally first mortgage 7 per cents on the road and $1,000,000 receiver's certificates.

☞ The receivers of the Philadelphia and Reading Companies have appointed an expert engineer to examine their collieries and report upon the condition of each. When he has concluded his labors those collieries which are unprofitable will be discontinued until arrangements can be made to lease all the coal lands belonging to the companies.

☞ The recent census enumeration shows the population of Brooklyn (N. Y.) to be 554,696, against 482,493 five years ago. The increase, therefore, is 72,203, or an average of about 14,-500 annually since 1875. In the year 1800 Brooklyn contained 3,298 persons ; in 1850, 96,000 ; in 1870, 396,000.

☞ President Huntington proposes to take advantage of the present low price of iron to push the construction of the Southern Pacific Railroad, which he promises shall be completed to the Rio Grande by the 1st of January next, and thence to San Antonio.

☞ The Louisiana Supreme Court has rendered a decision sustaining the legality of the New Orleans premium bonds, issued under the authority of an act of the Legislature of 1876, and requiring the city to devote the usual five mills to meeting the demands of their holders.

Tax on Sewing Machines.

The Supreme Court of the United States has decided that a State may constitutionally pass a law requiring "all peddlers of sewing machines and selling by sample" to pay a specified license.

Such a statute had been passed by the Legislature of Tennessee, and, in accordance with it, a tax of $15 was imposed on the agent of the Howe Sewing Machine Company, which is a corporation of Connecticut, and makes its machines in that State. The company paid the tax under protest and went to law to test the constitutionality of the Statute. The Supreme Court of Tennessee held that the tax was levied on all peddlers of sewing machines alike, without regard to the place where the machines or their materials were made or produced, and that, therefore, the law was valid.

This decision is sustained by the United States Supreme Court. Mr. Justice Swayne remarked that a State cannot lawfully impose a tax upon a citizen of another State which it does not impose upon its own citizens, nor can it levy a higher tax upon peddlers from another State than is levied on its own peddlers under like circumstances. The test question always is whether there is any unjust discrimination in favor of the State or citizens of the State which enacted the law. Wherever such discrimination appears the law is unconstitutional. No discrimination of this kind is made by the Tennessee statute in question. It applies equally to sewing machines manufactured in the State and out of it. "The exaction," says the opinion, "is not an unusual or an unreasonable one. The State, putting all such machines upon the same footing with respect to the tax complained of, had an unquestionable right to impose the burden."

This judgment is in harmony with the recent ruling of the Circuit Court of the United States in a somewhat analogous case that arose in Nevada. The Legislature of that State had passed a law providing that every traveling merchant, agent or drummer should pay a license fee of $25 a month for selling in the State, and in default should be lisble to a heavy fine. The court held that this statute made no unlawful discrimination against the citizens of other States or against the products of other States. It simply imposed a tax on the occupation of all travelling merchants, agents or drummers, without reference to where their goods were made. It applies to the citizens and products of Nevada just the same as it does to those of other States. Hence there was no constitutional objection to it.

The Duty on Hoop Iron.

A circular of the Treasury Department was sent to Collectors of Customs on the 16th instant, promulgating a joint resolution, approved by the President on the 14th, directing that a duty of 35 per cent be exacted on hoop iron cut to lengths, and mentioned therein by various designations, shipped under contracts made prior to March 12, 1880. Referring to the circular of the 16th, Assistant Secretary French on the 18th, addressed a letter to Collectors, stating that—

By virtue of the position taken by this department in its ruling of April 17, 1880, declaring cut hoop iron to be liable to the specific duties imposed by schedule E on band, hoop and scroll iron, similar iron cut to lengths and imported for use in baling cotton has been thrown into the category of hoop iron subject to the specific duties. There being no substantial difference between the iron imported for hoops and that imported to be used for baling cotton, the resolution in question is held by this department to be applicable to the description of iron covered thereby without reference to its uses, the designations given in said resolutions being intended merely to define the character of the merchandise covered thereby.

Cincinnati, Hamilton & Indianapolis R. R.

The earnings of the Cincinnati, Hamilton and Indianapolis Railroad for the year ending March 31, 1880, were:

From passengers		$102,817 54
" freight		220,331 09
" mails		5,444 10
" express		6,301 80
" Indianapolis pool		35,175 23
" rents		2,704 55
		$372,773 04
Expenses, viz:		
Transportation	$312,150 83	
Taxes	9,811 28	
		321,962 11
Amount applicable to interest on bonds		$50,810 93

The annual interest to be paid on $1,800,000, of bonds, as fixed by the award of the arbitrators for the future, dating from January 1, 1880, is $126,000; had this amount been payable the last year there would have been a deficiency of $75,189 07.

Fifty new box cars were added during the year at a cost of $30,624 71, and charged operating expenses, which if taken out, would still leave a deficiency of $44,564 86. There was also charged expense account $27,328 18 for steel rails.

Balance Sheet, March 31,

	1879.	1880.
Construction	$2,436,087 69	$2,436,087 69
Equipment	229,072 48	229,072 48
Steam excavator	8,978 00	8,978 00
Real estate	51,101 91	51,101 91

Directors.—R. M. Shoemaker, Theodore Cook, J. N. Kinney, Henry Lewis, Preserved Smith, J. H. Rogers, J. M. Ridenour, Martin Bare, William Beckett.

Secretary & Treasurer.—Frederick H. Short.

General Superintendent.—Lewis Williams.

Trade with Brazil.

At the Boston Board of Trade Rooms, on the 21st inst., Mr. J. C. Hopper, who represents the Government of Brazil, spoke of the means by which the commerce between the United States and that empire may be materially increased. He expressed the opinion that this is to be done through the permanent exposition buildings at Rio de Janeiro, which are to be much enlarged and which are free to all exhibitors. He asserted that the Brazilians are desirous of obtaining American mining and agricultural implements, as they are better than those of foreign manufacture, but as they are sold only upon part payment in advance and at high rates not many of them are disposed of. He would have American manufacturers send their goods to Rio on consignment, believing that by pursuing such a course they will establish an important and a growing trade, and drive their European competitors from the field. He said that the exposition has in its supporters a company of wealthy gentlemen, of which the son-in-law of the Emperor is President, and that he desires to send at once to it a ship load of properly selected goods from each of the cities of Boston, New York and Philadelphia, from which he was confident a speedy and remunerative return would be made.

Cincinnati, Richmond and Chicago R. R.

The earnings of the Cincinnati, Richmond and Chicago Railroad for the year ending March 31, 1880, were:

From passengers		$72,196 72
" freight		129,852 71
" mail		3,470 45
" express		8,113 86
" rents, etc		472 72
" Indianapolis pool		450 20
		$214,556 66
Expenses, viz:		
Operating	$155,124 91	
Taxes	3,918 15	
Interest on bonds	43,120 00	
General interest	36 85	
		202,199 91
Net earnings		$12,356 75

—against a loss of $9,738 18 last year, making the actual net gain $22,094 93.

Balance Sheet, March 31,

Wabash, St. Louis and Pacific Railroad.

A mortgage, executed by the Wabash, St. Louis and Pacific Railroad Company in favor of the Central Trust Company, of New York, and James Cheney, of Indiana, trustees for the bondholders, was recorded in St. Louis on the 12th inst. The conveyance is to secure $50,000,000 of bonds issued, or to be issued, by the company, for the purpose of paying certain other bonds, building and buying railroads, bridges, barges, etc. All the railroad lines, rolling stock, franchises, etc., of the Wabash, St. Louis and Pacific extending from Toledo to Council Bluffs and Kansas City, with all its branches and connecting lines are embraced in the mortgage. The Trust Company is required to certify and issue $2,000,000 of the bonds in exchange for the first and second mortgage bonds heretofore issued, at par. Six millions of bonds are to be delivered to the agents of the company for the equipment of the roads, and $11,000,000 to the Directors, when called for, to purchase other roads, construct barges, etc. The bonds

are payable in forty years and bear 6 per cent interest, payable semi annua ly in New York. The deed is signed by Solon Humphreys, President, and James F. How, Secretary, of the Wabash, St. Louis and Pacific Railroad Company.

Dayton and Michigan Railroad.

The earnings of the Dayton and Michigan Railroad for the year ending March 31, 1880, were:

From passengers	$278,879 38
" freight	695,363 85
" mail	15,645 55
" express	22,666 98
" rents	6,023 83
" Toledo elevator	13,157 43
" miscellaneous	9,125 61
	$1,040,862 66

Expenses, viz:		
Transportation	$629,427 96	
Taxes	42,693 36	
Interest on bonds	190,995 00	
General interest	336 73	
Dividend on preferred stock	96,900 00	
Dividend on common stock	35,021 00	
		995,374 05
Profit to lessees in operating		$45,488 61

—against a deficit of $51,949 47 last year, making a gain of $97,438 08. In addition to which there has been added one first class passenger coach and 25 new freight cars, at a cost of $14,000, which makes the actual gain $111,438 08.

There have been received by lessees in addition to above profit in operating, as follows, viz: amount collected from insurance on account of Elevator burned at Toledo, $15,750; for locomotive sold $2,730; and for gravel pit $105—total, $18,585; and there have been expended by lessees for real estate and permanent improvements at Lima and Toledo $29,066 85—making amount advanced by lessees $10,481 85, and leaving a balance of $85,006 76.

Secretary & Treasurer.—FREDERICK H. SHORT.

Sensitiveness and Isochronism in Governors.

At a meeting of the Society of Engineers held in London on the 7th inst., a paper was read by Mr. Arthur Rigg, engineer, of 1, Fenchurch street, London, E. C., on "Sensitiveness and Isochronism in Governors." As the attainment of a regular rate of speed is the only object of a governor, it is an interesting enquiry how far this result is achieved by the sensitive and isochronism governors, now frequently applied to steam engines. The irregular manner in which power is communicated from a piston to a crank causes periodical variations in speed, which vary greatly in their degree between such classes of steam engine as the common agricultural type and the high class mill engine.

Whenever there is great sensitiveness in a governor, it is often found that inherent irregularities in speed tell to such an extent that the governor becomes uncertain, runs from one extreme of its range to another, and produces hopeless confusion in the speed of the engine it was intended to regulate—giving, in fact, a worse result than would be produced by a governor of the common type. This evil has been remedied by retarding the movement of sensitive governors, causing their movement to force fluids through small orifices, an unreliable method now superseded by a method invented by the author, whereby the balls overcome the inertia of a mass of metal as they move in or out, a plan applicable to the usual type of governors, and also to those which are direct acting, fixed upon an engine shaft and altering the stroke of an expansion eccentric. Thus, such governors may be made to effect a more uniform regulation than has hitherto been attainable, and their extreme simplicity remains without attendant disadvantages.

An illustration of the relay system was given, where the governor moves a valve admitting hydraulic pressure under a plunger to raise or lower the sluice of a turbine, and so regulate its rate of motion.

It was finally shown that governor and engine should correspond in their relations so as to work harmoniously together; and that perfect regularity is unattainable, and can only be approached by providing sufficient inertia in the moving parts to diminish the effect of irregularities in power or resistance until the governor can operate; and that at high rate of revolution attains this condition with the greatest economy and success; and that although the governor may advantageously approach isochronism, its sensitiveness must not be excessive.

☞ The total production of anthracite coal to the 12th instant, as stated by the Philadelphia Ledger, is 9,187,000, against 10,558,000 tons to corresponding date last year, showing a decrease this year of 1,371,000 tons. With the probable continued entire suspension from the 1st to the middle of July, the total tonnage to that date will be reduced some two millions of tons below the production to corresponding time last year, with one month less of time then to the end of the coal year to make up the difference.

☞ From a condensed statement prepared by Richard F. Stevens, the expert accountant, of the stock, debt, cost, etc., of the railroads of the State of New Jersey, compiled from the original reports to stockholders, the Legislature, etc., it appears that the aggregate capital stock is $82,730,678 56; bonded debt, $106,847,950 50; other debts, $10,186,076 98; cost of roads and equipments, $144,190,681 44; receipts for last year, $21,667,732 70 expenses, $14,280,522 28; net, $7,387,210 42; dividends, $3,822,991; length of roads, 1,726.95 miles.

Mexican Central Railroad.

The steamer City of Merida, which sailed from New York for Havana and Vera Cruz recently, carried out 400 tons of rails and tools for 2,000 men. These with ten flat cars and a locomotive which will go by the next steamer are for the Mexican Central Railroad Company, limited, which is about to build a road from the City of Mexico to the American frontier, where it is to connect with the Atchison, Topeka and Santa Fe railroad, of which line it is to be an extension. It is intended to build the first section of this line—from Mexico to Leon—in eighteen months. The distance is 252 miles. The Sonora railroad, or rather the Guaymas extension of the Atchison, Topeka and Santa Fe railroad, has begun work, and had 500 men employed at Guaymas about a month ago, and the road is being rapidly pushed eastward. It is expected that the road will reach Hermosilla (eighty-six miles) in February. There is also a force of men at work at the American end of the line pushing it westward with all possible speed.

Boston, Hoosac Tunnel and Western Railway.

Articles of agreement and consolidation of the Boston, Hoosac Tunnel and Western Railway of New York and the Boston, Hoosac Tunnel and Western Railway of Vermont have been filed in the office of the Secretary of State at Albany. The name of the new corporation is the Boston, Hoosac Tunnel and Western Railway Company, and the officers are: President, F. L. Ames; Vice President, John R. Brewer; Secretary, Thomas Voorhees; Treasurer, Estes Howe; Directors, F. L. Ames, Elisha Atkins, William L. Burt, F. G. Dexter, J. W. Candler, J. R. Brewer, J. B. Alley, Oliver Ames, A. Gaddis, S. S. Guthrie, George R. Blanchard, George J. Post, and Coe F. Young. The lease and all obligations between the two parties are terminated and satisfied. The new company assumes the mortgage held by Elisha Atkins and F. Gordon Dexter.

☞ Certificates of the articles of association of the Yonkers and West Side Rapid Transit Railway Company were filed with the Secretary of State at Albany on the 19th inst. The road will commence at the south line of the city of Yonkers at a point of intersection with the line of the West Side and Yonkers Railway, and after running through a number of certain streets will terminate on the easterly side of South Broadway. The capital is placed at $100,000.

☞ The Governor of New York has signed the new banking law. It places all State banks and every private or individual banker, or firm of bankers doing business in this State on the same footing, in respect to usury, as the national banks and bankers. The extreme penalty is the forfeiture of double the interest charged over 6 per cent, if sued for within two years.

☞ The Stockholders of the Louisville, New Albany and Chicago Railway Company have voted unanimously in favor of the proposed issue by the company of $3,000,000 first mortgage bonds.

The First Locomotive.

The first engine to draw a railway train on this continent was run at Honesdale, Penn., Aug. 8, 1829, on the newly finished road connecting the Lackawanna coal fields with tide water by way of the Delaware and Hudson Canal. This was the first road of any consequence in the Republic to adopt practically the economic system of inclined planes and gravity locomotion, since adopted by engineers wherever practicable. At that time railways were just beginning to attract the attention of capitalists. The Liverpool and Manchester Road, the pioneer enterprise of the kind, had been for some time building, and was near completion. GEORGE STEPHENSON'S experiments with steam machines for roads were watched throughout civilization with the deepest interest.

In 1828 JOHN B. JERVIS, Chief Engineer of the Delaware and Hudson Canal, sent his assistant, HORATIO ALLEN, to England to investigate the application of steam to land transportation. ALLEN became convinced that STEPHENSON'S ideas were destined to revolutionize commerce, and he, therefore, bought for the canal company three engines to be used on the initial railway in the United States.

In May, 1829, the first of the engines was landed here; was put together by ALLEN, and exhibited at the foundry for some weeks. It was queer looking enough, having four wheels connected by side rods. Vertical cylinders on each side of the rear end of the boiler communicated motion to a vast walking beam, attached to the same rods of the driving wheels by other long iron rods. The engine was, indeed, so covered with rods and joints that it resembled a vast grasshopper. Having been delivered at Honesdale in due season, ALLEN had it put on the track, consisting of hemlock rails, 8 by 10 inches thick, 4 feet 3 inches apart and spiked to hemlock ties with 10 feet space between them. The engine weighed 7, instead of 3, tons, as had been agreed upon; the rails had been warped, and as the road crossed the Lackawaxen River, after a sharp curve, on a slender hemlock trestle, which, it was believed, would not support the engine, ALLEN was besought not to imperil his life on it. He knew there was danger, but ambitious to connect his name with the first railway in America, he determined to take the risk. He ran the engine up and down along the coal dock for a few minutes and then invited some one of the large assembly present to accompany him. Nobody accepted, and, pulling the throttle valve open, he said goodbye to the crowd, and dashed away from the village around the abrupt curve, and over the trembling trestle, amid deafening cheers, at the rate of 11 miles an hour. The Stourbridge Lion, as the engine was named, from its place of facture, was attached after the trial, to trains of coal cars, and drew them satisfactorily on the docks. But it could not be employed to advantage on so slight a railway which could not be fitted to the engine on account of the expense required. The Lion, was therefore, placed in a shanty on the docks, and stood there for years. Finally, it was taken to pieces, its boiler being carried to Carbondale and put in a foundry where it is still in use. The other two engines shared the same fate. JOHN B. JERVIS is still living, at 80 and upward, at Rome, in this State, and HORATIO ALLEN, over 70, resides at Orange, N. J. What marvellous progress men of their age have seen in their day!
